Section 1 - Introduction

Program Background

In July 1965, two important amendments to the Social Security Act greatly expanded the scope of medical coverage available to much of the population. Title XVIII established the Medicare program, and Title XIX created the optional state medical assistance program known as Medicaid. This legislation also provided for the federal government to match funds for states electing to implement a comprehensive health care program.

In November 1965, legislation was signed to implement the Title XIX program in the State of California, called “Medi-Cal.” A dental segment of this program was subsequently established. Initially, benefits provided under California Medi-Cal Dental were approved by the State and paid by Blue Shield of California as fiscal intermediary. Effective January 2018, Delta Dental of California was the Administrative Services Organization (ASO) and Gainwell Technologies was the Fiscal Intermediary (FI) of the Medi-Cal Dental program. Effective January 2022, Gainwell Technologies is the FI and the Dental Business Operations (DBO) of Medi-Cal Dental. The FI manages the claims processing system and the DBO provides dental administrative services.

Over the years, Medi-Cal Dental has undergone several changes. Legislation in 1991 brought about reduced documentation and prior authorization requirements for many common procedures, increased the fees paid to providers for these services, and expanded outreach activities to promote greater access to dental care for all Medi-Cal members. Medi-Cal Dental has also seen the creation of an orthodontic benefits program for members with handicapping malocclusion, cleft palate, and craniofacial anomalies. The scope of available services for children was widened with the addition of dental sealants as a covered benefit.

Innovative program enhancements such as electronic funds transfer of Medi-Cal dental payments and electronic claims submission continue to bring Medi-Cal Dental to the forefront as one of the most advanced systems of subsidized dental health care delivery in the United States.

Program Objectives

The primary objective of Medi-Cal Dental is to create a better dental care system and increase the quality of services available to those individuals and families who rely on public assistance to help meet their health care needs. Through expanding participation by the dental community and efficient, cost-effective administration of Medi-Cal Dental, the goal to provide quality dental care to Medi-Cal members continues to be achieved.

Regulations

Medi-Cal Dental is governed by policies subject to the laws and regulations of the Welfare and Institutions (W&I) Code, the California Code of Regulations (CCR), Title 22, and the California Business and Professions Code - Dental Practice Act. For additional information, visit these websites:

Section 2 - Program Overview

Provider Participation in California Medi-Cal Dental

To receive payment for dental services rendered to Medi-Cal members, prospective providers must apply and be approved by Medi-Cal Dental to participate in Medi-Cal Dental, the details of which are found in “Section 3: Enrollment Requirements” of this Handbook. When a provider is enrolled in Medi-Cal Dental, Medi-Cal Dental sends the provider a letter confirming the provider’s enrollment effective date. Medi-Cal Dental will not pay for services until the provider is actively enrolled in Medi-Cal Dental.

Compliance in Medi-Cal Dental

California Code of Regulations (CCR), Title 22, Section 51476, requires participants in Medi-Cal Dental to:

1. Comply with Title VI of the Civil Rights Act of 1964 (PL 88-352), the Americans with Disabilities Act of 1990, Section 504 of the Rehabilitation Act of 1973, and all requirements imposed by the Department of Health and Human Services (DHHS) (45 CFR Part 80), which states that “no person in the United States shall, on the ground of race, color, religion, sex, age, disability, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity for which the applicant receives state financial assistance from the Department.” Additionally, providers must comply with California Department of Corporations laws and regulations, which forbid discrimination based on marital status or sexual orientation (Rule 1300.67.10, California Code of Regulations).
2. Keep and maintain all records disclosing the type and extent of services provided to a member for a period of ten years from when the service was rendered (W&I Code, Sections 14124.1 and 14124.2).
3. Provide all pertinent records to any authorized representative of the state or federal government concerning services rendered to a member (California Code of Regulations (CCR), Title 22, Section 51476(g)).
4. Not bill or collect any form of reimbursement from members for services included in Medi-Cal Dental scope of benefits, with the exception of Share of Cost (California Code of Regulations (CCR), Title 22, Section 51002).
5. Certify:
    - the services listed on the Treatment Authorization Request (TAR)/Claim form have been provided to the member either by the provider or another person eligible under the Medi-Cal program to provide such services. Such person(s) must be designated on the treatment form.
    - the services were necessary to the health of the member.

- that he or she understands payment for services rendered will be made from federal and/or state funds and that any falsification or concealment of a material fact may be prosecuted under Federal and/or State laws.

All dental service claims billed by a Safety Net Clinic (SNC) and reimbursed by Medi-Cal that are rendered pursuant to a contract between the clinic and a private practice dental provider must adhere to the Medi-Cal Dental Handbook, and the applicable legal, enrollment, documentation, and treatment plan requirements.

Failure to comply with Medi-Cal Dental requirements will result in corrective actions. Please see "Section 8: Fraud, Abuse and Quality of Care" of this Handbook for more information.

Out-of-State Coverage

Out-of-state providers who wish to be reimbursed by Medi-Cal Dental for services provided to California Medi-Cal members are subject to specific regulations under California Code of Regulations (CCR), Title 22, Section 51006, Out-of-State Coverage. The regulations state:

(a) Necessary out-of-state medical care, within the limits of the program, is covered only under the following conditions:

(1) When an emergency arises from accident, injury, or illness; or

(2) Where the health of the individual would be endangered if care and services are postponed until it is feasible that he return to California; or

(3) Where the health of the individual would be endangered if he undertook travel to return to California; or

(4) When it is customary practice in border communities for residents to use medical resources in adjacent areas outside the State; or

(5) When an out-of-state treatment plan has been proposed by the member's attending physician and the proposed plan has been received, reviewed, and authorized by the Department before the services are provided. The Department may authorize such out-of-state treatment plans only when the proposed treatment is not available from resources and facilities within the State.

(6) Prior authorization is required for all out-of-state services, except:

(A) Emergency services as defined in Section 51056.

(B) Services provided in border areas adjacent to California where it is customary practice for California residents to avail themselves of such services. Under these circumstances, program controls and limitations are the same as for services from providers within the state.

(b) No services are covered outside the United States, except for emergency services requiring hospitalization in Canada or Mexico.

More information on Out-of-State Coverage is found on the Administrative Law website here.

Suspended and Ineligible Providers

Billing providers who submit claims for services provided by a rendering provider suspended from participation in Medi-Cal Dental are also subject to suspension from the program.

The List of Excluded Individuals/Entities compiled by the Office of Inspector General is available online here.

Enrollment Denied for Failure to Disclose Fraud or Abuse, or Failure to Remediate Deficiencies

Per Assembly Bill 1226 (Chaptered October 14, 2007, amending Sections 14043.1, 14043.26, and 14043.65 of the Welfare and Institutions Code):

A provider whose application for enrollment is denied for failure to disclose fraud or abuse, or failure to remediate deficiencies after Department of Health Care Services (DHCS) has conducted additional inspections, may not reapply for a period of three years from the date the application is denied.

Training Program

Medi-Cal Dental offers an extensive training program that has been designed to meet the needs of both new and experienced providers and their staff.

Seminars

Medi-Cal Dental conducts basic and advanced seminars statewide. Seminar attendees receive the most current information on all aspects of Medi-Cal Dental. Basic seminars address general program purpose, goals, policies, and procedures; provide instructions for the correct use of standard billing forms; and explain the reference materials and support services available to Medi-Cal dental providers. The expanded format of the advanced seminars offers in-depth information on topics such as Medi-Cal Identification Cards; dental criteria; radiograph and documentation requirements; processing codes; and other topics of specific concern to Medi-Cal dental providers.

In addition to the regular basic and advanced seminars scheduled each quarter, Medi-Cal Dental conducts workshops and orthodontic specialty seminars throughout the year. The uniquely designed workshops give inexperienced billing staff a “hands-on” opportunity to learn about Medi-Cal Dental and practice their newly acquired skills. Specialized training seminars have been developed for orthodontists who participate in the Medi-Cal Dental Orthodontic Services Program; these intensified sessions cover all aspects of the orthodontic program, including enrollment and certification, completion of billing forms, billing procedures, and criteria and policies specific to the provision of Medi-Cal dental orthodontic services.

Each Medi-Cal Dental training seminar is conducted by an experienced, qualified instructor.

Continuing education credits for all seminars are offered to dentists and registered or certified dental assistants and hygienists. Medi-Cal Dental training seminars are offered free of charge at convenient times and locations.

Although there are no prerequisites for attendance at any type of seminar, for Medi-Cal Dental to continue offering free provider training seminars and workshops, making reservations well in advance is recommended. If unable to keep the reservation, please notify Medi-Cal Dental promptly. Space is limited and “no-shows” prevent others from being able to attend. Seminar schedules are available on the Medi-Cal Dental website here.

On-Site Visits

Providers needing assistance may request an on-site visit by an Outreach Provider Field Representative by phoning the Telephone Service Center at (800) 423-0507. This personal attention is offered to help the provider and office staff better understand Medi-Cal Dental policies and procedures to easily meet program requirements.

Provider Appeals Process

The three separate, specific procedures for asking Medi-Cal Dental to reevaluate/appeal the denial or modification of a claim payment or a TAR authorization are as follows:

1. Submitting a Claim Inquiry Form (CIF)
2. Reevaluation of a Notice of Authorization (NOA)
3. First–Level appeal

To find out why payment of a claim was disallowed or to furnish additional information to Medi-Cal Dental for reconsideration of a payment denial or modification, the provider should begin by submitting the Claim Inquiry Form (CIF) within six calendar months of the Explanation of Benefits (EOB) date. Please refer to “Section 6: Forms” of this Handbook for guidelines for submitting a CIF. Check the box on the CIF marked “CLAIM REEVALUATION ONLY.” Remember to send a separate CIF for each inquiry.

Use the Notice of Authorization (NOA) to request a single reevaluation of modified or disallowed procedures on a TAR. Check the “Reevaluation is Requested” box in the upper right corner of the NOA. Do not sign the NOA when requesting reevaluation. Include any additional documentation for reconsideration and return the NOA to Medi-Cal Dental. Reevaluations may be requested only once.
In “Section 6: Forms” of this Handbook, the complete procedures are listed for requesting reevaluation of a TAR using the NOA.

If upon reconsideration Medi-Cal Dental upholds the original decision to disallow payment of the claim or authorization of treatment, the provider may request an appeal.

In accordance with Title 22, Section 51015, of the California Code of Regulations (CCR), Medi-Cal Dental has established an appeals procedure to be used by providers with complaints or grievances concerning the processing of Medi-Cal Dental TAR/Claim forms for payment. The following procedures should be used by dentists to appeal the denial or modification of a TAR or claim for payment of services provided under Medi-Cal Dental.

Provider First-Level Appeals

1. The provider must submit the appeal by letter to Medi-Cal Dental within 90 days of the EOB denial date. Do not use CIFs for this purpose.
2. The letter must specifically request a first-level appeal.
3. Send all information and copies to justify the request. Include all documentation and radiographs.
4. The appeal should clearly identify the claim or TAR involved and describe the disputed action.
5. First-level appeals should be directed to:

    Medi-Cal Dental
    Attn: Provider First-Level Appeals
    PO Box 13898
    Sacramento, CA 95853-4898

Medi-Cal Dental will acknowledge the written complaint or grievance within 21 calendar days of receipt. The complaint or grievance will be reviewed by Medi-Cal Dental Provider Services, and a report of the findings and reasons for the conclusions will be sent to the provider within 30 days of the receipt of the complaint or grievance. If review by Provider Services determines it necessary, the case may be referred to Medi-Cal Dental Professional Review.

If the complaint or grievance is referred to Medi-Cal Dental Professional Review, the provider will be notified that the referral has been made and a final determination may require up to 60 days from the original acknowledgement of the receipt of the complaint or grievance. Professional Review will make its evaluation and send findings and recommendations to the provider within 30 days of the date the case was referred to Professional Review.

The provider should keep copies of all documents related to the first-level appeal.

Under Title 22 regulations, a Medi-Cal dental provider who is dissatisfied with the first-level appeal decision may then use the judicial process to resolve the complaint. In compliance with Section 14104.5 of the Welfare and Institutions Code, the provider must “seek judicial remedy” no later than one year after receiving notice of the decision of the First Level Appeal.

Health Insurance Portability and Accountability Act (HIPAA) and the National Provider Identifier (NPI)

The Administrative Simplification provisions of the Health Insurance Portability and Accountability Act of 1996 (HIPAA) mandated the adoption of standard unique identifiers for health care providers, as well as the adoption of standard unique identifiers for health plans. The purpose of these provisions is to improve the efficiency and effectiveness of the electronic transmission of health information. The Centers for Medicare & Medicaid Services (CMS) has developed the National Plan and Provider Enumeration System (NPPES) to assign these unique identifiers. NPPES collects identifying information on health care providers and assigns each a unique National Provider Identifier (NPI) number.

The NPI is a unique 10-digit number, used across the country to identify providers to health care partners, regardless of type of practice or location. All public and private health plans are required by HIPAA to receive/submit the NPI as the only provider identifier in all electronic transactions.

It is required for use in all HIPAA transactions:

- Health care claims
- Claim payment/remittance advice
- Coordination of benefits
- Eligibility inquiry/response
- Claim status inquiry/response
- Referrals
- Enrollment

Information on how to apply for an NPI can be found here.

Registering NPIs

All NPIs (both billing and rendering providers) must be registered with Medi-Cal Dental to ensure appropriate payment of claims in a timely manner. Providers may register their NPIs through one of three options:

1. Submitting a hardcopy registration form (DHCS 6218) by mail, or
2. Calling the Medi-Cal Dental Telephone Service Center at (800) 423-0507, or
3. Register NPIs using the Medi-Cal Dental Web Collection System on the Medi-Cal Dental website.

Rendering providers who have not submitted a Social Security Number to Medi-Cal Dental at the time of enrollment will not be able to register using the Medi-Cal Dental Website. Such providers will need to register using the Medi-Cal Dental NPI Registration Form (DHCS 6218) found on the Medi-Cal Dental website.

Freedom of Information Act (FOIA)-Disclosable Data

NPPES health care provider data that are disclosable under the Freedom of Information Act (FOIA) will be disclosed to the public by the Centers for Medicare & Medicaid Services (CMS). In accordance with the e-FOIA Amendments, CMS has this data via the Internet. Data is available in two forms:

- A query-only database, known as the NPI registry
- A downloadable file

For more information on FOIA, visit the CMS website here.

Electronic Data Interchange (EDI)

Electronic Data Interchange (EDI) is the computer-to-computer transfer of transactions and information. Providers are encouraged to submit claims electronically for improved productivity and cost efficiency.

EDI enrollment and other important EDI information can be obtained by:

- accessing the EDI drop-down on the Medi-Cal Dental website here, or
- sending an email to Medi-CalDentalEDI@gainwelltechnologies.com, or
- calling the Telephone Service Center at (800) 423-0507 and ask for EDI Support.

Enrollment requirements for EDI can be found in “Section 3: Enrollment Requirements” of this Handbook.

Providers using EDI for claims submissions are still required to provide radiographs and other attachments to Medi-Cal Dental. They can be sent either by mail or digitally through a certified electronic attachment vendor.

Providers who submit directly to Medi-Cal Dental are limited to five (5) EDI file submissions per day. Additional files will be rejected, and providers will need to resubmit. There are no limitations on the number of documents contained in each file.

Digitized Images

In conjunction with claims and TARs submitted electronically, Medi-Cal Dental now accepts digitized radiographs and attachments submitted through electronic attachment vendors DentalXChange, National Electronic Attachment, Inc. (NEA), National Information Services (NIS), and Vyne.

***Note**:* Providers must be enrolled in EDI to submit documents electronically prior to submitting digitized images. For more information see “Section 3: Enrollment Requirements” of this Handbook.

Overview of TAR and Claim Processing

In administering Medi-Cal Dental, Medi-Cal Dental’s primary function is to process TARs and Claims submitted by providers for dental services performed for Medi-Cal recipients. It is the intent of Medi-Cal Dental to process TARs and Claims as quickly and efficiently as possible. A description of the processing workflow is offered to promote a better understanding of the Medi-Cal Dental automated claims processing system.

Document Control Number (DCN)

All incoming documents are received and sorted in the Medi-Cal Dental mail room. TARs and Claims are separated from other incoming documents, including general correspondence, and assigned a Document Control Number (DCN).

The DCN is a unique number containing 11 digits in the following format:

14 059 1 000 01

The first five digits of the DCN represent the Julian date of receipt. In the example shown above, “14” designates the year, and “059” designates the fifty-ninth day of that year. The sixth digit, “1,” identifies the type of document: 1 = TAR/Claim form. The remaining five digits of the DCN represent the sequential number assigned to the document. Thus, the document assigned the DCN shown in the example above would be the first TAR or Claim received by Medi-Cal Dental on the fifty-ninth day of 2014 or February 28, 2014.

TARs and Claims plus any attachments are then scanned, batched, and forwarded to Data Entry, where pertinent data from the forms is entered into the automated claims processing system.

Edits and Audits

After data from the TAR or Claim is scanned into the system, the information is automatically edited for errors. Errors are highlighted on a display screen, and the data entry operator validates the information entered against the scanned image. When necessary, corrections are made and the operator confirms that the information scanned is correct, the system prompts the operator as to the proper disposition of the TAR or Claim.

TAR/Claim Adjudication

Information on a TAR or Claim is audited via a series of manual and automated transactions to determine whether the services listed should be approved, modified, or

disallowed. If the claim data is determined to be satisfactory, the result is payment, with the issuance of an EOB and a check.

If the TAR data is determined to be satisfactory, the result is authorization of treatment, with the issuance of a NOA.

If the information submitted on the TAR or Claim is not sufficient, the document is held for further manual review until a resolution can be concluded. In some instances, more information may be required to make a determination. Medi-Cal Dental will issue a Resubmission Turnaround Document (RTD) to request additional information from the provider.

Radiographs

Radiographs should be taken only for clinical reasons as determined by the member’s dentist. Radiographs are part of the member’s clinical record, and the original images should be retained by the dentist. Originals should not be used to fulfill requests made by patients or third parties for copies of records.

Radiographs should be taken only for clinical reasons as determined by the member’s dentist. Radiographs are part of the member’s clinical record, and the original images should be retained by the dentist. Originals should not be used to fulfill requests made by patients or third parties for copies of records.

Radiographs and photographs will not be returned.

Adjunctive Services

D9222, D9223, D9239, D9243, D9950, D9952, D9999 (non-emergency)

Dental services provided to patients in hospitals, skilled nursing facilities, and intermediate care facilities are covered under Medi-Cal Dental only following prior authorization of each non-emergency and non-diagnostic dental service (Section 51307(f)(3), Title 22, California Code of Regulations). Emergency services may be performed on convalescent patients without prior authorization for the alleviation of pain or treatment of an acute dental condition. However, the provider must submit clinical information with the claim describing the member's condition and the reason the emergency services were necessary.

Medi-Cal Dental, within the Department, and California Code of Regulations (CCR), Title 22, Section 51455, states that prior authorization may be required of any or all providers for any or all covered benefits of the program except those services specifically exempted by Section 51056(a) and (b). These prior authorization requirements do not change when the member has other dental coverage; the provider should submit for prior authorization and indicate the primary carrier. No verbal

authorization will be granted by Medi-Cal Dental. Medi-Cal Dental reserves the right to require prior authorization in accordance with these guidelines.

Election of Prior Authorization

If a provider chooses to submit a TAR for services that do not normally require prior authorization, Medi-Cal Dental may not review these procedures. However, these services may be reviewed if they are submitted as part of a total treatment plan. When a provider receives a NOA for procedures on a TAR that do not normally require prior authorization, the NOA is not a guarantee that these procedures have been approved. (Refer to “Section 7: Codes”, Adjudication Reason Codes 355A, 355B, and 355C.)

If a provider elects to have any proposed treatment plan prior authorized, all provisions relating to prior authorization for all services listed apply.

Non-Transfer of Prior Authorization

Prior authorization is not transferable from one provider to another. If for some reason the provider who received authorization is unable to complete the service or the member wishes to go to another provider, another provider cannot perform the service until a new treatment plan is authorized under his/her own provider number.

To expedite processing of a TAR with a change of provider, submit a new TAR with an attached statement from the member indicating a change of provider.

Retroactive Prior Authorization

Title 22, Section 51003, State of California Code of Regulations (CCR) allows for the retroactive approval of prior authorization under the following conditions:

- When certification of eligibility was delayed by the county social services office.
- When member’s other dental coverage denied payment of a claim for services.
- When the required service could not be delayed.
- When a member does not identify himself/herself to the provider as a Medi-Cal member through deliberate concealment or because of physical or mental incapacity to identify himself/herself. The provider must submit in writing that concealment occurred, and the submission of the TAR must be within 60 days of the date the provider certifies he/she was made aware of the member’s eligibility.

Clinical Screening

During the processing of the TAR, Medi-Cal Dental may decide to further evaluate the member and schedule a clinical screening appointment.

If this occurs, the dental office will receive a letter notifying them that a screening will take place and the member will be sent a screening notification appointment letter. Clinical Screening Dentists, acting as members of the program’s Quality Assurance Committee, serve as impartial observers to examine patients and report their objective

clinical findings. Medi-Cal Dental utilizes these observations as additional information to help in making a final determination of medical necessity or the appropriateness and/or quality of care.

Screening protocol dictates that the Clinical Screening Dentist is not allowed to discuss their clinical observations with providers, patients, or any third party. In addition, providers or the member's representatives are not allowed to accompany the member to a screening. To ensure attendance, it is also recommended that providers fully discuss proposed treatment with their patients before a clinical screening appointment. Failure to do so may result in a potential delay or denial of treatment.

Billing and Payment Policies

Billing Members

Providers may not submit a claim to, or demand or otherwise collect reimbursement from, a Medi-Cal member, or from other persons on behalf of the member, for any service (other than Share of Cost). Section 51002 of Title 22 of the California Code of Regulations specifically prohibits billing or collecting from Medi-Cal members for services included in Medi-Cal Dental scope of benefits, except for those patients who have a fiscal liability to obtain and/or maintain eligibility requirements.

In addition, Title 42, Volume 3, of the Code of Federal Regulations, reads as follows:

> Section 447.15 Acceptance of State payment as payment in full.
>
> A State plan must provide that the Medicaid agency must limit participation in the Medicaid program to providers who accept, as payment in full, the amounts paid by the agency plus any deductible, coinsurance or copayment required by the plan to be paid by the individual. However, the provider may not deny services to any eligible individual on account of the individual's inability to pay the cost sharing amount imposed by the plan in accordance with Sec. 431.55(g) or Sec. 447.53. The previous sentence does not apply to an individual who is able to pay. An individual's inability to pay does not eliminate his or her liability for the cost sharing charge.

Finally, Welfare & Institutions Code reads:

> 14107.3 Any person who knowingly and willfully charges, solicits, accepts, or receives, in addition to any amount payable under this chapter, any gift, money, contribution, donation, or other consideration as a precondition to providing services or merchandise to a Medi-Cal member for any service or merchandise in the Medi-Cal's program under this chapter or Chapter 8 (commencing with Section 14200), except either:
>
> (1) To collect payments due under a contractual or legal entitlement pursuant to subdivision (b) of Section 14000; or

(2) To bill a long-term care patient or representative for the amount of the patient's share of the cost; or

(3) As provided under Section 14019.3, is punishable under a first conviction by imprisonment in the county jail for not longer than one year or state prison, or by a fine not to exceed ten thousand dollars ($10,000), or both such imprisonment and fine. A second or subsequent conviction shall be punishable by imprisonment in the state prison.

This clause means that a provider may not bill both the member and the program for the same Medi-Cal Dental procedure. If the provider submits a claim to Medi-Cal Dental, he/she can't bill the member for the difference between Medi-Cal Dental's Schedule of Maximum Allowances (SMA) and the provider's usual, customary, and reasonable (UCR) fee.

If Medi-Cal eligibility is verified, the provider may not treat the member as a private-pay member to avoid billing Medi-Cal Dental, obtaining prior authorization (when necessary) or complying with any other program requirement. In addition, upon obtaining eligibility verification, the provider cannot bill the member for all or part of the charge of a Medi-Cal covered service except to collect the Medi-Cal copayment or share of cost. Providers cannot bill members for private insurance cost-sharing amounts such as deductibles, co-insurance, or copayments.

This clause means that once a provider has checked a member's eligibility, or has submitted a claim or TAR for services, then that provider has agreed to accept that member as a Medi-Cal Dental member and can't later decide to not accept the member for treatment to avoid pre-authorization requirement or having to accept Medi-Cal dental fees. The provider also agrees not to charge the member for all or part of any treatment that has been deemed by Medi-Cal Dental to be a covered benefit.

A provider and member may enter into a private agreement under the following scenarios:

a. The provider and member have agreed to have specific dental treatment performed outside of Medi-Cal Dental. The provider must have not verified the member's eligibility or submitted any TAR or claim to Medi-Cal Dental for the current phase of treatment.

Or:

b. The provider has submitted a specific procedure on a TAR or claim to Medi-Cal Dental that was subsequently denied on the basis that it was either not a benefit under Medi-Cal Dental's scope of benefits or it was denied because it did not meet the medically necessary criteria of the program or time/frequency limitations for the specific procedure. Procedures that have been denied for technical or administrative reasons, such as failure to respond to Resubmission Turnaround Documents (RTDs), inadequate radiograph submission, signatures, or that the procedure is

included in a global procedure billed, cannot be billed to the member under any circumstances.

Providers should establish written contracts with members before any non-reimbursed Medi-Cal Dental treatment is rendered. They should also secure the proper Medi-Cal Dental denial if applicable.

Providers cannot bill a Medi-Cal dental member for broken appointments (42 CFR 447.15 and SSA 1902 (a)(19).

When members request copies of records and/or radiographs, providers can charge them a reasonable fee for duplication, but only when they have the same policy for their private patients.

Providers may only bill members their UCR fees if the $1,800 limit per calendar year for member services (dental soft cap) has been met and nothing has been paid on a procedure.

Providers may not bill members when the program has paid any amount on a specific procedure as the result of the member soft cap being met. This partial payment on a procedure must be considered payment in full.

Member Reimbursements

In accordance with Welfare and Institutions Code Section 14019.3, a Medi-Cal dental provider is required to reimburse a Medi-Cal dental member who paid for a medically necessary covered service rendered by the provider during any of the following three time periods: 1) the 90-day period prior to the month of application for Medi-Cal Dental; 2) the period after an application is submitted but prior to the issuance of the member's Medi-Cal card; and 3) after issuance of the member's Medi-Cal card for excess co-payments (i.e., co-payments that should not have been charged to the member).

By law, a Medi-Cal dental provider must reimburse a member for a claim if the member provides proof of eligibility for the time period during which the medically necessary covered service was rendered (and for which the member paid). Evidence of the reimbursement paid by the provider to the member should be submitted to Medi-Cal Dental as a claim with the appropriate documentation to indicate that Medi-Cal Dental eligibility was recently disclosed. The Department will allow the provider a timeliness override in order to bill Medi-Cal Dental for the repaid services. If the provider does not reimburse the member, the member may contact the Department, inform the Department of the provider's refusal to reimburse, and then submit a request for reimbursement directly to the Department. In this case, the Department will contact the provider and request that the provider reimburse the member. Should the provider refuse to cooperate, the Department will reimburse the member for valid claims and recoup the payment from the provider. Additional sanctions may be imposed on the provider such as those set forth in Welfare and Institutions Code Section 14019.3.

A new law, Senate Bill (SB) 639, effective July 1, 2020, specifies in Business and Professions (B&P) Code, if a dental provider accepts Medi-Cal, the treatment plan for a Medi-Cal patient shall indicate if Medi-Cal would cover an alternate, medically necessary service as defined in current law, WIC Section 14059.5. The treatment plan shall indicate that the Medi-Cal patient has a right to ask for only services covered by Medi-Cal and that the dental provider agrees to follow Medi-Cal rules to secure Medi-Cal covered services before treatment.

The law currently states:

- Dentists shall not charge to third-party lines of credit (arranged for or established in their office) any treatment costs before the treatments are provided, unless the dentist provides the patient a written or electronic notice and treatment plan, including an itemized list of treatments and services charged before rendering or incurring costs. [B&P Code § 654.3(b)].
    - The written treatment plan must include:
        - Each anticipated service to be provided and the estimated cost of each service.
        - The patient's private or government-estimated share of cost for each service (if applicable, including whether Medi-Cal will cover the service); and
        - If services are not covered by patient’s private or other insurance (including Medi-Cal), notification that the services may not be covered, and that the patient has the right to confirm coverage before starting dental treatment.

Written notice must be provided in patient’s threshold language. [B&P Code § 654.3(f)].

Changes to the law effective July 1, 2020:

- Dentists shall provide the patient a written or electronic notice and treatment plan, including an itemized list of treatments and services charged before rendering or incurring costs.
    - The notice must include the revised language specified in B&P Code § 654.3(g).
    - For all Medi-Cal providers, the written treatment plan must indicate if Medi-Cal would cover an alternate medically necessary service. It must also notify the Medi-Cal patient that they have a right to ask for only services covered by Medi-Cal, and that the dentist must follow Medi-Cal rules to secure Medi-Cal-covered services before treatment. [B&P Code § 654.3(h)(1)].

Not a Benefit/Global

Dental or medical health care services that are not covered by the Medi-Cal program are deemed “not a benefit.”

“Global procedures” are those procedures that are performed in conjunction with, and as part of, another associated procedure. Global procedures are not separately payable from the associated procedure.

Dental Materials of Choice

Medi-Cal Dental wants all providers to understand the important distinction between a member’s entitlement to a medically necessary covered dental service and your professional judgment of which dental material is used to perform the service.

In general, a Medi-Cal dental member is entitled to covered services that are medically necessary. The choice of dental material used to provide a specific service lies within the scope of the professional judgment of the dentist.

Providers may not bill members for the difference between the Medi-Cal Dental fee for covered benefits and the UCR fee.

Payment Policies

Medi-Cal Dental will only pay for the lowest cost procedure that will correct the dental problem. For example, Medi-Cal Dental cannot allow a porcelain crown when a restoration would correct the dental problem. A dental office cannot charge Medi-Cal Dental more than it charges a private member for the services performed. The dental office should list its UCR fees when filling out the claim, TAR or NOA, not the SMA.

For tax purposes, Medi-Cal Dental uses Form 1099 to report earnings to the Internal Revenue Service (IRS) for each billing provider who has received payment from Medi-Cal Dental during the year. Federal law requires that Medi-Cal Dental mail 1099 forms by January 31 of each year to reflect earnings from January 1 through December 31 of the previous year.

It is the provider’s responsibility to make certain that Medi-Cal Dental has the correct billing provider name, address, and Taxpayer Identification Number (TIN) or Social Security Number (SSN) that correspond exactly to the information the IRS has on file. If this information does not correspond exactly, Medi-Cal Dental is required by law to apply a 28 percent withholding to all future payments made to the billing provider. To verify how tax information is registered with the IRS, please refer to the preprinted label on IRS Form 941, “Employer’s Quarterly Federal Tax Return,” or any other IRS-certified document. The provider may also contact the IRS to verify how a business name and TIN or SSN are recorded.

If a provider does not receive the 1099 form, or if the tax or earnings information is incorrect, please contact Medi-Cal Dental at (800) 423-0507 for the appropriate procedures for reissuing a correct 1099 form.

Assistant Surgeons

Assistant surgeons should bill Medi-Cal Dental using Procedure D6199/D7999 (as applicable) and may be paid 20% of the surgical fee paid to the primary surgeon (dentist or physician) provided the following is submitted with the claim:

- The operating report containing the name of the assistant surgeon.
- Proof of payment to the primary surgeon.

Surgical fees include major maxillofacial and orthognathic procedures, as well as trauma surgery, and include all associated extractions. All other procedures (anesthesia, radiographs, restorations, etc.) performed on the same date of service as the surgical procedure including bedside visits and hospital care are not considered in the determinations of the surgical fee and are not payable to assistant surgeons.

Providing and Billing for Anesthesia Services

Prior Authorization is required for general anesthesia (GA) and intravenous (IV) sedation. A TAR can only be requested from an enrolled Medi-Cal Dental provider. The anesthesiologist may submit a TAR if they are enrolled as a billing provider. If an anesthesiologist is not a billing provider, the billing provider rendering the dental services may submit the TAR on behalf of the anesthesiologist rendering the anesthesia. Additionally, if an anesthesiologist is part of a group practice, the group practice may submit a TAR on behalf of the anesthesiologist.

Note: Prior authorization is not required for a member who resides in a state certified skilled nursing facility (SNF) or any category of intermediate care facility (ICF) for the developmentally disabled.

The provider must submit documentation indicated below to justify the medical necessity for anesthesia services.

If the provider provides clear medical record documentation of both number 1 and number 2 below, then the patient shall be considered for intravenous sedation or general anesthetic:

1. Use of local anesthesia to control pain failed or was not feasible based on the medical needs of the patient.
2. Use of conscious sedation, either inhalation or oral, failed or was not feasible based on the medical needs of the patient.

If the provider documents any one of numbers 3 through 6 then the patient shall be considered for intravenous sedation or general anesthetic:

3. Use of effective communicative techniques and immobilization (patient may be dangerous to self or staff) failed or was not feasible based on the medical needs of the patient.
4. Patient requires extensive dental restorative or surgical treatment that cannot be rendered under local anesthesia or conscious sedation.
5. Patient has acute situational anxiety due to a lack of psychological or emotional maturity that inhibits the ability to appropriately respond to commands in a dental setting.
6. Patient is uncooperative due to certain physical or mental compromising conditions.

Prior authorization can be waived when Intravenous Sedation/General Anesthesia is medically necessary to treat an emergency medical condition. An "emergency medical condition" is defined in Title 22, Division 3, Subdivision 1, Chapter 3, Article 2, Section 51056 (b).

Billing providers must ensure that all their rendering dental anesthesiologists and dentists providing general anesthesia and intravenous conscious sedation/analgesia are permitted or certified through the Dental Board of California prior to enrolling in Medi-Cal Dental and prior to treating Medi-Cal patients (B&P Code 1646.1and 1647.19-20). Payments made to billing providers for services performed by their unenrolled rendering providers will be subject to payment recovery per Title 22, Section 51458.1 (a)(6).

The following is required to receive payment for administering general anesthesia or intravenous conscious sedation/analgesia:

- The rendering provider performing the general anesthesia must have a valid permit with the Dental Board of California and the permit number must be on file with Medi-Cal Dental.
- The anesthesia record must be signed by the anesthesiologist performing the anesthesia procedure. The rendering provider name on the anesthesia record must coincide with the rendering provider number in field 33 on the claim for payment.

Tamper-Resistant Prescription Pads

For Medi-Cal Dental outpatient drugs to be reimbursable by the federal government, all written, non-electronic prescriptions must be executed on tamper-resistant pads. The tamper-resistant prescription pad requirement applies to over-the-counter drugs and impacts all dentists and other providers who prescribe outpatient drugs.

The Centers for Medicare and Medicaid Services (CMS) has issued guidance on this requirement that can be found on the website here.

As outlined by CMS, a prescription pad must contain at least one of the following three characteristics and, by October 1, 2008, all three characteristics:

1. One or more industry-recognized features designed to prevent unauthorized copying of a completed or blank prescription form.
2. One or more industry-recognized features designed to prevent the erasure or modification of information written on the prescription by the prescriber; or,
3. One or more industry-recognized features designed to prevent the use of counterfeit prescription forms.

The National Council for Prescription Drug Programs (NCPDP) has issued a letter providing additional information as to which tamper-resistant features fall within the three characteristics, a copy of which can be found on the Medi-Cal website.

The California-required tamper-resistant prescription pads for controlled drugs fully meet the federal compliance requirements. Prescribers are encouraged to use the current pads and may order tamper-resistant prescription pads from security prescription printer companies.

Those companies preapproved by the California Department of Justice and Board of Pharmacy to produce tamper-resistant prescription pads are listed here. This directory provides an alphabetical listing of companies and is updated as new security prescription printers are approved. Providers will need their prescriber's state license number and a copy of their DEA Registration when they place their order. Other security prescription printer companies are available and may be used as needed. To comply with California statute, regardless of how a provider chooses to procure tamper-resistant prescription pads for all other written Medi-Cal prescriptions, providers must continue to procure tamper-resistant prescription pads for controlled drugs from the list of approved security prescription printer companies.

Time Limitations for Billing

Time limitations for billing services provided under Medi-Cal Dental are governed by Section 14115 of the Welfare and Institutions Code. Claims received by Medi-Cal Dental within:

- Six calendar months after the end of the month in which the service was performed are considered for full payment (100 percent of the SMA).
- Seven to nine months after the end of the month in which the service was performed will be considered for payment at 75 percent of the SMA amount.
- Ten to twelve months after the end of the month in which the service was performed will be considered for payment at 50 percent of the SMA amount.

The time limitation for billing will be applied to each date of service.

Medi-Cal Dental may receive and process late claims upon review of substantiating documentation that justifies the late submittal of a claim. The following is a list of reasons delayed submissions are acceptable when circumstances are beyond the control of the provider:

1. A member did not identify himself/herself to a provider as a Medi-Cal member at the time services were performed. The provider must submit the claim for payment within 60 days after the date certified by the provider that the member first did identify himself/herself as a Medi-Cal member. The date so certified on the claim must be no later than one year after the month in which services were performed.
2. The maximum time period for submission of a claim involving other coverage is one year from the date of service, to allow sufficient time for the provider to obtain proof of payment or
non-liability of the other insurance carrier.
3. If a delay in submitting a claim for payment was caused by circumstances beyond the control of the provider, Medi-Cal Dental may extend the period of submission to one year from the date of service. Title 22, Section 51008, lists those specific circumstances that would be considered beyond the control of the provider and under which such an extension may be granted:
   - Delay or error in the certification or determination of Medi-Cal eligibility by the State or county.
   - Delay in delivering a completed removable appliance when a member does not return in a timely manner for delivery (Section 51470(b) states an undelivered, custom-made prosthesis must be retained for no less than one year after the date it was ordered and is payable at 80% of the amount after the provider has attempted to deliver the prosthesis to the member).
   - Damage to or destruction of provider's business office or records by natural disaster, including fire, flood, or earthquake; or circumstances involving such a disaster that have substantially interfered with the timely processing of bills.
   - Delay of required authorization by Medi-Cal Dental.
   - Delay by Medi-Cal Dental in supplying billing forms to the provider.
   - Theft, sabotage, or other deliberate, willful acts by an employee.
   - Other circumstances, clearly beyond the control of the provider that have been reported to the appropriate law enforcement or fire agency, where applicable.
   - Special circumstances, such as court or fair hearing decisions.

Interim Payments

Interim payments are made to Medi-Cal dental providers for unpaid claims that have been delayed at least 30 days due to Medi-Cal Dental or State errors, or for paid claims affected by retroactive changes.

A provider may contact Medi-Cal Dental, either by telephone or in writing, to request interim payment. Medi-Cal Dental will determine if a claim qualifies for interim payment. If it does not qualify, or if a determination cannot be made, Medi-Cal Dental must notify the provider by telephone within 24 hours, followed by a written notice within two workdays. If Medi-Cal Dental determines that a claim does qualify for interim payment, the findings are forwarded to the State for final approval or denial of the request.

When the State reaches a final decision, it will notify Medi-Cal Dental.

Medi-Cal Dental, in turn, will notify the provider. Once final approval of interim payment has been received from the State by Medi-Cal Dental, the payment request is processed, and a check is generated and sent to the provider.

Retroactive Reimbursement for Medi-Cal Members for Out-of-Pocket Expenses

As a result of the Conlan v. Shewry court decision, a process has been implemented by which members can obtain prompt reimbursement of their Medi-Cal Dental covered, out-of-pocket expenses. For questions or instructions regarding this reimbursement, please phone the Conlan Help Desk at (916) 403-2007.

Medi-Cal Dental Responsibilities

Medi-Cal Dental responsibilities include the following:

- Verifying member Medi-Cal Dental eligibility
- Evaluating supporting medical expense documentation provided by the member
- Reviewing rendered services for medical necessity
- Determining whether Medi-Cal Dental payment was previously made
- Verifying that the provider reimbursed the member
- Maintaining documentation for each case

Provider Notification of Member Request for Reimbursement

If a member’s request for reimbursement is validated by Medi-Cal Dental, a letter of request for member reimbursement is sent to the provider. This letter must be submitted with the provider’s claim for reimbursement.

Provider Responsibility

Upon receipt of a member reimbursement letter, providers are expected to reimburse members for monies that the member paid to the provider at the time of service, then submit a claim to Medi-Cal Dental. Claims will be denied if the member has not been reimbursed.

Claim Submission

Providers must submit claims to Medi-Cal Dental within 60 days of the date on the letter as follows:

- Submit an original hard copy claim solely for services mentioned in the member reimbursement letter
- Attach the member reimbursement letter

- Attach any additional required Medi-Cal Dental documentation

The original claim, member reimbursement letter, and supporting documentation should be submitted to the following address:

Medi-Cal Dental
Attn: Member Services
PO Box 526026
Sacramento, CA 95852-6026

No electronic claim submission is allowed. Medi-Cal Dental determines medical necessity; therefore, no TAR is required. The six-month billing limit will be waived for these claims.

Provider Reimbursement

Providers are reimbursed for medically necessary services according to the current SMA found in “Section 5: Manual of Criteria and Schedule of Maximum Allowances” of this Handbook.

To be reimbursed, the provider must have been enrolled as a Medi-Cal Dental provider on the date of service. Providers should contact Medi-Cal Dental at (800) 423-0507 if any of the following conditions apply:

- Provider was not a Medi-Cal Dental provider on the date of service but wants to enroll now
- Provider is a Medi-Cal Dental provider now but was not enrolled on the date of service and needs retroactive eligibility
- Provider was not a Medi-Cal Dental provider on the date of service but wants to temporarily enroll retroactively in Medi-Cal Dental in order to bill for the Member Reimbursement Process claims

For more information on Provider Enrollment, please refer to “Section 3: Enrollment Requirements” of this Handbook.

Medicare/Medi-Cal Crossover Claims

Medicare will pay for the following dental services: D0502, D5924, D5931, D5932, D5934, D5935, D5936, D5999, D7285, D7286, D7450, D7451, D7460, D7461, D7465, D7490, D7610, D7620, D7630, D7640, D7650, D7660, D7680, D7710, D7720, D7730, D7740, D7750, D7760, D7770, D7771, D7780, D7810, D7820, D7830, D7840, D7850, D7852, D7854, D7856, D7858, D7860, D7865, D7870, D7872, D7873, D7874, D7875, D7876, D7877, D7920, D7940, D7941, D7943, D7944, D7945, D7946, D7947, D7948, D7949, D7950, D7955, D7981, D7982, D7991, D7995, D7997.

Please note that the following codes listed above require prior authorization: D5999 (non-emergency), D7840, D7850, D7852, D7854, D7858, D7860, D7865, D7872,

D7873, D7874, D7875, D7876, D7877, D7940, D7941, D7943, D7944, D7945, D7950, D7955, D7991, D7995.

If a TAR/Claim is submitted for a Medi-Cal Dental member and Field 31 contains any of the procedure codes listed above, the claim or TAR must be accompanied by official documentation that clearly shows proof of payment/denial by Medicare or states the member's ineligibility. Documentation of ineligibility may be:

1. An Explanation of Medicare Benefits (EOMB) stating "No Part B coverage".
2. An EOMB stating "Benefits are exhausted".
3. An official document verifying the member's alien status.
4. An EOMB or any official document from the Social Security Administration verifying the member's ineligibility for Medicare.

Medi-Cal Dental processes claims and TARs for Medicare covered dental services in accordance with the following Medicare/Medi-Cal crossover policies and procedures:

1. A provider must be enrolled with Medicare to bill Medi-Cal Dental for Medicare/Medi-Cal crossover services.
2. Medicare must be billed for Medicare covered services prior to billing Medi-Cal Dental. When billing Medi-Cal Dental, attach the EOMB to the claim form.
3. Approved and paid Medicare dental services do not require prior authorization by Medi-Cal Dental.
4. Payment for a Medicare covered dental service does not depend on the place of service; hospitalization or non-hospitalization of a member has no direct bearing on the coverage or exclusion of any given dental procedure.

For information about Medicare enrollment and billing procedures, please visit the Noridian Healthcare Solutions website.

When processing a claim with Medicare covered services, Medi-Cal Dental reviews the EOMB submitted with the claim. The Medicare procedures listed on the EOMB are matched with the Medi-Cal Dental procedures listed on the claim. Payment calculations are based on Medicare deductibles, coinsurance, and Medi-Cal allowable amounts up to the SMA.

Orthodontic Services Program

The provision of medically necessary orthodontic services is limited to Medi-Cal and California Children's Services (CCS) eligible individuals under 21 years of age by dentists qualified as orthodontists under the California Code of Regulations, Title 22, Section 51223(c). For additional information, see "Section 9: Special Programs" of this Handbook.

Dental Restorations for Children Under Age Four and for Developmentally Disabled Members of Any Age

Senate Bill (SB) 1403 (Chapter 61, signed July 7, 2006), stipulates that “For any member who is under four years of age, or who, regardless of age, has a developmental disability, as defined in subdivision (a) of [Welfare and Institutions Code] Section 4512, radiographs or photographs that indicate decay on any tooth surface shall be considered sufficient documentation to establish the medical necessity for treatment provided.”

Claims, NOAs, and CIFs with dates of service on or after January 1, 2007, and any TAR or reevaluation requiring review, will only require one radiograph or photograph that demonstrates medical necessity to be submitted. When the radiograph or photograph demonstrates at least one decayed surface, all of the fillings and prefabricated crowns on that document will be allowed, unless the member’s history indicates the tooth has been previously extracted, a recent filling/prefabricated crown, etc.

Providers who are replacing fillings or prefabricated crowns that they previously placed must submit a current radiograph or photograph of that tooth that demonstrates the need for replacement when the applicable time limitations have not been met.

- When no radiographs or photographs are submitted, or when the single radiograph or photograph that is submitted is not current or is non-diagnostic, all fillings and prefabricated crowns on that document will be denied/disallowed.
- When there is no decay evident in the single radiograph or photograph submitted, all restorations will be denied/disallowed.
- When a pulpotomy is requested in conjunction with a filling/prefabricated crown, and the filling/prefabricated crown is denied/disallowed, the pulpotomy will also be disallowed.

Children Under Age Four

The member must be under the age of four at the time the services were rendered or when the request for authorization was reviewed.

Developmentally Disabled (DD) Members

Senate Bill (SB) 1403 (Chapter 61, signed July 7, 2006), amends Section 14132.88 of the Welfare and Institutions (W&I) Code and stipulates that for any member who is under four years of age, or who, regardless of age, has a developmental disability, as defined, radiographs or photographs that indicate decay on any tooth surface shall be

considered sufficient documentation to establish the medical necessity for treatment provided.

Once a provider has established the fact that their member is a client of a Regional Center/ Department of Developmental Services, he/ she must document that fact on the document by writing the following – “Registered Consumer of the Department of Developmental Services.” No substitute language or documentation will suffice.

When requesting authorization/payment of prefabricated crowns on permanent teeth for DD patients, the requirement for arch films will be waived.

Hospital (Special) Cases

When dental services are provided in an acute care general hospital or a surgicenter, the provider must document the need for hospitalization, e.g., retardation, physical limitations, age, etc.

To request authorization to perform dental-related hospital services, providers need to submit a TAR with radiographs/photos and supporting documentation to Medi-Cal Dental. Prior authorization is required only for the following services in a hospital setting: fixed partial dentures, removable prosthetics, and implants.

It is not necessary to request prior authorization for services that do not ordinarily require authorization from Medi-Cal Dental, even if the services are provided in an outpatient hospital setting. In all cases, an operating room report or hospital discharge summary must be submitted with the claim for payment.

Hospital Inpatient Dental Services (Overnight or Longer)

Inpatient dental services are defined as services provided to members residing in hospitals, skilled nursing facilities (SNFs), intermediate care facilities (ICFs), and those who are homebound.

Dental services provided to patients in hospitals are covered under Medi-Cal Dental only following prior authorization of each non-emergency and non-diagnostic dental service (Section 51307(f)(3), Title 22, California Code of Regulations). Emergency services may be performed on hospital patients without prior authorization for the alleviation of pain or treatment of an acute dental condition. However, the provider must submit clinical information with the claim describing the member’s condition and the reason the emergency services were necessary.

Inpatient dental services (hospitals, SNFs, and ICFs) are covered only when provided on the signed order of the provider responsible for the care of the member. A claim for inpatient dental services must show verification that the services are to be rendered on the signed order of the admitting physician or dentist.

If a Medi-Cal Dental provider needs to perform dental services within a hospital inpatient setting, the provision of the medical support services, e.g., Operating Room (OR) time, surgical nurse, anesthesiologist, or hospital bed, will depend on how the Medi-Cal Dental member receives their Medi-Cal medical services. Medi-Cal Dental members may receive their medical services through a number of different entities:

- Medi-Cal Fee-For-Service (FFS)
- Geographic Managed Care (GMC)
- Medi-Cal Managed Care
- County Organized Health Systems (COHS)

Medi-Cal Dental providers should refer to "Section 4: Treating Members" of this Handbook for instructions on how to determine the entity providing a member's medical services.

Prior authorization is required for each non-emergency and non-diagnostic dental service provided to Medi-Cal Dental members in a hospital inpatient setting where the member's hospital stay exceeds 24 hours. This authorization must be submitted on the Medi-Cal Form 50-1 and sent directly to this address:

Department of Health Care Services
San Francisco Medi-Cal Field Office
P.O. Box 3704
San Francisco, CA 94119
(415) 904-9600

The Medi-Cal Form 50-1 should not be submitted to Medi-Cal Dental as this will only delay the authorization for hospital admission.

For more information regarding the Medi-Cal TAR field offices, please review this document.

If the member requires emergency hospitalization, a "verbal" authorization is not available through the Medi-Cal field office. If the member is admitted as an emergency case, the provider may indicate in the Verbal Authorization Box on the Medi-Cal Form 50-1, "Consultant Not Available" (CNA). An alternative is to admit the member as an emergency case and submit the Medi-Cal Form 50-1 retroactively within ten working days to the Medi-Cal field office.

A claim for payment of dental services is submitted to Medi-Cal Dental and must be accompanied by a statement documenting the need and reason the emergency service was performed. Include a copy of the operating room report.

Requesting Hospital Dental Services for Medi-Cal Members Enrolled in the GMC, COHS, or Medi-Cal Managed Care Plans

The dentist must contact the member's medical plan to arrange for hospital or surgicenter admission and medical support services. All medical plans that provide services to Medi-Cal managed care members are contractually obligated to provide medical support services for dental treatment. If the Medi-Cal Field Office receives a Form Medi-Cal Form 50-1 for a Medi-Cal member who receives their medical benefits through one of these programs, the form will be returned to the submitting dentist.

Homebound Patients (Place of Service 2)

A physician's letter is required when requesting dental services for a member who cannot leave his/her private residence due to a medical condition. The physician's letter must be on his/her professional letterhead with the following information documented:

- The member's specific medical condition
- The reason the member cannot leave the private residence
- The length of time the member will be homebound

Emergency services may be performed on homebound patients without prior authorization for the alleviation of pain or treatment of an acute dental condition. In addition to the submission requirements for each individual procedure, the provider must also submit documentation with the claim describing the member's condition and the reason the emergency services were necessary. A letter from the member's physician, as stated above, must also be submitted with the claim.

Skilled Nursing and Intermediate Care Facilities (Place of Service 4 or 5)

The California Department of Public Health defines a Skilled nursing facility and Intermediate care facility as the following:

- Skilled nursing facility (SNF) means a health facility that provides skilled nursing care and supportive care to patients whose primary need is for availability of skilled nursing care on an extended basis. Refer to California Health & Safety Code, Section 1250 for more details.
- Intermediate care facility (ICF) means a health facility that provides inpatient care to ambulatory or non-ambulatory patients who have a recurring need for skilled nursing supervision and need supportive care, but who do not require availability of continuous skilled nursing care. Refer to California Health & Safety Code, Section 1250 for more details.

Providers may use the California Department of Public Health website to verify licensed facilities here.

All TARs and claims submitted for patients residing in SNFs or ICFs must include the following:

- Place of service 04 or 05 (only) must be indicated regardless of where the dental services were or will be performed.
- Facility name, phone number and address, regardless of where the dental services were or will be performed in Box 34 of the claim or TAR form.
- When treating residents outside of the facility, indicate the actual place of service in Box 34.

All procedures rendered on patients residing in an SNF or ICF require prior authorization except for the following emergency and diagnostic services.

D0120, D0145, D0150, D0210, D0220, D0230, D0240, D0250, D0270, D0272, D0274, D0330, D0340, D0350, D0502, D1110, D1120, D1206, D1208, D1320, D1556, D1557, D1558, D1999, D2940, D2941, D3221, D4355, D4910, D4920, D5410, D5411, D5421, D5422, D5511, D5512, D5520, D5611, D5612, D5621, D5622, D5630, D5640, D5650, D5660, D5850, D5851, D6092, D6093, D7285, D7286, D7510, D7511, D7521, D9110, D9120, D9210, D9222, D9223, D9239, D9243, D9410, D9430, D9440, D9910, D9920, D9930, D9995, D9996.

Emergency services may be performed on SNF and ICF patients without prior authorization for the alleviation of pain or treatment of an acute dental condition. In addition to the submission requirements for each individual procedure, the provider must also submit documentation with the claim describing the member’s condition and the reason the emergency services were necessary.

To determine medical necessity and the member’s adaptability and compliance with requested treatment, prior authorization requests may be evaluated by a Clinical Screening Dentist.

Note*: Prior authorization will be waived for facility patients treated in a hospital or surgical center except for fixed partial dentures and removable prostheses and implants.*

Hospital Care (Including Surgical Centers)
(Place of Service 6 or 7)

In a hospital setting, prior authorization for treatment included in the scope of benefits is not required except for laboratory processed crowns, fixed partial dentures, and implants. When treatment is performed without prior authorization (on a procedure that would normally require prior authorization), requests for payment must be accompanied by radiographs, photographs, and any documentation to adequately demonstrate the medical necessity. Refer to the individual procedures for specific requirements and limitations. In addition, requests for payment must be accompanied by an operating room report that indicates the amount of time spent in the operating room suite.

Mobile Dental Treatment Vans
(Place of Service 8)

Mobile dental treatment vans are considered, under Medi-Cal Dental, to be an extension of the provider’s office and are subject to all applicable requirements of the program.

Section 3 - Enrollment Requirements

To receive payment for dental services rendered to Medi-Cal members, prospective providers must apply and be approved by Medi-Cal Dental to participate in Medi-Cal Dental. When a provider is enrolled in Medi-Cal Dental, Medi-Cal Dental sends the provider a letter confirming the provider's enrollment effective date. Medi-Cal Dental will not pay for services until the provider is actively enrolled in Medi-Cal Dental.

On October 31, 2022, DHCS implemented the Provider Application and Validation for Enrollment (PAVE) Provider Portal to simplify and accelerate Medi-Cal enrollment processes for dental providers. The PAVE portal is a web-based application that allows dental providers to submit enrollment applications and required documentation to DHCS electronically.

Note: ***DHCS no longer accepts paper applications.***

The Medi-Cal Provider e-Form Application complies with current state and federal regulatory and statutory requirements. All dental providers must use PAVE e-forms to enroll in Medi-Cal, report changes to current enrollments, and complete revalidation or continued enrollment for individual, group, and rendering provider types.

The easy-to-use, intuitive PAVE portal streamlines the enrollment process by offering:

- Secure login
- Document uploading
- Electronic signatures
- Application progress tracking
- Social collaboration

For assistance with the application process, practitioners may contact the Provider Enrollment Division (PED):

Visit the PED web page and select the Inquiry Form link under "Provider Resources" for the PED Online Inquiry Form.

For PAVE technical support, please call the PAVE Help Desk at (866) 252-1949. The Help Desk is available Monday-Friday from 8:00 am - 6:00 p.m., excluding State holidays. You can also use the PAVE Chat feature while in PAVE. Chat is available Monday-Friday from 8:00 am - 4:00 pm, excluding State holidays.

Rendering Provider Enrollment Process

In accordance with the California Code of Regulations (CCR), Title 22, §51000.31(b), rendering providers must apply to Medi-Cal Dental by submitting an application. Medi-Cal Dental will not pay for services until the provider is actively enrolled in Medi-Cal Dental.

In order to enroll in Medi-Cal, providers must submit an e-Form application using the Provider Application and Validation for Enrollment (PAVE) Provider Portal which is an improved web-based alternative to the former paper application enrollment process.

For assistance with the application process, practitioners may contact the Provider Enrollment Division (PED) by visiting the PED web page then select the Inquiry Form link under "Provider Resources" for the PED Online Inquiry Form.

Rendering providers must provide a National Provider Identifier (NPI). To obtain an NPI, visit the CMS website here.

Any modification to a rendering or billing provider's information (such as a change in address or ownership) requires Medi-Cal Dental notification within 35 days of the change.

Applicants who are natural persons licensed or certificated under the Business and Professions Code or the Osteopathic or Chiropractic Initiative Acts to provide health care services, or who are professional corporations under subdivision (b) of Section 13401 of the Corporations Code, must enroll in Medi-Cal Dental as either individual providers or as rendering providers in a provider group. This is true even if the person or the professional corporation meets the requirements to qualify as exempt from clinic licensure under subdivision (a) or (m) of Section 1206 of the Health and Safety Code (see W&I Code Section 14043.15(b)(1)).

W&I Code Section 14043.26(a)(1) requires a prospective provider not currently enrolled in Medi-Cal Dental or a provider applying for continued enrollment to complete and submit an application for enrollment, continued enrollment, or enrollment at a new location or a change in location.

Tax Identification Number

Verify Your Tax Identification Number (TIN)

Medi-Cal Dental reports annually to the Internal Revenue Service (IRS) the amount paid to each enrolled billing provider. The legal name and TIN must match exactly with the name and TIN on file with the IRS. TINs may be either a Social Security Number (SSN) or an employer identification number (EIN), which are printed on the front of the check and on the Explanation of Benefits (EOB). Please verify that the legal name and TIN on

the next check/EOB are correct. If the legal name and TIN do not match, the IRS requires Medi-Cal Dental to withhold 28% of future payments.

Providers do not need to notify Medi-Cal Dental if the legal name and/or TIN appearing on the Medi-Cal Dental check/EOB are correct. In order to update your TIN and/or legal name, providers must submit an e-Form application using the Provider Application and Validation for Enrollment (PAVE) Provider Portal.

Inactivated Providers

To remain actively enrolled in Medi-Cal Dental, providers must comply with all enrollment requirements.

Medi-Cal Dental providers may automatically be inactivated from Medi-Cal Dental if any of the following occurs:

- Dental license is expired, revoked, inactivated, denied renewal, or suspended by the Dental Board of California;
- Mail is returned by the post office marked “Undeliverable” due to incorrect address.
- Twelve months with no claim activity in Medi-Cal Dental.

Participating Medi-Cal Dental providers are required to keep Medi-Cal Dental records up to date by promptly reporting any changes to previously submitted information, e.g., name and address changes, the addition of associates, or the sale of a practice within 35 days.

Providers who have had no claim activity in six months will be sent a letter stating they shall be deactivated unless providers submit a claim or request to remain active within six months after the date of the notice. A provider who has not submitted a claim for reimbursement over a continuous 12-month period shall be deactivated per Welfare and Institutions Code Section 14149.8(b)(2) and 14043.62 which reads as follows:

> The department shall maintain the provider network on a monthly basis by deactivating a billing provider who has not, over a continuous 12-month period, submitted a claim for reimbursement for services rendered.
>
> Prior to deactivating a provider, the department shall send a notice to the provider informing the provider that the provider shall be deactivated from Medi-Cal Dental unless the provider requests reactivation within six months after the date of the notice. The department shall not disenroll a provider until six months after the date of that notice.
>
> The department shall deactivate, immediately and without prior notice, the provider numbers used by a provider to obtain reimbursement from Medi-Cal Dental when warrants or documents mailed to a provider’s mailing address or pay-to address, if any, or its service or business address, are returned by the United States Postal Service as not deliverable or when a provider has not submitted a claim for

reimbursement from Medi-Cal Dental for one year. Prior to taking this action the department shall use due diligence in attempting to contact the provider at its last known telephone number and ascertain if the return by the United States Postal Service is by mistake or shall use due diligence in attempting to contact the provider by telephone or in writing to ascertain whether the provider wishes to continue to participate in Medi-Cal Dental. If deactivation pursuant to this section occurs, the provider shall meet the requirements for reapplication as specified in this article or the regulations adopted thereunder.

After inactivation, providers will be required to re-apply to Medi-Cal to serve Medi-Cal members. In order to enroll in Medi-Cal, providers must submit an e-Form application using the Provider Application and Validation for Enrollment (PAVE) Provider Portal.

Voluntary Termination of Provider Participation

Providers may terminate their participation in Medi-Cal Dental at any time. Written notification from the provider of voluntary termination can be submitted to PED by submitting an e-Form application via the Provider Application and Validation for Enrollment (PAVE) Provider Portal.

Electronic Data Interchange (EDI)

To submit documents and receive corresponding reports electronically, dentists who have enrolled and are certified to participate in Medi-Cal Dental must apply and be approved by Medi-Cal Dental to participate in the EDI program. The Medi-Cal Dental Telecommunications Provider and Biller Application/Agreement (for electronic claim submission), hereinafter “Trading Partner Agreement,” must be signed and submitted along with the Provider Service Office Electronic Data Interchange Option Selection Form. Failure or refusal to sign this Agreement may be grounds for immediate suspension from participation in the electronic claims submission program pursuant to Title 22, California Code of Regulations (CCR) §51502.1(j). This Agreement is also required for EDI clearinghouses and billing intermediaries billing electronically on behalf of Medi-Cal Dental providers. Providers can also authorize Medi-Cal Dental to provide remittance data electronically by completing the Electronic Remittance Advice (ERA) Enrollment Form.

When a provider is enrolled in the Medi-Cal Dental EDI program, Medi-Cal Dental sends the provider a letter confirming the provider’s EDI enrollment. Confirmation is also sent by email if a valid email address is available.

“Section 6: Forms” of this Handbook gives instructions for completing all required billing forms. Medi-Cal Dental's Electronic Data Interchange (EDI) service gives participating

providers the option of submitting many of these completed treatment forms electronically to Medi-Ca Dental and receive related information electronically.

HIPAA-Compliant Electronic Format Only

Medi-Cal Dental accepts only the HIPAA-compliant electronic format for claims (ASC X12N 837) and claim status (ASC X12N 276) from certified trading partners. A provider submitting claims electronically is required to undergo certification for the HIPAA-compliant format. However, if a provider is submitting claims electronically through its contracted clearinghouse, only the clearinghouse must be certified. In this case, a provider must ensure that its contracting clearinghouse has been certified through Medi-Cal Dental, prior to submitting claims.

A copy of the HIPAA Transaction Standard Companion Guide (Medi-Cal Dental EDI Companion Guide), as well as an EDI Enrollment Packet, can be obtained by contacting the Telephone Service Center toll-free at (800) 423-0507 and asking for EDI Support. Requests may also be sent by email to Medi-CalDentalEDI@gainwelltechnologies.com. Providers may also access EDI enrollment forms and guides from the Medi-Cal Dental website here.

Ineligibility for EDI

A Medi-Cal Dental provider is not eligible for EDI if, within the past three years, criminal charges were filed against the provider for fraudulently billing Medi-Cal Dental, or if the provider has been suspended from Medi-Cal Dental or has been required to pay recovery to Medi-Cal for overpayments in excess of 10 percent of the provider’s total annual Medi-Cal income.

If a Medi-Cal Dental provider has been placed on Prior Authorization (PA) and/or Special Claims Review (SCR), submitting electronically is still possible. Providers must flag the radiograph or the attachment indicator to “Y” (Yes) for procedures on PA and/or SCR to avoid the claim from being denied.

Electronic Claims Submission and Payment Services

Submitting claims electronically reduces processing time for claims, makes billing and tracking documents easier, and helps maximize computer capabilities. EDI-enrolled providers can also receive the Notice of Authorization (NOA) and Resubmission Turnaround Document (RTD) forms electronically along with other EDI reports.

For an EDI Enrollment Packet, please contact the Telephone Service Center at (800) 423-0507. For an EDI How-To Guide or other information on submitting Medi-Cal Dental claims and Treatment Authorization Requests (TARs) electronically, please call EDI Support at (800) 423-0507. Requests may also be sent by email to:

Medi-CalDentalEDI@gainwelltechnologies.com. Providers may also access EDI enrollment forms and Guides from the Medi-Cal Dental website here.

A dental office wishing to use EDI must have a computer system that includes an internet connection and a software program that will allow the transmission of claims. If the office already has a computer, check with the practice management system vendor to determine if the software will enable submitting of claims electronically to Medi-Cal Dental. The software vendor can also assist in determining the best computer hardware and software options for electronic claims processing needs.

Providers enrolled to submit electronically have the option of submitting documents on paper at their discretion.

EDI enrollment allows providers to send TARs, claims, and NOAs for payment, through File Transfer Protocol (FTP) directly from the office to Medi-Cal Dental, or through a billing intermediary or clearinghouse. EDI gives providers the option of receiving claims-related information electronically from Medi-Cal Dental, such as reports, Explanation of Benefits (EOBs), and Electronic Remittance Advice (ERA) data for performing automated accounts receivable reconciliation.

EDI Providers who receive the 835 Electronic Remittance Advice (ERA) and/or Supplemental EOB file in Detail format may opt to discontinue receiving paper EOBs. To stop receiving paper EOBs, providers enrolled to submit electronically must complete and submit the Provider Service Office Electronic Data Interchange Option Selection form reflecting that option. The decision to not receive a paper EOB will not affect the mailing of a provider's checks.

The EDI system format also allows the electronic submission of comments that may be pertinent to the treatment requested or provided. Medi-Cal Dental provides identification labels and specially marked envelopes for mailing additional information (such as radiographs or other documentation) which may be required to process electronically submitted treatment forms.

Providers who submit directly to Medi-Cal Dental are limited to five (5) EDI file submissions per day. Additional files will be rejected, and providers will need to resubmit. There are no limitations on the number of documents contained in each file.

Use red-bordered EDI envelopes and EDI labels only when Medi-Cal Dental requests them through the “X-Ray/Attachment Request” report (CP-O-971-P).

Use green-bordered envelopes when submitting claims, NOAs and RTDs (conventional paper forms) or those made available electronically that are printed onto paper and mailed in for processing as well as Claim Inquiry Forms (CIFs). No EDI labels on EDI RTDs or NOAs, please.

What Can Be Sent Electronically to Medi-Cal Dental

The following items can be transmitted electronically:

- Claims,
- TARs,
- NOAs for payment when treatment is completed (if the system or clearinghouse can accept them; only selected software and clearinghouses include the EDI NOA feature).
- Radiographs,
- Justification of Need for Prosthesis Forms (DC054), and
- Narrative documentation (surgical reports, etc.).

The following items **cannot** be transmitted electronically and **must** be mailed to Medi-Cal Dental:

- Orthodontic treatment plans, however, diagnostic services associated with orthodontic treatment can be submitted electronically.
- Completed RTDs (even those provided electronically that are printed on paper),
- NOAs (if the provider’s system cannot submit them electronically),
- Requests for reevaluation,
- NOAs issued for paper documents,
- CIFs or RTDs issued for paper or EDI documents, and/or
- Any documentation related to claims and TARs submitted on paper.

Within 24 to 48 hours after sending documents electronically, Medi-Cal Dental provides an acknowledgement report to confirm receipt of claims and TARs (CP-O-973-P: Daily EDI Documents Received Today). Another report (CP-O-971-P: X-Ray/Attachment Request) is issued the same day the acknowledgement report is issued if documentation is needed.

It is important to review these reports to verify submitted forms and documentation are being received by Medi-Cal Dental. If these reports are not being received, check with your vendor, clearinghouse, or EDI Support.

Sending Radiographs and Attachments

Providers should maintain a supply of EDI labels and envelopes (small and large X-ray envelopes, and mailing envelopes) which are printed in red ink. When entering the document into the practice management system, determine whether radiographs or documentation are needed. If so, prepare EDI labels and envelopes:

Insert the radiographs into a small (DC-014F) or large (DC-014E) EDI x-ray envelope:

- Affix a blank EDI label onto the outside of the x-ray envelope in the outlined box.
- Staple any necessary documentation, such as a Justification of Need for Prosthesis form (DC054), onto the outside of the EDI x-ray envelope.
- Write the member's name on the inside of the envelope flap to help you identify who the radiographs belong to

Upon receipt of the X-ray/Attachment Request report (CP-O-971-P), on an EDI label, write:

- The Provider's Billing NPI next to "Medi-Cal Dental provider ID"
- The 11-digit Base DCN (Document Control Number) next to "Medi-Cal Dental DCN"
- The member's name next to "Patient MEDS ID"
- The Provider's name and address under the shaded area. Leave the shaded area blank.

Mail several large and small EDI x-ray envelopes to Medi-Cal Dental in the large EDI mailing envelope marked with the special EDI post office box
(DC-006C).

EDI Labels can be ordered in three formats:

- Laser (blank or preimprinted with the Provider's name, address, and Billing NPI)
- 1-up continuous
- 3-up continuous

Attachments, such as claims information, transmitted electronically to Medi-Cal Dental are delivered to Medi-Cal Dental's computer system for processing. Medi-Cal Dental providers may use EDI to submit treatment forms and receive reports and other electronic data 24 hours per day Monday through Sunday except for 10 p.m. to 2 a.m. (Pacific Time). Electronic documents received at Medi-Cal Dental by 6:00 p.m. (Pacific Time) Monday through Saturday (holidays excluded) are entered into EDI processing the same evening. Staff are also available to answer EDI-related questions and assist with any problems an office may be experiencing with electronic claims transmission

Monday through Friday during normal work hours.

Digitized Images and EDI Documents

In conjunction with electronically submitted documents, Medi-Cal Dental accepts digitized images submitted through electronic attachment vendors: DentalXChange, National Electronic Attachment, Inc. (NEA), National Information Services (NIS) and Vyne.

Providers must be enrolled to submit documents electronically prior to submitting digitized images. For more information regarding digitized images and EDI enrollment, please contact:

- Telephone Service Center toll-free: (800) 423-0507
- EDI Support: (800) 423-0507 and ask for EDI Support
- Email: Medi-CalDentalEDI@gainwelltechnologies.com

Digitized Imaging Vendor and Document Specifications

Digitized radiographs, photographs, scanned State-approved Justification of Need for Prosthesis forms (DC054), and other narrative reports may be submitted in conjunction with EDI claims and TARs through DentalXChange, NEA, NIS or Vyne websites.

- **DentalXChange Users:** Send the claim or TAR to DentalXChange. The document will automatically validate according to Medi-Cal Dental requirements to determine if an attachment is needed. Add radiographs, narratives, Justification of Need for Prosthesis forms (DC-054), and other attachments in the DentalXChange ClaimConnect interface. The DXC Attachment ID will automatically be delivered to Medi-Cal Dental when the claim or TAR is sent. For additional information providers may visit the DentalXChange website or call (800) 576-6412 Ext 455.
- **NEA Users**: Digitized radiographs and attachments must be transmitted to NEA before submitting an EDI document. NEA's reference number must be entered on the EDI claim or TAR in the following format: "**NEA#" followed by the reference number, with no spaces - Example: NEA#9999999**. It is important to use this format and sequence.

  Some dental practice management and electronic claims clearinghouse software have an interface with NEA that automatically enters the reference number into the notes of the claim. For additional information, providers can visit the NEA website or call (800) 782-5150.

- **NIS Users**: The EDI document should be created. Before transmitting a document electronically, the digitized radiographs and attachments should be attached. The Document Center should be used to scan images of Medi-Cal

Dental's Justification of Need for Prosthesis Form (DC054), photos, etc. The date images were created should be entered in the notes for each attachment. For additional information, providers can call (800) 734-5561 or visit any of the following NIS websites based on their software version:

   - www.dentrix.com
   - www.easydental.com
   - www.dentrixenterprise.com
   - www.dentrixascend.com

- **Vyne Users**: Create the claim or TAR. Before transmitting a document electronically, the digitized images should be created and attached. Each attachment must include the date the images were created. For additional information, providers can visit the Vyne website or call (463) 218-6762.

Please note:

- Images should not be transmitted for EDI claims or TARs that are already waiting for radiographs and/or attachments to be mailed.
- Digitized images of Claim Inquiry Forms (CIFs), Resubmission Turnaround Documents (RTDs) and Notices of Authorization (NOAs) or digitized images related to paper documents cannot be processed.
- When submitting CIFs by mail, providers have the option of not submitting hard copies of radiographs and other documentation related to a CIF if the provider indicates digitized image reference numbers in the form's remarks box. If a provider chooses not to include digitized image reference numbers on a CIF, the provider must send in hard copies.
- Medi-Cal Dental is unable to respond to inquiries submitted through digitized imaging vendors' Websites. Instead, CIFs should be mailed to Medi-Cal Dental.
- Radiographs are not required for dentures on edentulous patients. Submit Justification of Need for Prosthesis forms (DC054) only.

Medi-Cal Dental Provider Directory/Referral Form

The Medi-Cal Dental Provider Directory is a tool that members can use to search for Medi-Cal Dental providers in their area who may be accepting new Medi-Cal patients. Medi-Cal Dental Directory/Referral Form is also located within the Provider Application and Validation for Enrollment (PAVE) Provider Portal and is available when completing an enrollment application in PAVE. Please note that Safety Net Clinics (Federally Qualified Health Centers, Rural Health Clinics, and Indian Health Clinics) will only be added to the Dental Clinics Serving Medi-Cal Members static list.

You can access the form by visiting the Provider Forms page on the Medi-Cal Dental website. Return the completed form in one of the following ways:

Electronic Funds Transfer of Payment

Medi-Cal Dental offers electronic funds transfer of Medi-Cal Dental payments to a designated checking or savings account. To begin participating in electronic funds transfer, you must complete and sign an Electronic Funds Transfer (EFT) Enrollment Form. Providers can sign up for EFT when they submit their application in the Provider Application and Validation for Enrollment (PAVE) Provider Portal. There is an EFT question in the application package.

Additionally, the paper forms may be requested by calling the Telephone Service Center at (800) 423-0507 or by visiting the Medi-Cal Dental website.

Instructions for completing the Electronic Funds Transfer Enrollment Form are contained on the back of the form. Please be sure to sign and date the form before mailing. To be accepted for processing, the Electronic Funds Transfer Enrollment Form must contain the provider's original signature, in blue or black ink (rubber stamps are not acceptable), and a preprinted, voided check must be attached.

Upon receipt of the Electronic Funds Transfer Enrollment Form, Medi-Cal Dental will ensure the designated bank participates in electronic funds transfer. To verify account information, Medi-Cal Dental will send a “test” deposit to the bank; there will be a “zero” deposit to the account for that payment date. The test cycle usually takes three to four weeks to complete. During the test cycle period, the provider will continue to receive Medi-Cal Dental payment checks through the mail.

Each time Medi-Cal Dental deposits a payment directly to an account, a statement confirming the amount of the deposit will appear on the Explanation of Benefits (EOB).

Contact Medi-Cal Dental to change or discontinue electronic funds transfer of Medi-Cal Dental checks. To change banks or close an account, send Medi-Cal Dental a written authorization to discontinue electronic funds transfer of Medi-Cal Dental checks.

Member Identification

Medi-Cal Benefits Identification Card

Medi-Cal Dental does not determine the eligibility of members. Eligibility for Medi-Cal Dental is determined by a County Social Services office and reported to the State of California. The State, in turn, issues a Medi-Cal Benefits Identification Card (BIC) to members who are eligible for Medi-Cal benefits. The BIC serves as a permanent identification for a Medi-Cal member; however, possession of the card does not guarantee eligibility for Medi-Cal benefits, since the card can be retained by the member whether or not the member is eligible for the current month.

For more information, please review the Eligibility: Recipient Identification Cards document.

BIC cards are 3 ⅛ inches long and 2 ⅜ inches wide with a white background. The lettering is blue on the front and black on the back. Printed on the front of the card is a 14-character alphanumeric identification (ID) number. The ID number is comprised of a nine-character alphanumeric, a check digit and a four-digit Julian date matching the issue date of the BIC.

Only California Children's Services (CCS) members will have a BIC with a 10-character ID. All other Medi-Cal members have received a BIC with a 14-character ID. If members have not received the 14-character BIC ID, refer them to their local county office.

Special Programs Identification Cards

Some Medi-Cal members may be enrolled in special programs, such as prepaid health plans and pilot projects. A member enrolled in one of these plans who is eligible for dental services should have an identification card from the plan as well as possess a Medi-Cal Benefits Identification Card. A list of current special project and prepaid health plan codes can be found in "Section 9: Special Programs" of this Handbook.

Medi-Cal Identification Card for Presumptive Eligibility (MC 263 PREMEDCARD (4/96)) for Aid Code 7G

In order to receive payment for services provided to pregnant members in Aid Code 7G, providers must submit a copy of the member's temporary Presumptive Eligibility (PE)

card with their claim (see below for a sample of the card). The PE card is a required form of identification. Substitutions should not be accepted. This card is validated by the member's physician attending to the member's pregnancy and is valid until the Medi-Cal eligibility is determined or the PE period ends. This date is identified on the temporary PE card as the “First Good Thru” date. Some members may be eligible for extended PE coverage. In such cases, the temporary PE card will have a “Second Good Thru” date, and sometimes additional “Good Thru” dates. Once approved for Medi-Cal, the member will receive a plastic BIC.

Providers will only be paid for claims with dates of service that are between the effective date (the date the member signs the card) and the latest “Good Thru” date. The date of service must be within the validated time frame and, if not, providers should instruct the member to see a prenatal care provider, call an Eligibility Worker and/or a community advocate.

<u>Immediate Need Cards</u>

In certain situations, county welfare departments will issue Medi-Cal members temporary BICs to Immediate Need and Minor Consent Program recipients (see below for a sample of the card).

The ID number (“ID NO.”) is the 14-character BIC ID: this is used to access the Medi-Cal Eligibility Verification System. Prior to rendering services, providers must verify the member's eligibility and that the member with the BIC is the individual to whom the card was issued.

Temporary BICs issued to Immediate Need recipients are valid for identification purposes for
30 days, as indicated on the “ISSUE DATE:” and “GOOD THRU:” lines. The valid dates may occur in two consecutive months and are only used for identification purposes. Providers must verify the member's eligibility before rendering services.

The temporary BICs received by Minor Consent Program recipients are valid for identification for one year. However, the recipient is only eligible for the requested month. The “Issue Date:” and “Good Thru:” dates are for identification purposes only: providers must still verify the member's eligibility before rendering services.

Verifying Member Identification

In certain instances, no identification verification is required, for example:

- When the member is 17 years of age or younger.
- When the member is receiving emergency services.
- When the member is a resident in a long-term care facility.

If the member is unknown to the provider, the provider is required to make a “good-faith” effort to verify the member's identification by matching the name and signature on the Medi-Cal issued ID to that on a valid photo identification, such as:

- A California driver’s license.
- An identification card issued by the Department of Motor Vehicles.
- Any other document which appears to validate and establish identity.

The provider must retain a copy of this identification in the member's records. If there is a conflict in the member's Medi-Cal dental billing history where a provider bills or submits for authorization for a procedure that was previously performed by another provider, Medi-Cal Dental will request that the current provider submit a copy of the member's identification to verify that the services are being provided to the appropriate member. If this situation occurs and the current provider cannot provide appropriate member identification, payment, or authorization for treatment will be denied.

<u>Please note</u>: Medi-Cal dental providers must now accept expired photo identification (ID) up to six months from the date of expiration to verify a Medi-Cal patient’s eligibility. During this grace period, providers may not deny Medi-Cal patients service for an expired ID.

For additional information, please refer to Welfare & Institutions (W & I) Code 14017, 14017.5, 14018, and 14018.2(c).

Medi-Cal Dental Member Eligibility

A Medi-Cal member is eligible for dental services provided under Medi-Cal Dental. However, limitations or restrictions of dental services may apply in certain situations to the following individuals:

- Those enrolled in a prepaid health plan which provides dental services.
- Those enrolled in another pilot program which provides dental services.
- Those who are assigned special aid codes.
- Those with minor consent restricted service cards.

According to state law, when a provider elects to verify Medi-Cal eligibility using a BIC, a paper identification card or a photocopy of a paper card and has obtained proof of eligibility, he or she has agreed to accept the member as a Medi-Cal member and to be bound by the rules and regulations of Medi-Cal Dental.

Providers must verify eligibility every month for each recipient who presents a plastic Benefits Identification Card (BIC) or paper Immediate Need or Minor Consent card. Eligibility verified at the first of the month is valid for the entire month of service. An Internet eligibility response should be kept as evidence of proof of eligibility for the month. Eligibility may be verified only for the current month and up to the previous 12 months, never for future months.

A person is considered a child until the last day of the month in which his/her 18th birthday occurs. After that month, he/she is considered an adult. However, a treatment plan authorized for a child is effective until completion if there is both continuing eligibility and dental necessity, regardless of change in age status.

Members who cannot sign their name and cannot make a mark (X) in lieu of a signature because of a physical or mental handicap will be exempt from this requirement. Members who can make a mark (X) in lieu of a signature will not be exempted from this requirement and will be required to make their mark on the Medi-Cal identification card. In addition, the signature requirement does not apply when a member is receiving emergency services, is 17 years of age or younger, or is a member residing in a long-term care facility.

If Medi-Cal eligibility is verified, the provider may not treat the member as a private-pay member to avoid billing the member's insurance, obtaining prior authorization (when necessary) or complying with any other program requirement. In addition, upon obtaining eligibility verification, the provider cannot bill the member for all or part of the charge of a Medi-Cal covered service except to collect the Share of Cost (SOC). Providers cannot bill members for private insurance cost-sharing amounts such as deductibles or co-insurance.

Once eligibility verification has been established, a provider can decline to treat a member only under the following circumstances:

- The member has refused to pay or obligate to pay the required SOC.
- The member has limited Medi-Cal benefits and the requested service(s) is not covered by Medi-Cal Dental.
- The member is required to receive the requested service(s) through a designated health plan. This includes cases in which the member is enrolled in a Medi-Cal managed care plan or has private insurance through a health maintenance organization or exclusive provider network and the provider is not a member provider of that health plan.
- The provider is unable to provide the particular service(s) that the member requires.
- The member is not eligible for Medi-Cal dental services.
- The member is unable to present corroborating identification with the BIC to verify that he or she is the individual to whom the BIC was issued.

A provider who declines to accept a Medi-Cal member must do so before accessing eligibility information except in the above circumstances. If the provider is unwilling to accept an individual as a Medi-Cal member, the provider has no authority to access the individual's confidential eligibility information.

Verifying Member Eligibility

The Point of Service (POS) network is set up to verify eligibility and perform Share of Cost. The POS network may be accessed through the Internet or through the Automated Eligibility Verification System (AEVS).

Internet

Providers can verify member eligibility and clear Share of Cost liability on the Medi-Cal website here. An Eligibility Verification Confirmation (EVC) number on the Internet eligibility response verifies that an inquiry was received, and eligibility information was transmitted. This response should be printed and kept in the recipient’s file.

Providers who check eligibility via AEVS over the phone do not automatically have access to check eligibility through Medi-Cal's website. Providers who wish to use the Medi-Cal website application are required to have a Medi-Cal Point of Service (POS) Network/Internet Agreement on file with Medi-Cal Dental.

Questions regarding this form or the Medi-Cal website should be directed to EDS POS/ Internet Help Desk at (800) 427-1295.

Automated Eligibility Verification System (AEVS)

An Eligibility Verification Confirmation (EVC) number verifies that an inquiry was received, and eligibility information was transmitted. (Please click here for information about using telephone AEVS.)

The table below show the alphabetic code listings codes for entering alphabetic data:

Share of Cost (SOC)

If the Medi-Cal eligibility verification system indicates a member has a Share of Cost (SOC), the SOC must be met before a member is eligible for Medi-Cal benefits. Refer to the applicable transaction manual for directions on applying SOC.

SOC was developed by the Department to ensure an individual or family meets a predetermined financial obligation for medical and dental services before receiving Medi-Cal benefits. Prior authorization requirements are not waived for SOC members. The SOC obligation is incurred each month and, consequently, the amount of obligation may vary from month to month. The dollar amount to be applied to any health care cost incurred during that month is computed in order to meet the SOC. Health care costs could be dental, medical, pharmaceutical, hospital, etc. Members may use non-Medi-Cal covered services in meeting the monthly SOC obligation.

Providers can determine a member’s SOC when verifying the member’s eligibility through AEVS or by referring to the member’s SOC Case Summary letter. AEVS will report if a member has an unmet SOC before providing an EVC. Providers may collect payment on the date that services are rendered, or they may allow a member to pay for the services later or through an installment arrangement. SOC obligations are between the member and the provider and should be in writing and signed by both parties.

The Medi-Cal SOC obligation can apply to an individual or family. Family members who are not eligible for Medi-Cal may be included in the member's SOC. The health care

costs for these ineligible family members can be used to meet the SOC obligation for family members who are eligible. Ineligible family members who can do this are identified by an “IE” or “00” aid code on the member’s SOC letter.

Natural or adoptive parents (coded as Responsible Relative (RR) on their child’s SOC form) may choose to apply their medical expenses towards their own SOC or towards their child’s SOC. In this instance, parents’ expenses can be listed fully towards their own SOC or applied partially towards their SOC and any of their children’s SOC. However, the total amount reported for a single medical expense cannot be more than the original bill.

An example of this situation would be a family that consists of a stepfather, his wife and his wife’s separate child. The wife and her husband are listed as eligible recipients on the same SOC letter with a $100 SOC. The wife’s separate child is listed on a different SOC letter with a $125 SOC. The wife is also listed on her child’s SOC letter with an “RR” code in the aid code field.

The wife has expenses that total $75 and that have not been billed to Medi- Cal. She may do one of the following:

1. Apply the entire $75 to her own $100 SOC.
2. Apply the entire $75 to her own child’s $125 SOC.
3. Apply any amount less than $75 to her SOC and the balance of the $75 to her child’s SOC. The total amount reported cannot exceed the original $75.

Providers should submit a SOC clearance transaction immediately upon receiving payment from the member. The SOC clearance transaction can be performed by entering the amount through AEVS. Once this amount has been entered, eligibility can be established for that month for the family members eligible for Medi-Cal. If the member’s SOC obligation has been met, providers are entitled to bill Medi-Cal Dental for those services that have been partially paid for by the member and all other services not paid for by the member. However, total payments from the member and Medi-Cal Dental will not exceed the Schedule of Maximum Allowances (SMA).

Interactive Voice Response (IVR) System

The Medi-Cal Dental Interactive Voice Response (IVR) System is a touch-tone only system providing general program information. General program information is available 24 hours a day, seven days a week on the IVR system. To by-pass the entire response, press the required key.

With the IVR system, providers can call the Telephone Service Center at (800) 423-0507 and select IVR option 2 for interpreter services to access language interpreters in approximately 250 languages. Under Medi-Cal Dental, language interpreter services are available to Medi-Cal members at no cost. Please note that language interpreter services cannot be scheduled in advance. Members who need

language interpretation assistance at a dental appointment may also request an interpreter through the member IVRs main menu by selecting one of the languages noted and then choosing option 1 when prompted. The member IVR can be accessed by calling the Telephone Service Center toll-free at (800) 322-6384.

Patient history, claim/TAR status and financial information can be accessed using the IVR system, seven days a week, 2:00 a.m. to 12:00 midnight, with little or no wait time.

Note: Member aid code status is only accessible by speaking with a Customer Service Representative by calling (800) 322-6384, Monday through Friday, between 8:00 a.m. and 5:00 p.m. (the best time is between 8:00 a.m. and 9:30 a.m., and 12:00 noon and 1:00 p.m.).

To access the IVR, enter the star key (*) followed by the provider's NPI. The IVR allows providers to check history and billing criteria. Patient history information can be obtained by entering the NPI followed by the pound (#) key and entering the current Medi-Cal Dental service office number. Then press "1" from the main menu and enter the provider identification (ID) number. If the provider ID number starts with "B," press the star (*) key, then the number "2," and the number "2" again, followed by the five numbers of your assigned provider number. If the provider number starts with "G" press the star (*) key, then the number "4," followed by the number "1," followed by the five numbers of your assigned provider number. Begin entering patient information by pressing "1" again, then follow the prompts. This option in the IVR gives history on radiographs, prophylaxes, dentures, and many other procedures.

Providers may verify the available balance of a member's dental soft cap. For information regarding member soft cap status, press 1, then press 3, and follow the prompts. Providers are reminded that member soft cap information is contingent upon patient eligibility and does not include any documents currently in process.

Providers may request by FAX: The Schedule of Maximum Allowances (SMA) and the clinical screening dentist application. In addition to details regarding basic and advanced seminars, providers may now get information on orthodontic seminars and workshops.

Note: To check member eligibility, continue to use AEVS: (800) 456-2387.

Member Coverage

Treating Members

To improve efficiency and timely access to care, maintain quality of care for a patient, a treating dental provider shall, when applicable, feasible, and consistent with the standard of care, minimize the number of dental visits. Each patient should receive an individualized treatment plan that is safe, effective, patient centered and equitable. Documentation must justify deviation from the treatment plan.

Safety Net Clinics (Federally Qualified Health Centers, Rural Health Clinics, Indian Health Clinics) may render any dental service in a face-to-face encounter between a billable treating provider and an eligible patient that is within the scope of the treating provider's practice, complies with the Medi-Cal Dental Manual of Criteria, and determined to be medically necessary pursuant to California Welfare & Institutions Code §14059.5. Each provider shall develop a treatment plan that optimizes preventative and therapeutic care and that is in the patient's best interest, taking into consideration their overall health status. All phases of the treatment plan shall be rendered in a safe, effective, equitable, patient centered, timely, and efficient manner.

For dental services, documentation should be consistent with the standards set forth in the Manual of Criteria for Medi-Cal Authorization (Dental Services) of the Medi-Cal Dental Provider Handbook and all state laws. Safety Net Clinics may render Medi-Cal Dental covered services and non-covered Medi-Cal Dental services in the same visit as long as it complies with the above guidance.

ACA's Non-Discrimination Policy Applies to Medi-Cal

Section 1557 of Patient Protection and Affordable Care Act (ACA) prohibits discrimination on the basis of race, color, national origin, sex, age or disability in certain health programs or activities. In effect since 2010, Section 1557 builds on long-standing federal civil rights laws: Title VI of the Civil Rights Act of 1964; Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, and the Age Discrimination Act of 1975.

The Health and Human Services (HHS) Office for Civil Rights issued its final rule implementing Section 1557 at Title 45 Code of Federal Regulations Part 92. The rule applies to any health program or activity, any part of which receives federal financial assistance, an entity established under Title I of the ACA that administers a health program or activity, and HHS. In addition to other requirements, Title 45 CFR Part 92.201, requires:

- *Language assistance services requirements*
  - Language assistance services required under paragraph (a) of Part 92.201 must be accurate, timely and provided free of charge, and protect the privacy and independence of the individual with limited English proficiency

- *Specific requirements for interpreter and translation services* Subject to paragraph (a) of Part 92.201:
  - A covered entity shall offer a qualified interpreter to an individual with limited English proficiency when oral interpretation is a reasonable step to provide meaningful access for that individual with limited English proficiency
  - A covered entity shall use a qualified translator when translating written content in paper or electronic form

For more information about the application and requirements of the final rule implementing Section 1557, providers should contact their representative professional organizations. They might also visit the Section 1557 of the Patient Protection and Affordable Care Act page of the HHS website to find sample materials and other resources.

On June 12, 2020, HHS Office of Civil Rights (OCR) announced a final rule revising its Section 1557 regulations, effective August 18, 2020. The rule eliminates preexisting federal rules protecting individuals from discrimination based on categories like gender identity and sexual orientation. In addition, the final rule eliminates federal requirements that Medicaid programs include taglines in significant communications that inform individuals with Limited English Proficiency about the availability of language assistance services. The full rule can be found in the Federal Register here.

Regardless of the change in federal regulations, under California law (California Government Code § 11135), no person may—on the basis of sex, race, color, religion, ancestry, national origin, ethnic group identification, age, mental disability, physical disability, medical condition, genetic information, marital status, or sexual orientation—be unlawfully denied full and equal access to the benefits of, or be unlawfully subjected to discrimination under, any program or activity that is conducted, operated, administered or funded by the State. This includes, but is not limited to, the Medi-Cal program. In addition, California law (California Welfare and Institutions Code §§ 14029.91, 14029.92) requires DHCS, as well as managed care plans providing covered benefits to DHCS members, to provide notice of the availability of free language assistance services in English and in the top 15 languages spoken by limited English-proficient individuals in California.

California Advancing and Innovating Medi-Cal (CalAIM) Oral Health Initiatives

On January 1, 2022, the California Advancing and Innovating Medi-Cal (CalAIM) initiative, comprised of three oral health components, will be in effect. CalAIM is a multi-year initiative that aims to improve the quality of life and health outcomes of the Medi-Cal population by implementing broad delivery system, program, and payment reform across the Medi-Cal program.

The three oral health components of CalAIM are built on the successful outcomes of the Dental Transformation Initiative (DTI) and each CalAIM oral health initiative is described below.

Pay-for-Performance (P4P): Preventive Services and Continuity of Care

P4P is comprised of two initiatives: Preventive Services and Continuity of Care. Select procedure codes eligible for CalAIM P4P payments can be found on the Medi-Cal Dental Manual of Criteria and Schedule of Maximum Allowances page.

The Preventive Services P4P offers a performance payment for each paid preventive oral care service billed by a service office location in order to increase statewide utilization of preventive services. Preventive P4P will be:

- Available to all enrolled Medi-Cal dental providers.
- Paid at an additional 75 percent of the Schedule of Maximum Allowances (SMA) for select preventive procedures. For details, please refer to the CalAIM P4P Preventive Services table in Provider Bulletin Volume 38, Number 01.
- Processed and paid in accordance with the January 2022 draft Manual of Criteria (MOC) and SMA. Visit the Medi-Cal Dental Manual of Criteria and Schedule of Maximum Allowances page to access the January 2022 draft MOC and SMA.
- Included in the weekly check write for all qualified paid preventive services

The Continuity of Care P4P offers a flat rate performance payment paid once a calendar year to service office locations that maintain dental continuity of care and establish a dental home for each patient by performing at least a yearly dental exam/evaluation for two or more years in a row. Continuity of Care P4P will be:

- Available to all service office locations who meet the requirements.
- Begin payments in calendar year (CY) 2022 for returning patients seen in CY 2021. 2021 is the “baseline” year for this P4P.
- Paid at the flat rate of $55 once per year in addition to the SMA for the specified procedures codes below. For details, please refer to the CalAIM P4P Continuity of Care table in Provider Bulletin Volume 38, Number 01.
- Processed and paid in accordance with the January 2022 draft MOC and SMA. Visit the Medi-Cal Dental Manual of Criteria and Schedule of Maximum Allowances page to access the January 2022 draft MOC and SMA.
- Included in the weekly check write for all qualified paid continuity of care services.

New Benefits

Caries Risk Assessment (CRA) bundle and Silver Diamine Fluoride (SDF) are two new benefits added to the Medi-Cal Dental in alignment with national dental care standards.

CRA Bundle

- Dental providers **must** take the Treating Young Kids Everyday (TYKE) training, complete the related attestation form, and provide proof of TYKE course completion to receive payment for the CRA bundle.
- Dental providers who have record of completing the TYKE training for DTI Domain 2 pilot project are **not required** to retake the TYKE training for CalAIM.

- CRA bundle include a CRA exam (D0601, D0602, D0603) and nutritional counseling (D1310) based on the risk level associated for Medi-Cal members **ages 0-6 only**. All CRA bundle services claims will be processed and paid in accordance with the January 2022 draft MOC and SMA. Visit the Medi-Cal Dental Manual of Criteria and Schedule of Maximum Allowances page to access the January 2022 draft MOC and SMA.
- Additional services, such as cleaning, fluoride, and exam (D0120, D1120, D1206, and D1208) can be rendered at the allowed increased frequencies based on the risk level.
- The CRA bundle services may be billed by:
  - Dentists, and
  - Registered Dental Hygienists in Alternate Practice (RDHAPs).

CRA Bundle Fee Schedule

	Caries Risk Assessment ($15.00)	Nutritional Counseling ($46.00)	Frequency	Bundle Fee
Low Risk	D0601	D1310	6 months	$61.00
Moderate Risk	D0602	D1310	4 months	$61.00
High Risk	D0603	D1310	3 months	$61.00

Silver Diamine Fluoride

- SDF claims will be processed and paid in accordance with the January 2022 draft MOC and SMA. Visit the Medi-Cal Dental Manual of Criteria and Schedule of Maximum Allowances page to access the January 2022 draft MOC and SMA.
- Criteria for SDF **D1354**: *Interim Caries Arresting Medicament Application-Per Tooth* is as follows:
  1. Radiographs and photographs for payment – For patients under the age of 7 submit a current intraoral photograph demonstrating the medical necessity. For patients age 7 or older, in addition to a current intraoral photograph, providers must submit a current, diagnostic periapical radiograph and must document the underlying conditions that exist which indicate that nonrestorative caries treatment is optimal.
  2. Requires a tooth code.
  3. A benefit:
     a. for patients under the age of 7.
     b. for patients aged 7 or older when documentation shows underlying conditions such that nonrestorative caries treatment may be optimal.
     c. once every six months, up to ten teeth per visit, for a maximum of four treatments per tooth.

4. Not a benefit:
    a. when the prognosis of the tooth is questionable due to no restorability.
    b. when a tooth is near exfoliation.

- D1354 is not a benefit when the prognosis of the tooth is questionable due to no restorability or when a tooth is near exfoliation.

As a result of these initiatives, four new Adjudication Reason Codes (ARCs) – ARC 266P, ARC 440, ARC 506, and ARC 507 – were added and two ARCs – ARC 002A and ARC 320C – were modified. The descriptions for these ARCs can be found in “Section 7 – Codes” of this Handbook.

Proposition 56: Tobacco Tax Funds Supplemental Payments

The California Healthcare, Research, and Prevention Tobacco Tax Act of 2016, or Proposition 56, was approved by voters at the November 8, 2016, statewide general election. Proposition 56 increased taxes imposed on cigarettes and tobacco products and allocated a specified percentage of those revenues to the Department of Health Care Services (DHCS) to increase funding for existing health care programs under the Medi-Cal program.

Assembly Bill 120 (Statutes of 2017, Chapter 22, §3, Item 4260-101-3305) amended the Budget Act of 2017 to appropriate Proposition 56 funds for specified DHCS health care expenditures during the 2017-18 state fiscal year. Prop 56 was reauthorized pursuant to Senate Bill 856 (Chapter 30, §3, Item 4260-101-3305, Statutes of 2018), and DHCS received additional funds to extend the Prop 56 supplemental payments through June 30, 2019, and expand supplemental payments to additional procedure codes during the 2018-19 state fiscal year. Pursuant to Assembly Bill 74 (Chapter 23, §3, Item 4260-101-3305, Statutes of 2019), Prop 56 supplemental payments were then extended through Calendar Year (CY) December 31, 2021.

Effective January 1, 2022, pursuant to the 2021 Budget Act, the Department of Health Care Services (DHCS) is authorized to continue Prop 56 supplemental payments for specified dental codes. The supplemental payment categories for dental services include visits and diagnostics, preventative, restorative, endodontic, periodontics, prosthetic, oral and maxillofacial surgery, orthodontics, and adjunctive services.

Proposition 56 funds will be utilized for supplemental payments for dental services under the Medi-Cal program for providers who bill under the Dental Fiscal Intermediary or Dental Managed Care plans. In accordance with Assembly Bill 120, DHCS will provide supplemental payments in addition to the current dental Schedule of Maximum Allowances (SMA) for specific procedures, targeted to increase provider participation. The extended supplemental payments are retroactive to July 1, 2018 and issued for the specified codes for dates of service during the period of July 1, 2018 until further notice. DHCS is not changing the SMA for these procedures, but rather providing a

supplemental payment in addition to the existing SMA. For more information about Prop 56, please visit the DHCS Proposition 56 Supplemental Dental Payments webpage.

As a result of the Proposition 56 expansion, Adjudication Reason Codes (ARCs) 505, 505A, and 403B were updated and are available to participating Medi-Cal dental providers as described in “Section 7 – Codes” of this Handbook.

$1,800 Limit per Calendar Year for Member Dental Services, with Exceptions

The fiscal year (FY) 2005-2006 Budget Act required the Department to employ changes in covered benefits as set forth in Assembly Bill 131 (Chapter 80, Statutes of 2005). Assembly Bill 131 amends Section 14080 of the Welfare and Institutions Code by limiting non-exempt dental services for members 21 years of age or older to $1,800 per member for each calendar year. Providers should refer to the Welfare and Institutions (W & I) Code § 14080 and the 2009, 2013, and 2017 State Plan Amendments for the latest information.

However, the annual $1,800 per member dental soft cap does not apply to procedures the Department deems medically necessary.

Medi-Cal dental providers do not need to take any action as a result of this change and are not responsible for checking a Medi-Cal member’s dental soft cap prior to rendering medically necessary services. All previously authorized services on Treatment Authorization Requests (TARs) or medically necessary procedures billed on claims will not be subject to the $1,800 member dental soft cap as long as the procedures have met the criteria requirements outlined in the Manual of Criteria (MOC).

Providers may not bill members when the program has paid any amount on a specific procedure as the result of the dental soft cap being met. This partial payment on a procedure must be considered payment in full.

Providers may only bill members their usual, customary, and reasonable fees if the $1,800 limit per calendar year for dental services (dental soft cap) has been met and nothing has been paid on a procedure.

Pregnancy-Related Services

Pregnancy-related services are services required to assure the health of the pregnant woman and the fetus, or that have become necessary as a result of the woman having been pregnant. These include, but are not limited to, prenatal care, delivery, postpartum care, family planning services and services for other conditions that might complicate the pregnancy. Services for other conditions that might complicate the pregnancy include those for diagnoses, illnesses or medical conditions which might threaten the carrying of the fetus to full term or the safe delivery of the fetus. Effective April 1, 2022, Medi-Cal members will be covered for all medically necessary services during pregnancy and 12 months past the end of their pregnancy as part of the American

Rescue Act Plan (ARPA). This expansion provides an additional 10-months postpartum coverage at the end of a member's 60-day postpartum period for a total of 12 months. Eligibility will be granted to any individual in an aid code where postpartum services are a covered benefit.

Pregnant members, regardless of aid code, and/or scope of benefits are eligible to receive all dental procedures listed in the Medi-Cal Dental Manual of Criteria (MOC) that are covered by the Medi-Cal program so long as all MOC procedure requirements and criteria are met.

For dental services for a pregnant or postpartum woman who does not have full scope Medi-Cal, write "pregnant" or "postpartum" in the Comments section of claim. If you receive a denial (Adjudication Reason Code 503A or 503B) for a covered service for a pregnant/postpartum member, you should submit a Claim Inquiry Form (CIF) indicating "PREGNANT" or "POSTPARTUM" in the "REMARKS" field plus any additional documentation and radiographs pertinent to the procedure for reconsideration.

Radiograph Requirements for Pregnant and Postpartum Members

For all procedures that require radiographs/prior authorization, no payment will be made if the radiographs are not submitted. "Patient refused x-rays" will not be acceptable documentation for non-submission of radiographs. Additional information regarding dental care during pregnancy can be found at the CDA Foundation website here.

Long-Term Care

Members will be excluded from the dental soft cap if they have Long Term Care (LTC) aid codes or reside in either Place of Service 4/SNF (Skilled Nursing Facility) or Place of Service 5/ICF (Intermediate Care Facility). Exempt long term aid codes include 13, 23, 53, and 63 (for more information on Aid Codes, refer to the end of this section). Descriptions of these and other aid codes are found in the following pages of this section.

All other aid codes and procedure codes can be subject to the $1,800 soft cap.

Patients With Special Healthcare Needs

Patients with special healthcare needs are defined as those patients who have a physical, behavioral, developmental, or emotional condition that prohibits them from adequately responding to a provider's attempts to perform an examination.

Patients may be classified as patients with special healthcare needs when a provider has adequately documented the specific condition and the reasons why an examination and treatment cannot be performed without general or intravenous sedation.

Prior authorization is not required for treatment (with the exception of fixed partial dentures, removable prosthetics and implants) in order to minimize the risks associated with sedation.

When treatment is performed without prior authorization (on a procedure that normally would require prior authorization), requests for payment must be accompanied by documentation to adequately demonstrate the medical necessity. Refer to the individual procedures for specific requirements and limitations in “Section 5: Manual of Criteria and Schedule of Maximum Allowances” of this Handbook.

In cases not requiring general anesthesia or procedural sedation photographs may be substituted for radiographs in situations where radiographs cannot be obtained because of the patient’s medical condition, physical ability, or cognitive function. Specific documentation of why radiographs could not be obtained must accompany the TAR or Claim.

Additional requests, beyond the stated frequency limitations, for prophylaxis and fluoride procedures (D1110, D1120, D1206 and D1208) shall be considered for prior authorization when documented medical necessity is justified due to physical limitation and/or an oral condition that prevents daily oral hygiene.

Dental Case Management is available for those patients who are unable to schedule and coordinate complex treatment plans involving one or more medical and dental providers. Case management services are intended for members with significant medical, physical, and/or behavioral diagnosis. Referrals for case management services are initiated by the member’s medical provider, dental provider, case worker or healthcare professional and are based on a current, comprehensive evaluation and treatment plan.

American Sign Language (ASL) Translation Services

American Sign Language (ASL) translation services are available to Medi-Cal dental members. To request an ASL translator be present at the time of the appointment, either the provider or the member must contact Medi-Cal Dental and provide the following information:

- Date of dental appointment
- Start and end time of appointment
- Appointment type (dental, surgical, consult, etc.)
- Name of person needing ASL services
- Office address
- Office contact
- Office phone number

To schedule an ASL translator, providers can call the Telephone Service Center provider line
at (800) 423-0507. Members can call the Telephone Service Center member line at (800) 322-6384.

Treating Members That Reside in Other Counties

Enrolled Medi-Cal dental providers can treat any eligible member in Medi-Cal Dental no matter where the member resides. Medi-Cal dental providers can provide services to eligible members that reside in other counties in addition to the county the provider is located. To check
Medi-Cal eligibility of a member, please call the Automated Eligibility Verification System (AEVS) at (800) 456-2387.

Non-Medical Transportation (NMT)

Pursuant to Welfare and Institutions Code (W&I Code) Section 14132 (ad) (1), effective for dates of service on or after July 1, 2018, non-medical transportation (NMT) is a covered
Medi-Cal benefit, subject to utilization controls and permissible time and distance standards, for a member to obtain covered Medi-Cal services. The NMT benefit is eligible full-scope Medi-Cal fee-for-service members and pregnant women during pregnancy and for 12 months postpartum, including any remaining days in the month in which the last postpartum day falls. NMT includes transporting recipients to and from Medi-Cal covered medical, mental health, substance abuse or dental services. Members enrolled in a Medi-Cal managed care health plan must request NMT services through their Member Services.

W&I Code 14132 (ad)(2)(A)(i) defines NMT as including, at minimum, round trip transportation for a recipient to obtain covered Medi-Cal services by passenger car, taxicab, or any other form of public or private conveyance. NMT services are a benefit only from an enrolled NMT Provider.

NMT does not include the transportation of sick, injured, invalid, convalescent, infirm or otherwise incapacitated recipients by ambulances, litter vans or wheelchair vans licensed, operated and equipped in accordance with state and local statutes, ordinances or regulations, since these would be covered as non-emergency medical transportation (NEMT) services. For more details and information on eligibility for NMT/NEMT services, refer to the guide
located here.

Please refer to the Member Handbook on the Medi-Cal Dental website to help your patients find information about their qualifying appointment(s).

Community Health Worker (CHW) Preventive Services

Medi-Cal dental claims may be sent for community health worker (CHW) services, pursuant to Title 42 of the Code of Federal Regulations, Section 440.130(c), as preventive services and on the written recommendation of a licensed healthcare provider within their scope of practice under state law.

CHW services must address issues related to oral health.

Community health worker (CHW) services are preventive health services to prevent disease, disability, and other health conditions or their progression; to prolong life; and promote physical and mental health.

Community health workers may include individuals known by a variety of job titles, including promotores, community health representatives, navigators, and other non-licensed public health workers, including violence prevention professionals, with the qualifications specified below.

The **plan of care** is a written document that is developed by one or more licensed providers to describe the supports and services a CHW will provide to address ongoing needs for a member. A CHW may assist in developing a plan of care with the licensed provider.

The **supervising provider** is an enrolled Medi-Cal provider who submits dental claims for services provided by CHWs. The supervising provider ensures a CHW meets the qualifications listed in this document, and directly or indirectly oversees a CHW and their services delivered to Medi-Cal members. It is the supervising provider's responsibility to maintain records of the CHW's qualifications and these documents must be made available upon request by the Department of Healthcare Services.

Covered CHW Dental Services

- **Oral health education** to promote the member's oral health or address barriers to dental health care, including providing information consistent with established or recognized oral health care standards.
- **Oral health navigation** to provide information, training, referrals, or support to assist members to:
    - Access health care, understand the health care system, or engage in their own oral health care
    - Connect to community resources necessary to promote a member's oral health; address health care barriers, including connecting to dental translation/interpretation or transportation services; or address health-related social needs.
    - Serve as a cultural liaison or assist a licensed health care provider to create a plan of care, as part of a health care team
    - Outreach and resource coordination to encourage and facilitate the use of appropriate preventive services
- **Screening and assessment** that does not require a license and that assists a member to connect to appropriate services to improve their oral health

Note: These services may also be rendered by a licensed provider within their scope of practice.

Services may be provided to a parent or legal guardian of a Medi-Cal member under the age of 21 for the direct benefit of the member, in accordance with a recommendation from a licensed provider. A service for the direct benefit of the member must be billed under the member's Medi-Cal ID. If the parent or legal guardian of the member is not enrolled in Medi-Cal, the member must be present during the session.

Billing Codes
The following CDT code may be used for all services listed above by the supervising provider when submitting claims:

- D9994 (DENTAL CASE MANAGEMENT – PATIENT EDUCATION TO IMPROVE ORAL HEALTH LITERACY)

Maximum frequency is four units (two hours) daily per member, for any provider. Additional units per day may be provided with an approved Treatment Authorization Request (TAR) for medical necessity. TARs may be submitted after the service was provided. A written plan of care is required for continued CHW services after 12 units of care per member in a single year, with the exception of services provided in the Emergency Department. Please see DHCS CHW Provider Manual for further information.

Although CHWs may provide CHW services to members with mental health and/or substance use disorders, CHW services do not include Peer Support Services as covered under the Drug Medi-Cal, Drug Medi-Cal Organized Delivery System, and Specialty Mental Health Services programs. CHW services are distinct and separate from Peer Support Services.

Teledentistry

CHW services rendered under D9994 should not exceed 90 minutes (30 units) when performed via teledentistry. Supervising providers should refer to the *Teledentistry* section in Section 4 of the Medi-Cal Dental Provider Manual for guidance regarding providing services via teledentistry.

Documentation Requirements

CHW services billable to Medi-Cal require a written recommendation by a dentist or hygienist within their scope of practice under state law. The recommending licensed provider does not need to be enrolled in Medi-Cal or be a network provider within the member's managed care plan.
CHWs are required to document the number of members seen, dates, and time of services provided to members on each submitted claim form. Documentation should also reflect information on the nature of the service provided and support the length of time spent with the patient that day.

Written documentation for payment shall include the name of the CHW that provided the training, the number of Members present at the training, and the time of the training session

(i.e. 12:30PM - 1:00PM). Additional documentation must be present in the Member's chart and accurately reflect the duration of time and the nature of services rendered.

Plan of care

Providers are encouraged to develop a written plan of care when a need for multiple or ongoing CHW services is identified. A written plan of care is required for continued CHW services after 12 units of care per member in a single year, with the exception of services provided in the Emergency Department. The written plan of care must be developed by one or more licensed providers. The provider ordering the plan of care does not need to be the same provider who initially recommended CHW services or the supervising provider for CHW services. CHWs may participate on the team that develops the plan of care. The plan of care may not exceed a period of one year. The plan must meet the following conditions:

- Specifies the condition that the service is being ordered for and be relevant to the condition
- Includes a list of other health care professionals providing treatment for the condition or barrier
- Contains written objectives that specifically address the recipient's condition or barrier affecting their health
- Lists the specific services required for meeting the written objectives
- Includes the frequency and duration of CHW services (not to exceed the provider's order) to be provided to meet the care plan's objectives

A licensed provider must review the member's plan of care at least every six months from the effective date of the initial plan of care. The licensed provider must determine if progress is being made toward the written objective and whether services are still medically necessary. If there is a significant change in the recipient's condition, providers should consider amending the plan for continuing care or discontinuing services if the objectives have been met.

Eligibility Criteria

CHW services are considered medically necessary for members with one or more chronic health conditions (including behavioral health) or exposure to violence and trauma impacting the member's oral health, who are at risk for a chronic health condition or environmental health exposure impacting the member's oral health, who face barriers meeting their oral health or oral health-related social needs, and/or who would benefit from preventive oral health services. The recommending provider shall determine whether a member meets the medical necessity criteria for CHW services based on the presence of one or more of the following that could impact the member's oral health:

- Diagnosis of one or more chronic health (including behavioral health) conditions, or a suspected mental disorder or substance use disorder that has not yet been diagnosed, that could impact the member's oral health.

- Medical indicators of chronic disease that are impacting or could impact the member's oral health
- Positive Adverse Childhood Events (ACEs) screening affecting oral health
- Presence of known risk factors, including domestic or intimate partner violence, tobacco use, excessive alcohol use, and/or drug misuse affecting oral health
- Results of a social drivers of health screening indicating unmet health-related social needs, such as housing or food insecurity, that could have an impact on the member's oral health
- One or more visits to a hospital emergency department within the previous six months for a non-traumatic oral health visit
- One or more hospital inpatient stays, including stays at a psychiatric facility, within the previous six months, or being at risk of institutionalization, that could impact the member's oral health
- One or more stays at a detox facility within the previous year affecting oral health
- Two or more missed dental appointments within the previous six months
- Member expressed need for support in oral health system navigation or resource coordination services
- Need for recommended preventive oral health services

Place of Service
There are no Place of Service restrictions for CHW services.

Claim Submission

Claims for CHW services must be submitted by the Medi-Cal dental enrolled supervising provider.

Supervision Requirements
CHWs must be supervised by a licensed Medi-Cal dentist or hygienist. The supervising provider does not need to be the same entity as the provider who made the written recommendation for CHW services. Supervising providers do not need to be physically present at the location when CHWs provide services to members. Management and day-to-day supervision of CHWs as employees may be delegated as determined by the supervising provider. However, the supervising provider is responsible for ensuring the provision of CHW services complies with all applicable requirements as described herein.

CHW Minimum Qualifications
CHWs must have lived experience that aligns with and provides a connection between the CHW and the community or population being served. This may include, but is not limited to, lived experience related to incarceration, military service, pregnancy and birth, disability, foster system placement, homelessness, mental health conditions or substance use, or being a survivor of domestic or intimate partner violence or abuse and exploitation. Lived experience may also include shared race, ethnicity, sexual orientation, gender identity, language, or cultural background of one or more linguistic, cultural, or other groups in the community for which the CHW is providing services.

CHWs with lived experience does not restrict CHWs to providing services only to members with whom they share a direct lived experience with. CHWs may serve a diverse range of individuals and communities within their role, as long as CHWs are equipped with the necessary skills, knowledge, and training to address the oral health needs of those populations. Supervising providers are encouraged to work with CHWs who are familiar with and/or have experience in the geographic communities they are serving, but this should not limit their ability to work with broader groups beyond their own personal lived experiences.

CHWs must demonstrate minimum qualifications through one of the following pathways, as determined by the supervising provider:

- **Certificate Pathway.** CHWs demonstrating qualifications through the Certificate Pathway must provide proof of completion of at least one of the following certificates:
    1. **CHW Certificate:** A certificate of completion, including but not limited to any certificate issued by the State of California or a State designee, of a curricula that attests to demonstrated skills and/or practical training in the following areas: communication, interpersonal and relationship building, service coordination and navigation, capacity building, advocacy, education and facilitation, individual and community assessment, professional skills and conduct, outreach, evaluation and research, and basic knowledge in public health principles and social determinants of health, as determined by the supervising provider. Certificate programs shall also include field experience as a requirement.

       A CHW Certificate allows a CHW to provide all covered CHW services described in this document, including violence prevention services.
    2. **Violence Prevention Certificate:** For individuals providing CHW violence prevention services only, a Violence Prevention Professional (VPP) Certification issued by Health Alliance for Violence Intervention or a certificate of completion in gang intervention training from the Urban Peace Institute.

       A Violence Prevention Certificate allows a CHW to provide CHW violence prevention services only. A CHW providing services other than violence prevention services shall demonstrate qualification through either the Work Experience Pathway or by completion of a CHW Certificate.
- **Work Experience Pathway:** An individual who has 2,000 hours working as a CHW in paid or volunteer positions within the previous three years and has demonstrated skills and practical training in the areas described above, as determined by the supervising provider, may provide CHW services without a certificate of completion for a maximum period of 18 months. A CHW who does not have a certificate of completion must earn a certificate of completion, as described above, within 18 months of the first CHW visit provided to a Medi-Cal member.

All CHWs must complete a minimum of 6 hours of additional training annually. The supervising provider shall maintain evidence of the CHWs completing continuing education requirements in case of audit.
Supervising providers may provide and/or require additional training, as identified by the supervising provider.

Teledentistry

The Department of Health Care Services has opted to permit the use of teledentistry as an alternative modality for the provision of select dental services. Therefore, enrolled Medi-Cal dental billing providers may submit documents for services rendered utilizing teledentistry.

The goal of teledentistry is to allow Medi-Cal Dental providers to practice "teledentistry" as another modality of treating Medi-Cal Dental members. This can be done through Synchronous Teledentistry, which is a real time encounter or through Asynchronous Teledentistry, which is defined to mean the transmission of medical/dental information to be reviewed at a later time by a licensed dental provider at a distant site.

DHCS has expanded its teledentistry policy to allow Medi-Cal dental Fee-for-Service (FFS) and Dental Managed Care (DMC) providers the ability to establish new patient relationships through an asynchronous store and forward modality, consistent with Federally Qualified Health Center/Rural health Clinic (FQHC/RHC) providers. Additionally, DHCS enables providers the flexibility to use teledentistry as a modality to render appropriate services based upon service categories when in compliance with all of the following requirements:

- The procedure is in the diagnostic (D0100-D0999) or preventive (D1000-D1999) service categories and could appropriately be rendered through Teledentistry.
- Teledentistry is NOT allowable for all other service categories and CDT codes (D2000- D9999) except D9995 and D9996, which are the teledentistry modality codes; and D9430 and D9994 which can only be rendered through Synchronous Teledentistry (D9995).
-
- Dental providers billing for services delivered via teledentistry must be enrolled as Medi- Cal dental providers. The dental provider rendering Medi-Cal covered benefits or services via a teledentistry modality must be licensed in California, enrolled as a Medi-Cal Dental rendering provider, operate within their allowable scope of practice, and meet applicable standards of care.
- All services rendered through teledentistry must be in compliance with the Manual of Criteria (MOC), including documentation requirements to substantiate the corresponding technical and professional components of billed CDT codes.
- A patient who receives teledentistry services under these provisions shall also have the ability to receive in-person services from the dentist or dental practice or assistance in arranging a referral for in-person services.
- Procedure does not require in-person presence of the patient in a dental facility.

The reimbursement for procedures rendered via CDT code D9996 – asynchronous teledentistry – will be reimbursed based upon the applicable CDT procedure code(s) being provided. Transmission costs associated with store and forward are not payable per Section 5 – Manual of Criteria and Schedule of Maximum Allowances.

For more information about the Department of Health Care Services' telehealth policy, please refer to the "Medicine: Telehealth" section of the Medi-Cal Provider Manual.

Consent

In addition, Medi-Cal providers must also inform the patient about the use of teledentistry and obtain verbal or written consent from the patient for the use of teledentistry as an acceptable mode of delivering dental services. The consent shall be documented in the patient's dental record (Business and Professionals Code Section 2290.5(b)) and be available to the Department upon request.

For teledentistry services or benefits delivered via asynchronous store and forward, providers must also meet the requirements in state statute (Welfare and Institutions Code [WIC] Section 14132.725[b]).

A member receiving teledentistry services by store and forward may also request to have real-time communication with the distant dentist at the time of the consultation or within 30 days of the original consultation.

Synchronous or Live Transmissions
Synchronous interaction, or live transmission, is a real-time interaction between a member and a provider located at a distant site. Live transmissions are limited to 90 minutes per member per provider, per day. Please note, live transmissions may be provided at the member's request or if the health care provider believes the service is clinically appropriate.

All dental information transmitted during the delivery of Medi-Cal covered benefits or services via a telehealth modality must become part of the patient's dental record maintained by the Medi-Cal provider at the distant site.

Billing for Teledentistry

Billing for Asynchronous Store and Forward (D9996)

Limited Medi-Cal dental services may be rendered via asynchronous store-and-forward using Current Dental Terminology (CDT) code D9996 (Teledentistry – Asynchronous; Information stored and forwarded to dentist for subsequent review), which identifies the services as teledentistry. CDT code D9996 is not reimbursable; instead, the billing dental provider would be reimbursed based upon the applicable CDT procedure code to be paid according to the Schedule of Maximum Allowance (SMA). Applicable CDT

procedure codes are appropriate services found in the diagnostic (D0100 - D0999) and preventive (D1000 - D1999) service categories only. Teledentistry is NOT allowable for all other service categories and CDT codes (D2000-D9999) except D9995 and D9996, which are the teledentistry modality codes and D9430 which can only be rendered through Synchronous Teledentistry (D9995).

Billing for Synchronous or Live Transmissions (D9995)

As part of the CDT-19 update, teledentistry CDT code D9995 (Teledentistry-Synchronous; Real-Time Encounter) replaced CDT code D9999 (and D0999). For Medi-Cal dental benefits or services, Medi-Cal enrolled dentists and allied dental professionals (under the supervision of a dentist) may render limited services via synchronous/live transmission teledentistry, so long as such services are within their scope of practice, when billed using CDT code D9995 for dates of service on or after May 16, 2020. CDT code D9995 can be billed as a standalone synchronous teledentistry procedure code. The following is Medi-Cal's teledentistry policy for synchronous/live transmissions:

- CDT code D9995 is a per-minute, $.24/minute procedure payable up to maximum of 90 minutes.
- CDT code D9995 is for synchronous, meaning any telephone call or video call/chat, teledentistry encounter.
- CDT Code D9995 is payable once per date of service per patient, per provider.
- CDT code D9995 is for Medi-Cal patient-initiated contact with a Medi-Cal dental provider. This code is not for:
    - Dental assistant time
    - Dental hygienist time
    - Provider-initiated calls to the patient
    - Time spent contacting pharmacies on a patient's behalf
- CDT code D9995 should be billed with the number of minutes noted in the "Quantity" field of the claim, or the documentation should clearly state the number of minutes being requested.

Billing for Safety Net Clinics

For policy and billing information specific to Safety Net Clinics (Federally Qualified Health Centers, Rural Health Clinics, Indian Health Services Memorandum of Agreement 683 Clinics) please refer to those sections of the Medi-Cal Provider Manual (Rural and Indian Health).

Emergency Services

Title 22, CCR, Section 51056, states as follows:

(a) Except as provided in subsection (b), "emergency services" means those services required for alleviation of severe pain, or immediate diagnosis and treatment of unforeseen medical conditions, which, if not immediately diagnosed and treated, would lead to disability or death.

(b) For purposes of providing treatment of an emergency medical condition to otherwise eligible aliens pursuant to Welfare and Institutions Code Section 14007.5(d), "emergency medical condition" means a medical condition (including emergency labor and delivery) manifesting itself by acute symptoms of sufficient severity, including severe pain, such that the absence of immediate medical attention could reasonably be expected to result in any of the following:

(1) Placing the patient's health in serious jeopardy.

(2) Serious impairment to bodily functions.

(3) Serious dysfunction of any bodily organ or part.

(c) Emergency services are exempt from prior authorization, but must be justified according to the following criteria:

(1) Any service classified as an emergency, which would have been subject to prior authorization had it not been so classified, must be supported by a physician's or dentist's statement which describes the nature of the emergency including relevant clinical information about the patient's condition, and states why the emergency services rendered were considered to be immediately necessary. A mere statement that an emergency existed is not sufficient. It must be comprehensive enough to support a finding that an emergency existed. Such statement shall be signed by a physician or dentist who had direct knowledge of the emergency described in this statement.

(2) The Department may impose post service prepayment audit as set forth in Section 51159(b), to review the medical necessity of emergency services provided to members. The Department may require providers to follow the procedures for obtaining authorization on a retroactive basis as the process for imposing post-service prepayment audits. Requests for retroactive authorization of emergency services must adequately document the medial necessity of the services and must justify why the services needed to be rendered on an emergency basis.

(d) Program limitation set forth in Section 51304 and 51310 are not altered by this section.

Within the scope of dental benefits under the program, emergency services may comprise of those diverse professional services required in the event of unforeseen medical conditions such as hemorrhage, infection, or trauma. Examples of emergency conditions may include, but are not limited to, the following:

- High risk-to-life or seriously disabling conditions, such as cellulitis, oral hemorrhage, and traumatic conditions.
- Low risk-to-life or minimally disabling conditions, such as painful low grade oral-dental infections, near pulpal exposures, fractured teeth or dentures, where these conditions are exacerbated by psychiatric or other neurotic states of the patient.

Table 4: Omnibus Budget Reconciliation Act (OBRA) Emergency Services Only

OBRA members are newly legalized amnesty aliens and/or undocumented aliens who are otherwise eligible for Medi-Cal benefits but are not permanent U.S. residents. These members have limited benefits and are only eligible for emergency dental services; they can be identified by their limited scope aid code.

An emergency dental condition is a dental condition manifesting itself by acute symptoms of sufficient severity including severe pain, which in the absence of immediate dental attention could reasonably be expected to result in any of the following:

- placing the patient’s health in serious jeopardy,
- serious impairment to bodily functions,
- serious dysfunction of any bodily organ or part.

The emergency must be certified in accordance with Section 51056 of Title 22, CCR.

Please note that TARs are not allowed and may not be submitted for these members. If a TAR is submitted for any of the procedures described below, it will be denied.

The following are identified as emergency dental procedures for OBRA members: D0220, D0230, D0250, D0260, D0290, D0330, D0502, D0999, D2920, D2940, D2941, D3220, D3221, D6092, D6093, D6930, D7111, D7140, D7210, D7220, D7230, D7240, D7241, D7250, D7260, D7261, D7270, D7285, D7286, D7410, D7411, D7412, D7413, D7414, D7415, D7440, D7441, D7450, D7451, D7460, D7461, D7490, D7510, D7511, D7520, D7521, D7530, D7540, D7550, D7560, D7610, D7620, D7630, D7640, D7650, D7660, D7670, D7671, D7710, D7720, D7730, D7740, D7750, D7760, D7770, D7771, D7810, D7820, D7830, D7910, D7911, D7912, 7979, D7980, D7983, D7990, D9110, D9210, D9222, D9223, D9230, D9239, D9243, D9248, D9410, D9420, D9430, D9440, D9610, D9910, D9920, D9930, D9951.

When applicable, necessary documentation and/or radiographs to justify the emergency procedure must be submitted with the claim.

When the procedures listed above are provided, an emergency certification statement is always required. This statement must be either entered in the "Comments" area (Field 34) on the claim form or attached to the claim. It must:

1. Describe the nature of the emergency, including clinical information pertinent to the patient's condition; and
2. Explain why the emergency services provided were considered immediately necessary. The statement must be signed by the dentist providing the services (in the "Comments" area or on the attached statement) and must provide enough information to show the existence of an emergency dental condition and need for immediate treatment. Merely stating an emergency existed or that the patient was in pain is insufficient.

Other Health Coverage

Medi-Cal Dental follows the regulations in California Code of Regulations (CCR), Title 22, which require full utilization of benefits from all other carriers first. This means Medi- Cal Dental is considered the secondary carrier and can only pay up to the maximum amount allowed for covered benefits. Medi-Cal Dental will make payment only if the primary carrier pays less than the maximum Medi-Cal Dental allowance.

After billing the other coverage carrier, providers should submit a claim to Medi-Cal Dental along with the Explanation of Benefits/Remittance Advice (EOB/RA), Proof of Denial letter, or fee schedule from the other insurance carrier. Medi-Cal Dental will not accept "no other dental coverage" written on the claim, NOA for payment, RTD or CIF. Medi-Cal Dental will apply the coinsurance or deductible to each service in the individual amounts indicated on the EOB/RA and fee schedule; if the other coverage carrier has applied the coinsurance/deductible amount to the claim as a whole, Medi- Cal Dental will distribute the amount equally among all services listed on the claim when calculating payment for covered services. Medi-Cal Dental will pay the difference between the amount the other coverage carrier paid for the service plus the appropriate coinsurance/deductible amount applied to that service, and the Medi-Cal Dental allowed amount for the service. Providers may not bill Medi-Cal member directly for any services that are covered by Medi-Cal other than their Medi-Cal co pay, if applicable.

Note: Insurance information must be submitted for a claim for payment but is not required for a TAR.

Prepaid Health Plan (PHP)/Health Maintenance Organization (HMO)

When a Medi-Cal member has a PHP or HMO as other health coverage, he or she must use the plan facilities for regular dental care. Providers should bill the appropriate carrier for out-of-area services or emergency treatment covered by the member's PHP or HMO.

The following are other health coverage codes:

OHC	Health Coverage Type
A*	Pay and Chase (applies to any carrier)
C	Military Benefits Comprehensive
F	Medicare Part C Health Plan
G	Medical Parolee
H	Multiple Plans Comprehensive Institutionalized
K	Kaiser
L	Dental only policy
P	PPO/PHP/HMO/EPO not otherwise specified
V**	Any carrier other than the above (includes multiple coverage)
W	Multiple Plans Non-Comprehensive

*If "A" is the MEDS cost avoidance code for a member, providers are allowed, but not required, to bill the OHC carrier prior to billing Medi-Cal.
** As of January 1, 2017, OHC code V is only to be used for historical reference.

Providers should note that even though the other health coverage code indicates a PHP/HMO, the dental carrier may not be a PHP or HMO.

For Medi-Cal Dental to correctly process claims submitted for payment, a Remittance Advice/Explanation of Benefits (RA/EOB), fee schedule or denial of service letter must accompany the claim to verify the other coverage carrier is a PHP/HMO. Providers billing Medi-Cal Dental for services not included in the member's PHP/HMO plan must submit an RA/EOB, fee schedule or denial letter showing that the PHP/HMO was billed first.

Beginning July 1, 2020, if the recovery contractor identifies claims that Medi-Cal paid when the member had OHC liable for payment of dental services, the recovery contractor will request the OHC carrier submit payment to DHCS. In the event DHCS pays for dental services where an OHC carrier is later identified, Third Party Liability and Recovery Division (TPLRD) will utilize their recovery contractor to pursue recovery of these claims.

If the OHC carrier issues payment to DHCS, the carrier may provide an EOB to the policyholder under which the Medi-Cal member is covered. EOBs are generated as part of the OHC carrier's obligation to inform its policyholders of claims processed on their behalf. The EOB is not a DHCS claim or bill and the OHC EOB process will not affect services to Medi-Cal members or payments to providers.

Providers should not receive payment from any OHC carrier due to work performed by TPLRD's recovery contractor. If providers receive a check from an OHC carrier that is payable to them as the result of a recovery effort by the contractor, providers should return the check to the OHC carrier. If providers receive payment from an OHC carrier payable to DHCS or TPLRD's recovery contractor, providers should forward the check and any supporting documents to:

Child Health and Disability Prevention (CHDP) Gateway

On July 1, 2003, Child Health and Disability Prevention (CHDP) medical providers (not dental providers) began pre-enrolling eligible low-income children under 19 years of age into the new CHDP Gateway. CHDP Gateway providers encourage parents to apply for health care coverage for their children through Medi-Cal or Healthy Families. The children are eligible to receive Full Scope, fee-for-service Medi-Cal and Medi-Cal dental benefits during the month of application and the following month, or until the processing of their application is complete. Medi-Cal Dental reimbursement rates for children eligible for this temporary coverage are the same as the usual Medi-Cal dental rates.

Children who are not eligible for either program will continue to receive CHDP services in accordance with the CHDP periodicity table.

Since the Gateway began, several issues have arisen that may be of interest to Medi-Cal dental providers:

- Because some children may be eligible for only 1-2 months, it is very important for children with temporary Medi-Cal eligibility to be seen as quickly as possible. A number of offices and clinics have responded by setting aside a block of time to see these children.
- Children enrolled through the Gateway will ordinarily receive their BIC ID card within 10 days of enrollment. In the interim, they will have an "immediate eligibility document," which will be a copy of a printout from an Internet Website. This document displays the member's BIC ID number and is an acceptable form of identification that should be accepted until the BIC ID card is received. Regardless of whether the member presents a BIC ID card or a paper immediate eligibility document, all providers, including Children's Treatment Program (CTP) providers, must always check a member's eligibility status at each visit. The PM160 form is insufficient documentation for participation in the CHDP Gateway.
- The immediate eligibility document can contain several different responses, so it is important to read the response carefully. All providers participating in the CHDP Gateway, including CTP providers, must check eligibility for every member at every visit, regardless of what the response says. The PM160 form is insufficient.

- Children who are determined ineligible for temporary Medi-Cal coverage through the Gateway may be assigned other emergency or pregnancy-related Medi-Cal aid codes. If a child switches dentists because they were unable to complete treatment prior to termination of their temporary Medi-Cal coverage, Medi-Cal Dental encourages the child's provider to provide the child's treatment plan and radiographs to their new dentist to prevent unnecessary duplication of costs.
- Because of the short period of eligibility for some children, Medi-Cal Dental encourages providers to allow their names and phone numbers to be distributed to CHDP medical providers. Providers willing to do this should call the local CHDP office to be included on a referral list. Access the local CHDP office here. Also, if Medi-Cal dental providers are able to accommodate children eligible for the Gateway on short notice, notify the CHDP medical providers so they will know of your willingness to see these children relatively quickly. (For additional eligibility procedures for CHDP, please refer to the Eligibility: CHDP Services document.)

Altered Cards and Other Abuses of Medi-Cal Dental Fraud, Help Stop Altered Cards and Other Abuses

The Department is requesting that dental providers be reminded that all member information is confidential and must be protected from disclosure to unauthorized personnel. Member identification includes the following:

- Member's name
- Address
- Telephone number
- Social Security Number
- Medi-Cal identification number

Protecting confidential information is especially important for providers of inpatient care billing and third-party insurance organizations when utilizing independent billing agencies, as well as employees who appear to be inappropriately accessing such information.

Dental providers should not accept any Medi-Cal identification card that has been altered in any way. If a member presents a paper or plastic card that is photocopied or contains erasures, strikeouts, white-outs, type-overs, or appears to have been altered in any other way, the provider should request that the member obtain a new card from his or her county social services office prior to performing services. Health care providers are encouraged to report evidence of fraud to the Attorney General's Medical Fraud Hotline at (800) 722-0432. Any provider who suspects a member of abusing Medi-Cal Dental may call (800) 822-6222. Situations where abuse of the program may be suspected include:

- Use of another person's Medi-Cal identification card;

- Presenting an altered card;
- Attempting to obtain excessive or inappropriate drugs.

Misuse of Benefits Identification Card

The Department's Medical Review Branch has increased the number of replacement Medi-Cal Benefits Identification Cards (BICs) in an ongoing effort to nullify BICs that may have been stolen or misused. This process may be further escalated as other misuses of BICs are discovered.

If a provider receives a response during the eligibility verification process that states "current BIC ID and issue date required", the provider must ask the member for his/her new card.

Attaching a copy of the BIC card for documentation purposes will **not be accepted**.

Prevention of Identity Theft

To prevent identity theft, the Department requires all providers to avoid using a member's Social Security Number (SSN) whenever possible and reminds them that SSNs are not permitted on forms submitted for payment. Claims or TARS submitted with SSNs will be denied.

When submitting TAR/Claim forms to Medi-Cal Dental, providers should use the 14-character ID number from the BIC.

Member Complaint or Grievance Procedures

A Medi-Cal member with a complaint or grievance concerning scope of benefits, quality of care, modification or denial of a TAR/Claim form, or other aspect of services provided under the Medi-Cal Dental must direct the complaint or grievance as follows:

Initial Appeal to Provider

The member should initiate action by submitting the complaint or grievance to the provider, identifying the complaint or grievance by specifically describing the disputed service, action, or inaction. The provider responsible for the dental needs of the member should attempt to resolve the complaint or grievance within the parameters of Medi-Cal Dental.

Notification to Medi-Cal Dental

When action at the provider level fails to resolve the complaint or grievance, the member should contact the Telephone Service Center at (800) 322-6384, identify himself/herself and the provider involved, and specifically describe the disputed services, action, or inaction. Medi-Cal Dental will make every effort to resolve the

problem at this level. Medi-Cal Dental may refer the member back to the provider for resolution of the problem. The member may also download and complete the Medi-Cal Dental Complaint Form (sample below) and return it to Medi-Cal Dental at the address indicated on the form.

If a member files a complaint over the phone and the complaint was not resolved during the call, they will receive a follow up call for further assistance. If the member's complaint cannot be resolved during the follow up call, Medi-Cal Dental will help them download the complaint form from the Medi-Cal Dental website here. Medi-Cal Dental can also mail the form to the member if that is the preferred method. Once the member completes and signs the form, they must mail it to Medi-Cal Dental at the address printed on the form.

Medi-Cal Dental will acknowledge the written complaint or grievance within three calendar days of receipt. The written complaint or grievance may be referred to a

Medi- Cal dental consultant, who will determine the next course of action, which could include contacting the patient and/or provider, referring the patient to a clinical screening examination by a Medi-Cal Dental Clinical Screening Dentist, or referral to the appropriate peer review body.

When a copy of the member's chart and other pertinent information is requested from a provider's office, it is important that this information be submitted to Medi-Cal Dental within the time frame indicated on the request to avoid potential recoupment of funds previously paid for the service(s) at issue.

Medi-Cal Dental will send a letter summarizing its conclusion and reasons substantiating the decision to the patient within 30 days of the receipt of the complaint or grievance. If it is determined that there is a need to recoup funds for previously paid service(s), Medi-Cal Dental will issue the provider a written notification indicating the specific reasons for the recoupment. If a member is not able to make their scheduled clinical screening the 30 days may be extended.

If treatment the member's dental provider requested has been denied or modified, or if the member is unhappy with the resolution of their complaint about a denied service, they may request a State Hearing through the California Department of Social Services (CDSS) by writing to the:

California Department of Social Services
State Hearings Division
PO Box 944243
Sacramento, CA 94244-2430

Or by calling:

State Hearing

According to California Code of Regulations (CCR), Title 22, Section 50951:

Applicants or members shall have the right to a State hearing if dissatisfied with any action or inaction of the county department, the Department of Health Care Services or any person or organization acting in behalf of the county or the Department relating to Medi-Cal eligibility or benefits.

Authorization of Services Through the State Hearing Process

Services can be authorized through the State Hearing process in two ways:

1. A conditional withdrawal; or
2. A granted decision.

Conditional Withdrawal

A conditional withdrawal can be offered to the member upon receipt of additional information from either the member or the dentist. If the member agrees to the conditions of the withdrawal, a pink authorization letter is mailed to him/her. The member may then take the authorization to the Medi-Cal dental provider of his/her choice. In order to be paid for services provided, the treating provider is responsible to:

1. Be an enrolled Medi-Cal dental provider.
2. Verify the patient's eligibility.
3. Provide ONLY the service(s) authorized within the 365 days of the date on the letter.
4. Submit a claim for payment within 60 calendar days from the date of the last completed service provided within the authorization period. The claim must include the original pink authorization letter bearing the original signature. Mail the claim for payment to:

   Medi-Cal Dental
   California Medi-Cal Program
   Attn: State Hearings
   PO Box 13898
   Sacramento, CA 95853

Granted Decision

If an administrative law judge determines a denied service should be authorized, the judge will issue a GRANTED DECISION. Through the action, the member is authorized to take the decision to the Medi-Cal dental provider of his/her choice to receive services. In order to be paid for services provided, the treating provider is responsible to:

1. Be an enrolled Medi-Cal dental provider.
2. Verify the patient's eligibility. Provide ONLY the service(s) authorized in the "ORDER" section of the decision within 365 calendar days of the signed order.

3. Submit a claim for payment within 60 calendar days from the date of the last completed service performed within the authorization period. The claim must include the Granted Decision and should be mailed to the following address:

   Medi-Cal Dental
   California Medi-Cal Program
   Attn: State Hearings
   PO Box 13898
   Sacramento, CA 95853

Contacting Medi-Cal Dental to Postpone or Withdraw a State Hearing

(855) 266-1157. This number may also be used to make a general inquiry about a State Hearing that has already been filed.

To make an oral request to file a State Hearing, providers and members should continue to call DSS toll-free at (800) 952-5253.

   b) Original radiographs shall be a part of the patient's clinical record and shall be retained by the provider at all times.
   c) Radiographs shall be made available for review upon the request of the Department of Health Care Services or its fiscal intermediary.
   d) Pursuant to Title 22, CCR, Section 51051, dental radiographic laboratories shall not be considered providers under the Medi-Cal Dental.
   e) Radiographs shall be considered current as follows:
      i) radiographs for treatment of primary teeth within the last eight months.
      ii) radiographs for treatment of permanent teeth (as well as over-retained primary teeth where the permanent tooth is congenitally missing or impacted) within the last 14 months.
      iii) radiographs to establish arch integrity within the last 36 months. Arch radiographs are not required for patients under the age of 21.
   f) All radiographs or paper copies of radiographs shall be of diagnostic quality, properly mounted, labeled with the date the radiograph was taken, the provider's name, the provider's billing number, the patient's name, and with the tooth/quadrant/area (as applicable) clearly indicated.
   g) Multiple radiographs of four or more shall be mounted. Three or fewer radiographs properly identified (as stated in "e" above) in a coin envelope are acceptable when submitted for prior authorization and/or payment.
   h) Paper copies of multiple radiographs shall be combined on no more than four sheets of paper.
   i) All treatment and post treatment radiographs are included in the fee for the associated procedure and are not payable separately.
   j) A panoramic radiograph alone is considered non-diagnostic for prior authorization and/or payment of restorative, endodontic, periodontic, removable partial and fixed prosthodontic procedures.
   k) When arch integrity films are required for a procedure and exposure to radiation should be minimized due to a medical condition, only a periapical radiograph shall be required. Submitted written documentation shall include a statement of the medical condition such as the following:
      i) pregnancy,
      ii) recent application of therapeutic doses of ionizing radiation to the head and neck areas,
      iii) hypoplastic or aplastic anemia.

l) Prior authorization for procedures other than fixed partial dentures, removable prosthetics and implants is not required when a patient's inability to respond to commands or directions would necessitate sedation or anesthesia in order to accomplish radiographic procedures. However, required radiographs shall be obtained during treatment and shall be submitted for consideration for payment.

2. **Photographs (D0350):**

   a) Photographs are a part of the patient's clinical record and the provider shall retain original photographs at all times.

   b) Photographs shall be made available for review upon the request of the Department of Health Care Services or its fiscal intermediary.

   c) Paper copies of multiple photographs shall be combined on no more than four sheets of paper.

   d) Photographs may be used in lieu of radiographs for patients with special healthcare needs in situations where radiographs cannot be obtained because of the patient's medical condition, physical ability, or cognitive function. Specific documentation of why radiographs could not be obtained must accompany the TAR or claim.

3. **Prior authorization is not required for examinations, radiographs or photographs.**

4. **All licensed dental hygienists must refer all patients they treat to a Medi-Cal dentist the dental hygienist has a referral agreement with, or to a dentist by submitting a referral to the patient's dental care coordination team within Medi-Cal.**

Specific documentation of why radiographs could not be obtained must accompany the TAR or claim
   f) When radiographs are medically contraindicated due to recent application of therapeutic doses of ionizing radiation to the head and neck areas, the reason for the contraindication shall be fully documented by the patient's attending physician and submitted for payment. If this condition exists, intraoral photographs shall also be submitted to demonstrate the medical necessity for the restoration.
   g) Restorative services provided solely to replace tooth structure lost due to attrition, abrasion, erosion or for cosmetic purposes are not a benefit.

   k) All surfaces on a single tooth restored with the same restorative material shall be considered connected, for payment purposes, if performed on the same date of service.
   l) Payment is made for a tooth surface only once for the same date of service regardless of the number or combination of restorative materials placed on that surface.
   m) Tooth and soft tissue preparation, crown lengthening, cement bases, direct and indirect pulp capping, bonding agents, lining agents, occlusal adjustments (D9951), polishing, local anesthesia and any other associated procedures are included in the fee for a completed restorative service.

n) The original provider is responsible for any replacement restorations necessary in primary teeth within the first 12 months and permanent teeth within the first 36 months, except when failure or breakage results from circumstances beyond the control of the provider (such as due to a patient's oral habits). Radiographs (and photographs, as applicable) shall be submitted for payment to demonstrate the need for replacement.

o) Replacement of otherwise satisfactory amalgam restorations with resin-based composite restorations is not a benefit unless a specific allergy has been documented by a medical specialist (allergist) on their professional letterhead or prescription and submitted for payment.

e) Prefabricated crowns for primary teeth near exfoliation are not a benefit.

f) When prefabricated crowns are utilized to restore space maintainer abutment teeth they shall meet Medi-Cal Dental criteria for prefabricated crowns and shall be submitted separately for payment from the space maintainer.

B. Permanent Teeth:

a) Prefabricated crowns (D2931, D2932 and D2933) are a benefit only once in a 36 month period.

b) Permanent teeth do not require prior authorization.

c) Prefabricated crowns do not require submission of pre-operative radiographs for payment except when requested by the program.

i) anterior teeth shall show traumatic or pathological destruction of the crown of the tooth which involves four or more tooth surfaces including at least the loss of one incisal angle,

ii) premolars shall show traumatic or pathological destruction of the crown of the tooth which involves three or more tooth surfaces including at least one cusp,

iii) molars shall show traumatic or pathological destruction of the crown of the tooth which involves four or more tooth surfaces including at least two cusps,

iv) the prefabricated crown shall restore an endodontically treated premolars or molar tooth.

e) Arch integrity and the overall condition of the mouth, including the patient's ability to maintain oral health, shall be considered based upon a supportable 36-month prognosis for the permanent tooth to be crowned.

f) Indirectly fabricated or prefabricated posts (D2952 and D2954) are benefits when medically necessary for the retention of prefabricated crowns on root canal treated permanent teeth.

g) Prefabricated crowns on root canal treated teeth shall be considered for payment only after satisfactory completion of root canal therapy. Post root canal treatment radiographs shall be submitted for payment of prefabricated crowns.

h) Prefabricated crowns are not a benefit for abutment teeth for cast metal framework partial dentures (D5213 and D5214).

C. Primary and Permanent Teeth:

d) Tooth and soft tissue preparation, crown lengthening, cement bases, direct and indirect pulp capping, amalgam or acrylic buildups, pins (D2951), bonding agents, occlusal adjustments (D9951), local anesthesia (D9210) and any other associated procedures are included in the fee for a prefabricated crown.

e) The original provider is responsible for any replacement prefabricated crowns necessary in primary teeth within the first 12 months and permanent teeth within the first 36 months, except when failure or breakage results from circumstances beyond the control of the provider (such as due to a patient's oral habits). Radiographs (and photographs, as applicable) shall be submitted for payment to demonstrate the need for replacement.

3. **Laboratory Processed Crowns (D2710-D2792):**

b) Prior authorization with current periapical and arch radiographs is required. Arch films are not required for crown authorizations if the Medi-Cal Dental has paid for root canal treatment on the same tooth within the last six months. Only a periapical radiograph of the completed root canal treatment is required.

c) A benefit for patients age 13 or older when a lesser service will not suffice because of extensive coronal destruction and a crown is medically necessary to restore the tooth back to normal function. The following criteria shall be met for prior authorization:

   i) Anterior teeth shall show traumatic or pathological destruction to the crown of the tooth, which involves at least one of the following:

      a. the involvement of four or more surfaces including at least one incisal angle. The facial or lingual surface shall not be considered involved for a mesial or proximal restoration unless the proximal restoration wraps around the tooth to at least the midline,

      b. the loss of an incisal angle which involves a minimum area of both half the incisal width and half the height of the anatomical crown,

      c. an incisal angle is not involved but more than 50% of the anatomical crown is involved.

   ii) Premolars that have not been endodontically treated shall show traumatic or pathological destruction of the crown of the tooth, which involves three or more tooth surfaces including one cusp.

e) Laboratory crowns are not a benefit when the prognosis of the tooth is questionable due to non-restorability or periodontal involvement.

f) Laboratory processed crowns are not a benefit when the tooth can be restored with an amalgam or resin-based composite.

g) When a tooth has been restored with amalgam or resin-based composite restoration within 36 months, by the same provider, written documentation shall be submitted with the TAR justifying the medical necessity for the crown request. A current periapical radiograph dated after the restoration is required to demonstrate the medical necessity along with arch radiographs.

h) Tooth and soft tissue preparation, crown lengthening, cement bases, direct and indirect pulp capping, amalgam or acrylic buildups, pins (D2951), bonding agents, lining agents, impressions, temporary crowns, occlusal adjustments (D9951), polishing, local anesthesia (D9210) and any other associated procedures are included in the fee for a completed laboratory processed crown.

Endodontic General Policies (D3000–D3999)

a) Prior authorization with current periapical radiographs is required for patients age 21 or older and not required for patients under the age of 21 for initial root canal therapy (D3310, D3320 and D3330). Prior authorization is required for all ages for partial pulpotomy for apexogenesis (D3222), apexification/recalcification (D3351), apicoectomy (D3410, D3421, D3425 and D3426) and periradicular surgery without apicoectomy (D3427) on permanent teeth.

b) Prior authorization for root canal therapy (D3310, D3320 and D3330) is not required when it is documented on a claim for payment that the permanent tooth has been accidentally avulsed or there has been a fracture of the crown exposing vital pulpal tissue. Preoperative radiographs (arch and periapicals) shall be submitted for payment.

c) Root canal therapy (D3310, D3320, D3330, D3346, D3347 and D3348) is a benefit for permanent teeth and over-retained primary teeth with no permanent successor, if medically necessary. It is medically necessary when the tooth is non-vital (due to necrosis, gangrene or death of the pulp) or if the pulp has been compromised by caries, trauma or accident that may lead to the death of the pulp.

d) The prognosis of the affected tooth and other remaining teeth shall be evaluated in considering endodontic procedures for prior authorization and payment. Endodontic procedures are not a benefit when the prognosis of the tooth is questionable (due to non-restorability or periodontal involvement).

e) Endodontic procedures are not a benefit when extraction is appropriate for a tooth due to non-restorability, periodontal involvement or for a tooth that is easily replaced by an addition to an existing or proposed prosthesis in the same arch.

f) Endodontic procedures are not a benefit for third molars, unless the third molar occupies the first or second molar positions or is an abutment for an existing fixed or removable partial denture with cast clasps or rests.

g) The fee for endodontic procedures includes all treatment and post treatment radiographs, any temporary restorations and/or occlusal seals, medicated treatments, bacteriologic studies, pulp vitality tests, removal of root canal obstructions (such as posts, silver points, old root canal filling material, broken root canal files and broaches and calcifications), internal root repairs of perforation defects and routine postoperative care within 30 days.

h) Endodontic procedures shall be completed prior to payment. The date of service on the payment request shall reflect the final treatment date. A post treatment radiograph is not required for payment.

i) Satisfactory completion of endodontic procedures is required prior to requesting the final restoration.

Periodontal General Policies (D4000–D4999)

a) Periodontal procedures shall be a benefit for patients age 13 or older. Periodontal procedures shall be considered for patients under the age of 13 when unusual circumstances exist such as aggressive periodontitis and drug-induced hyperplasia and the medical necessity has been fully documented on the TAR.

b) Prior authorization is required for all periodontal procedures except for unscheduled dressing change (by someone other than the treating dentist) (D4920), periodontal maintenance (D4910) and periodontal scaling and root planing procedures rendered to pregnant/postpartum members regardless of age, aid code and scope of benefits when “Pregnant” or “Postpartum” is documented.

c) Current periapical radiographs of the involved areas and bitewing radiographs are required for periodontal scaling and root planing (D4341 and D4342) and osseous surgery (D4260 and D4261) for prior authorizations. However, providers may be exempt from providing radiographs for prior authorizations for CDT codes D4341 and D4342 (SRP) when deemed medically appropriate based on a patient’s medical condition, physical ability, or cognitive function. Providers may submit a TAR with documentation along with necessary photographs substantiating why radiographs of the patient are not possible.

d) Photographs are required for gingivectomy or gingivoplasty (D4210 and D4211) for prior authorizations.

e) Only teeth that qualify as diseased are to be considered in the count for the number of teeth to be treated in a particular quadrant. A qualifying tooth shall have bone loss, be restorable and have arch integrity and shall meet Medi-Cal Dental criteria for the requested procedure. Qualifying teeth include implants. Teeth shall not be counted as qualifying when they are indicated to be extracted. Full or partial quadrants are defined as follows:

    i) a full quadrant is considered to have four or more qualifying diseased teeth,

    ii) a partial quadrant is considered to have one, two, or three diseased teeth,

    iii) third molars shall not be counted unless the third molar occupies the first or second molar position or is an abutment for an existing fixed or removable partial denture with cast clasps or rests.

f) Tooth bounded spaces shall only be counted in conjunction with osseous surgeries (D4260 and D4261) that require a surgical flap. Each tooth bounded space shall only count as one tooth space regardless of the number of missing natural teeth in the space.

g) Scaling and root planing (D4341 and D4342) are a benefit once per quadrant in a 24 month period. Patients shall exhibit radiographic evidence of bone loss.

h) Gingivectomy or gingivoplasty (D4210 and D4211) and osseous surgery (D4260 and D4261) are a benefit once per quadrant in a 36 month period and shall not be authorized until 30 days following scaling and root planing (D4341 and D4342) in the same quadrant. Patients shall exhibit radiographic evidence of moderate to severe bone loss to qualify for osseous surgery.

i) Gingivectomy or gingivoplasty (D4210 and D4211) and osseous surgery (D4260 and D4261) includes three months of post-operative care and any surgical re-entry for 36 months. Documentation of extraordinary circumstances and/or medical conditions will be given consideration on a case-by-case basis.

j) Scaling and root planing (D4341 and D4342) can be authorized in conjunction with prophylaxis procedures (D1110 and D1120). However, payment shall not be made for any prophylaxis procedure if the prophylaxis is performed on the same date of service as the scaling and root planing.

k) Gingivectomy or gingivoplasty (D4210 and D4211) and osseous surgery (D4260 and D4261) includes frenulectomy (frenectomy or frenotomy) (D7961 and D7962), frenuloplasty (D7963) and/or distal wedge performed in the same area on the same date of service.

l) Procedures involved in acquiring graft tissues (hard or soft) from extra-oral donor sites are considered part of the fee for osseous surgery (D4260 and D4261) and are not payable separately.

m) Gingivectomy or gingivoplasty (D4210 and D4211) and osseous surgery (D4260 and D4261) performed in conjunction with a laboratory crown, prefabricated crown, amalgam or resin-based composite restoration or endodontic therapy is included in the fee for the final restoration or endodontic therapy and is not payable separately.

n) The criteria for periodontal procedures shall apply to all dental provider billing types providing services within their scope of practice.

o) All licensed dental hygienists must refer all patients they treat to a Medi-Cal dentist the dental hygienist has a referral agreement with, or to a dentist by submitting a referral to the patient’s dental care coordination team within Medi-Cal.

The laboratory order date is the date when the prosthesis is sent to the laboratory for final fabrication. Full payment shall not be requested until the prosthesis is delivered and is in use by the patient.

   i) Partial payment of an undeliverable completed removable prosthesis shall be considered when the reason for non-delivery is adequately documented on the Notice of Authorization (NOA) and is accompanied by a laboratory invoice indicating the prosthesis was processed. safeguard against subsequent loss. Where loss from an activity wherein there was involvement from a fire department agency, law enforcement agency, or other governmental agency, documentation should include a copy of the official public service agency report, if such a report is relevant and available.

ii) A need for a new prosthesis due to surgical or traumatic loss of oral-facial anatomic structure.

iii) The removable prosthesis is no longer serviceable as determined by a clinical screening dentist.

iv) Dentures no longer fit due to significant medical condition. Documentation from the patient’s physician supporting the medical necessity of early replacement and a letter form the dentist stating that the existing denture cannot be made functional.

Fixed Prosthodontic General Policies (D6200–D6999)

a) Fixed partial dentures (bridgework) are considered beyond the scope of the Medi-Cal Dental . However, the fabrication of a fixed partial denture shall be considered for prior authorization only when medical conditions or employment preclude the use of a removable partial denture. **Most importantly, the patient shall first meet the criteria for a removable partial denture before a fixed partial denture will be considered.**

b) Medical conditions, which preclude the use of a removable partial denture, include:

  i) the epileptic patient where a removable partial denture could be injurious to their health during an uncontrolled seizure,

  ii) the paraplegia patient who utilizes a mouth wand to function to any degree and where a mouth wand is inoperative because of missing natural teeth,

  iii) patients with neurological disorders whose manual dexterity precludes proper care and maintenance of a removable partial denture.

c) Documentation for medical conditions shall be submitted for prior authorization that includes a written, signed and dated statement from the patient’s physician, on their professional letterhead, describing the patient’s medical condition and the reason why a removable partial denture would be injurious to the patient’s health.

d) Documentation for obtaining employment shall be submitted for prior authorization that includes a written statement from the patient’s case manager or eligibility worker stating why the nature of the employment precludes the use of a removable partial denture.

e) Fixed partial dentures are a benefit once in a five-year period only on permanent teeth when the above criteria are met.

f) Current periapical radiographs of the retainer (abutment) teeth and arch radiographs are required for prior authorization.

g) Fixed partial dentures are not a benefit when the prognosis of the retainer (abutment) teeth is questionable due to non-restorability or periodontal involvement.

h) Posterior fixed partial dentures are not a benefit when the number of missing teeth requested to be replaced in the quadrant does not significantly impact the patient’s masticatory ability.

i) Tooth and soft tissue preparation, crown lengthening, cement bases, direct and indirect pulp capping, amalgam or acrylic buildups, pin retention-per tooth, in addition to restoration (D2951), bonding agents, lining agents, impressions, temporary crowns, occlusal adjustment-limited (D9951), polishing, local anesthesia (D9210) and any other associated procedures are included in the fee for a completed fixed partial denture.

j) Arch integrity and overall condition of the mouth, including the patient’s ability to maintain oral health, shall be considered for prior authorization. Prior authorization shall be based upon a supportable five-year prognosis for the fixed partial denture retainer (abutment).

k) Fixed partial denture retainers (abutments) on root canal treated teeth shall be considered only after satisfactory completion of root canal therapy. Post root canal treatment periapical and arch radiographs shall be submitted for prior authorization of fixed partial dentures.

l) Partial payment will not be made for an undelivered fixed partial denture. Payment will be made only upon final cementation.

m) Fixed partial denture inlay/onlay retainers (abutments) (D6545 and D6634) are not a benefit.

n) Cast resin bonded fixed partial dentures (Maryland Bridges) are not a benefit.

Refer to procedure D0470 for the criteria for the proper labelling and handling of diagnostic casts.

f) The automatic qualifying conditions are:

   i) cleft palate deformity. If the cleft palate is not visible on the diagnostic casts written documentation from a credentialed specialist shall be submitted, on their professional letterhead, with the prior authorization request,

   ii) craniofacial anomaly. Written documentation from a credentialed specialist shall be submitted, on their professional letterhead, with the prior authorization request,

   iii) a deep impinging overbite in which the lower incisors are destroying the soft tissue of the palate,

   iv) a crossbite of individual anterior teeth causing destruction of soft tissue,

   vi) a severe traumatic deviation (such as loss of a premaxilla segment by burns, accident or osteomyelitis or other gross pathology). Written documentation of the trauma or pathology shall be submitted with the prior authorization request.

g) When a patient transfers from one orthodontist to another orthodontist, a new TAR for prior authorization shall be submitted:

   i) when the patient has already qualified under the Medi-Cal Dental and has been receiving treatment, the remaining course of the originally authorized treatment shall be authorized to the new orthodontist to complete the case. Diagnostic casts, Handicapping Labio-Lingual Deviation (HLD) Index California Modification Score Sheet Form, DC016 (09/18), and photographs are not required for a transfer case that has already been approved, or

ii) when a patient has been receiving orthodontic treatment that has not been previously approved by the Medi-Cal Dental , pre-treatment diagnostic casts and current photographs are required. If pre- treatment diagnostic casts are not available then current diagnostic casts shall be submitted. Prior authorization for the remaining course of the orthodontic treatment shall be allowed or denied based on the Medi-Cal Dental 's evaluation of the diagnostic casts and photographs.

h) When additional periodic orthodontic treatment visit(s) (D8670) are necessary beyond the maximum allowed to complete the case, prior authorization is required. Current photographs are required to justify the medical necessity.

i) If the patient's orthodontic treatment extends beyond the month of their 21st birthday or they become ineligible during treatment, then it is the patient's responsibility to pay for their continued treatment. The Handicapping Labio-Lingual Deviation (HLD) Index California Modification Score Sheet Form DC016 (09/18) shall be completed within the last three months prior to submitting for prior authorization for orthodontic services.

Adjunctive General Policies (D9000–D9999)

Anesthesia (D9210–D9248)

a) Deep sedation/general anesthesia (D9222 and D9223) is defined as a controlled state of unconsciousness, accompanied by a partial or complete loss of protective reflexes, including the loss of the ability to independently maintain an airway and respond purposefully to physical stimulation or verbal command, produced by a pharmacologic or non-pharmacologic method or combination thereof.

b) Intravenous moderate (conscious) sedation/analgesia (D9239 and D9243) is a medically controlled state of depressed consciousness while maintaining the patient's airway, protective reflexes and the ability to respond to stimulation or verbal commands. It includes intravenous (IV) administration of sedative and/or analgesic agent(s) and appropriate monitoring.

c) Non-intravenous conscious sedation (D9248) is a medically controlled state of depressed consciousness while maintaining the patient's airway, protective reflexes and the ability to respond to stimulation or verbal commands. It includes administration of sedative and/or analgesic agent(s) by a route other than IV (oral, patch, intramuscular or subcutaneous) and appropriate monitoring.

d) Behavior modification and local anesthesia shall be attempted first before any type of sedation is considered. If this fails or is not possible due to the patient's medical condition, then sedation shall be considered. If sedation is indicated, then the least profound procedure shall be attempted first. The least profound procedure is inhalation of nitrous oxide/analgesia, anxiolysis (D9230) or non-intravenous conscious sedation (D9248), the next profound procedure is intravenous moderate (conscious) sedation/analgesia (D9239 and D9243) and the most profound is deep sedation/general anesthesia (D9222 and D9223).

e) If the provider provides clear medical/dental documentation of **both** i) and ii) below then the patient shall be considered for prior authorization for deep sedation/general anesthesia (D9222 and D9223) or intravenous moderate (conscious) sedation/analgesia (D9239 and D9243). If the provider documents any **one** of iii) through vi) then the patient shall be considered for prior authorization for deep sedation/general anesthesia (D9222 and D9923) or intravenous moderate (conscious) sedation/analgesia (D9239 and D9243).

    i) Use of local anesthesia to control pain failed or was not feasible based on the medical needs of the patient. Written documentation from the referring/treating provider shall include a copy of the patient record indicating such a failure or why it was not feasible based on the medical needs of the patient.

    ii) Use of inhalation of nitrous oxide/analgesia, anxiolysis (D9230) or non- intravenous conscious sedation (D9248) failed or was not feasible based on the medical needs of the patient. Written documentation from the referring/treating provider shall include a copy of the patient record indicating such a failure or why it was not feasible based on the medical needs of the patient.

iii) Use of effective communicative techniques and the ability for immobilization of the patient (patient is dangerous to self or staff) failed or was not feasible based on the medical needs of the patient. Written documentation from the referring/treating provider shall include a copy of the patient record indicating such a failure or why it was not feasible based on the medical needs of the patient.

iv) Patient requires extensive dental restorative or surgical treatment that cannot be rendered under local anesthesia or conscious sedation. Radiographs (and photographs, if applicable) shall be submitted demonstrating such proposed treatment and shall be included on the same Treatment Authorization Request (TAR).

v) Patient has acute situational anxiety due to immature cognitive functioning. Written documentation from the referring/treating provider shall include a copy of the patient record indicating such a condition.

vi) Patient is uncooperative due to certain physical or mental compromising conditions. Patient is either a Registered Consumer from the Department of Developmental Services or written documentation from the patient's physician (on their professional letterhead) indicates such a condition.

f) Patients with certain medical conditions such as, but not limited to, moderate to severe asthma, reactive airway disease, congestive heart failure, cardiac arrhythmias and significant bleeding disorders, uncontrolled seizures, and sleep disordered breathing, should be treated in a hospital setting or a licensed facility capable of responding to a serious medical crisis, as determined most appropriate by the provider.

g) The administration of deep sedation/general anesthesia (D9222 and D9223), inhalation of nitrous oxide/analgesia, anxiolysis (D9230), intravenous moderate (conscious) sedation/analgesia (D9239 and D9243) and therapeutic parenteral drug (D9610) is a benefit in conjunction with payable associated procedures. Prior authorization or payment shall be denied if all associated procedures by the same provider are denied.

h) Only one anesthesia procedure is payable per date of service regardless of the methods of administration or drugs used. When one or more anesthesia procedures are performed only the most profound procedure will be allowed. The following anesthesia procedures are listed in order from most profound to least profound:

i) Procedure D9222/D9223 (Deep Sedation/General Anesthesia),

ii) Procedure D9239/D9243 (Intravenous Moderate (Conscious) Sedation/Analgesia),

iii) Procedure D9248 (Non-Intravenous Conscious Sedation),

iv) Procedure D9230 (Inhalation Of Nitrous Oxide/Analgesia, Anxiolysis).

i) Providers who administer general anesthesia (D9222 and D9223) and/or intravenous moderate (conscious) sedation/analgesia (D9239 and D9243) shall have valid anesthesia permits with the Dental Board of California.

j) Evaluation for anesthesia procedures is included in the fees for anesthesia and oral evaluation procedures.

k) The cost of analgesic and anesthetic agents and supplies are included in the fee for the analgesic/anesthetic procedure.

l) Anesthesia time for general anesthesia and intravenous conscious sedation is defined as the period between the beginning of the administration of the anesthetic agent and the time that the anesthetist is no longer in personal attendance.

m) Sedation is a benefit in conjunction with the surgical removal of wires, bands, splints and arch bars.

n) All licensed dental hygienists must refer all patients they treat to a Medi-Cal dentist the dental hygienist has a referral agreement with, or to a dentist by submitting a referral to the patient’s dental care coordination team within Medi-Cal.

Ordering Forms

When ordering forms, be sure to request an adequate supply of TAR/Claim forms, CIFs, and Justification of Need for Prosthesis forms, plus X-ray and mailing envelopes. The Forms Reorder Request (DC-204) is to be used to order forms from Medi-Cal Dental's forms supplier.

The forms vendor will verify that the National Provider Identifier (NPI) number submitted for preimprinting matches what is on record at Medi-Cal Dental. Once confirmed, the inventory will be preimprinted with the NPI. However, if the information found on the Forms Reorder Request does not match what the forms vendor has received from Medi-Cal Dental, the order will not be filled.

The Forms Reorder Request form (DC-204) should be mailed, emailed, or faxed to the warehouse vendor:

Medi-Cal Dental Forms Reorder
P.O. Box 15609 Sacramento, CA 95852-0609
formreorderrequest@gainwelltechnologies.com
Fax: (877) 401-7534

Do not phone the warehouse: they are not staffed to handle telephone requests.

Upon receiving Medi-Cal Dental forms and envelopes, verify that any pre-printed information such as address and/or NPI number is correct. If there are errors, then please call the Telephone Service Center toll-free at (800) 423-0507.

Optical Character Recognition (OCR)/Intelligent Character Recognition (ICR)

OCR/ICR technology allows for a more automated process of capturing information from paper documents and enables Medi-Cal Dental to electronically adjudicate paper forms. Medi-Cal Dental's goal is to decrease processing time, improve responsiveness to provider and member (patient) inquiries, and increase adjudication accuracy.

To ensure optimum results and avoid denials, please follow the specifications listed below.

Do:

- Use only Medi-Cal Dental provided forms
- On TAR/Claim forms, leave boxes 11 through 18 blank, unless indicating "yes." OCR reads any mark in boxes 11 through 18 as a "yes" even if the answer is "no."
- Use a laser printer for best results. If handwritten documents must be submitted, use neat block letters, blue or black ink, and stay within field boundaries.
- Use a 10 point, plain font (such as Arial), and use all capital letters.
- Use a 6-digit date format without dashes or slashes, e.g., mmddyy (123116).
- Use only Medi-Cal Dental TAR/Claim forms
- Print within the lines of the appropriate field
- Submit notes and attachments on 8 ½" by 11" paper. Small attachments must be taped to standard paper in order to go through the scanner.
- Submit notes and attachments on one side of the paper only. Double-sided attachments require copying and additional preparation for the scanners which will cause delays in adjudication.
- Enter quantity information in the quantity field. OCR does not read

Do Not:

- Use correction fluid or tape.
- Use a dot matrix/impact printer.
- Use italics or script fonts.
- Mix fonts on the same form.
- Use fonts smaller than 10 point.
- Use arrows or quote/ditto marks to indicate duplicate dates of service, National Provider Identifier (NPI), etc.
- Use dashes or slashes in date fields.
- Print slashed zeros.
- Use photocopies of any Medi-Cal Dental forms.
- Use highlighters to highlight field information (this causes field data to turn black and become unreadable).
- Submit two-sided attachments.
- Enter quantity information in the description of service field.
- Put notes on the top or bottom of forms.
- Fold any forms.
- Use labels, stickers, or stamps on any Medi-Cal Dental forms.
- Use rubber signature or "signature on file" stamps.
- Place additional forms, attachments, or documentation inside the X-ray envelope. This will cause a delay in adjudication and processing.

the description of service field to pick up the quantity.

- On TAR/Claim forms, complete boxes 19 and 20. Enter the complete Billing Provider Name and NPI to ensure appropriate payment to the correct billing number.
- Remember that the following TAR/Claim forms are no longer available and should not be used: DC-002A, DC-002B, DC-009A, DC-009B, DC-017A, and DC-017B.
- Always apply a handwritten signature in blue or black ink.

Correct Use of Medi-Cal Dental Envelopes

Medi-Cal Dental continues to receive X-ray envelopes that are incorrectly addressed or prepared, have no address, or are empty. Some providers also submit radiographs without using the correct preimprinted or typed X-ray envelopes specifically designed for that purpose. Radiographs and photographs will not be returned.

- When submitting claims for multiple patients in one envelope, ensure that the radiographs/photographs for the respective patient are stapled to the associated claim/TAR. Use only one staple in the upper right or left corner of the claim/TAR to attach radiographs or paper copies.
- Do not print two separate documents on one piece of paper (e.g., an EDI Notice of Authorization for one member on one side, and another EDI Notice of Authorization for a different member on the other side).
- Enclose mounted, dated, and well-marked radiographs and photographs in the appropriate X-ray envelope. Include the dentist's name, Medi-Cal Dental provider number, member name, and Medi-Cal ID number on the X-Ray mount. Duplicate radiographs, paper radiographs, and photographs should also be marked clearly so they are identifiable for processing. The date on all radiographs, paper copies, and photographs must be in month/date/year format.
- Plastic sleeve mounts should be clean and have the label containing the required information placed on the front side of the mount.
- If the provider has a device such as a scanner that can transfer radiographs onto paper, Medi-Cal Dental will accept the paper copy instead of the regular film. Paper copies of radiographs must be of good quality to be accepted and must be larger than 2 inches by 3.5 inches (about the size of a business card). If the resolution of the paper image is inadequate, Medi-Cal Dental will request the original film, which can delay processing. Be sure to indicate on the paper copy the date the radiograph was taken and which side of the mouth. Paper copies of radiographs will not be returned.
- Paper copies should be printed on 20lb or heavier paper, but do not use glossy or photo paper.
- Do not fold radiographs or photographs.
- Only use X-ray envelopes for radiographs or paper radiographs. All other attachments and documentation should be stapled to the TAR/Claim form to reduce processing delays. Do not overfill X-ray envelopes. The appropriately sized envelopes should be used for all radiographs submitted to prevent damaged envelopes and/or lost radiographs.
- Up to three unmounted radiographs may be submitted by placing them in unsealed coin-size envelopes and inserting the coin-size envelopes into the X-ray envelopes provided by Medi-Cal Dental. The coin-sized envelope should be labeled with the provider name, NPI, member name, and date.

Medi-Cal Dental offers the following special envelopes printed with red borders to be used by the dental office for enclosing radiographs, photographs, and other documentation associated with EDI claims and TARs:

- **DC-014E** – Large envelope for submitting radiographs and/or other documentation associated with EDI documents.
- **DC-014F** – Small envelope for submitting radiographs and/or other documentation associated with EDI documents.

Radiographs or paper printouts of digitized images should be placed in these envelopes. Loose radiographs can become separated and lost, which can delay the time it takes Medi-Cal Dental to process documents. One EDI mailing label should be affixed to each envelope: DC-018A (can be ordered partially preimprinted), DC-018B, or C.

Medi-Cal Dental also provides the following envelope for mailing several small or large EDI radiograph envelopes:

- **DC-006C** – Large envelope with red border which should only contain:
  - Multiple EDI X-ray envelopes DC-014E and DC-014F containing radiographs or documentation related to EDI claims and TARs.

- **DC-206** – Large envelope for mailing TAR/Claim forms, which should only contain:
  - TAR/Claim forms
  - Claim Inquiry Forms (CIFs)
  - Resubmission Turnaround Documents (RTDs) relating to TAR/Claim forms.
  - NOAs submitted for payment or reevaluation.
  - EDI NOAs printed onto paper for payment and/or EDI RTDs printed onto paper related to claims (do not attach EDI label)
  - EDI RTDs printed onto paper related to TARs (do not attach EDI label)

Treatment Authorization Request (TAR)/Claim Forms

The TAR/Claim form is used to request authorization for proposed treatment or submit a claim for payment. Accurate completion of this form is required to ensure proper and expeditious handling by Medi-Cal Dental. An incomplete or inaccurate TAR or Claim will delay processing and may result in the generation of an RTD or denial.

Medi-Cal Dental specific forms are the only forms processed under Medi-Cal Dental, whether for authorization of covered services or payment of rendered treatment.

The format of the following forms is identical.

- DC-202 (No Carbon Required (NCR) TAR/Claim forms)
- DC-209 (continuous TAR/Claim forms)
  Page 1 – Submit first sheet to Medi-Cal Dental
  Page 2 – Retain second sheet
- DC-217 (single-sheet TAR/Claim forms for use in laser printers)

For scanning purposes, the forms are produced with red ink, and providers are requested to use only blue or black ink on any forms submitted to Medi-Cal Dental.

Please make sure all applicable areas of the forms are filled in completely and accurately. Any claim service line (CSL) submitted with an invalid procedure code, or a blank procedure code field will be denied, whether submitted electronically or as paper documents. Documents received with a missing or incorrect address or NPI can delay the processing of TARs and claims and increase the possibility that payments may be forwarded to the wrong office.

How to Complete the TAR/Claim Form

Accurate and complete preparation of this form is essential for processing. Unless otherwise specified, all fields must be completed.

Medi-Cal Dental's evaluation of TARs and Claims will be more accurate when narrative documentation is included. The following reminders and tips help office staff prepare narrative documentation for some common Medi-Cal Dental procedures:

- “Comments” area (Field 34) of the TAR/Claim form is used when written narrative documentation is required. If including narrative documentation on a separate piece of paper, check Field 10 on the treatment form to indicate there are other attachments. Note in Field 34 that written comments are attached.
- Written narrative documentation must be legible; printed or typewritten documentation is always preferred. Avoid strikeovers, erasures, or using correction fluid when printing or typing narrative documentation on the treatment form (Field 34).
- If submitting electronically, abbreviate comments to make optimum use of allotted space.

Fill in each field as follows:

1. **PATIENT NAME**: Enter the member’s last name, first name, and middle initial.
2. Field removed.
3. **PATIENT SEX**: Check “M” for male or “F” for female.
4. **PATIENT BIRTHDATE**: Enter the member's birthdate (mmddyy). The birthdate is used to help identify the member. Differences between the birthdate on the Medi-Cal Identification Card and the birthdate given by the member should be brought to the attention of the member for correction by his/her County Social Services office.
5. **MEDI-CAL BENEFITS ID CARD NUMBER**: Enter the member's 14-digit number as it appears on the Medi-Cal identification card. Completion of this field is required.
6. **PATIENT ADDRESS**: Enter the member's current address. If the member resides in a convalescent home or other health care facility, indicate the full name, complete address, and phone number, including area code, of the convalescent home or other health care facility.
   Please Note: It is important to accurately document the member’s name, birthdate, Medi-Cal Benefits ID Card number, and current address when submitting billing forms to Medi-Cal Dental. Medi-Cal Dental may need to contact the member for screening, and if the member’s information is incorrect, it can cause delays in processing the document.
7. **PATIENT DENTAL RECORD NUMBER**: If the provider assigns a Dental Record Number or account number to a member, enter the assigned number here. The number will then appear on all related correspondence from Medi-Cal Dental.

8. **REFERRING PROVIDER NUMBER**: Enter the license number of the dentist who referred the member, if applicable.
9. **RADIOGRAPHS ATTACHED? HOW MANY?** Check if "yes" and indicate the number of films enclosed. All radiographs and any attachments should be clearly identified with the member's name, the BIC or CIN, the date that the radiograph was taken, and the provider's name and provider number.
10. **OTHER ATTACHMENTS**: Check "yes" if additional documents are attached to the TAR/Claim form. Examples of other attachments include related correspondence, periodontal charts, operating room reports, or physician's report describing the member's specific medical condition. Do not place attachments inside the X-ray envelope.
11. **ACCIDENT/INJURY? EMPLOYMENT RELATED?** Check "yes" if the member was in an accident or incurred an injury that resulted in the need for dental services. Additionally, if the member's accident or injury was caused by or occurred at work, check "yes." Please Note: OCR has been set up to read any mark entered in this field as a "yes," even if the answer is "no." So please do not check this box unless indicating "yes."
12. **ELIGIBILITY PENDING?** (FOR TAR ONLY) Check "yes" if the member has applied for Medi-Cal eligibility which has not yet been approved and a TAR has been submitted for that member.
    Please Note: OCR has been set up to read any mark entered in this field as a "yes," even if the answer is "no." So please do not check this box unless indicating "yes."
13. **OTHER DENTAL COVERAGE?** Check "yes" if the services performed are either fully or partially covered by a private- or employer-paid dental insurance carrier. The provider must bill the other insurance carrier prior to submitting the TAR/Claim form to Medi-Cal Dental. In the "COMMENTS" section (Field 34), furnish the full name and address of the other insurance carrier, and name and group number of the policy holder. Attach a copy of the other insurance carrier's Explanation of Benefits, fee schedule, or denial letter. For more information on other coverage, see "Section 9: Special Programs" of this Handbook. Please Note: OCR has been set up to read any mark entered in this field as a "yes," even if the answer is "no." So please do not check this box unless indicating "yes."
14. **MEDICARE DENTAL COVERAGE?** Check "yes" if the service performed is covered by Medicare. Medicare must be billed prior to submitting any Medicare-covered service to Medi-Cal Dental. Attach a copy of the Explanation of Medicare Benefits form or denial letter. Please Note: OCR has been set up to read any mark entered in this field as a "yes," even if the answer is "no." So please do not check this box unless indicating "yes."
15. **RETROACTIVE ELIGIBILITY?** Check "yes" if the services have been performed and the provider is requesting payment for the reason described in the "COMMENTS" section, Field 34. Please Note: OCR has been set up to read any

mark entered in this field as a “yes,” even if the answer is “no.” So please do not check this box unless indicating “yes.”

16. **CHDP (CHILD HEALTH AND DISABILITY PREVENTION)?** Check “yes” if the treatment is related to a previous CHDP screening. The CHDP Children’s Treatment Program (CTP) claims must be submitted with a current PM 160 (health assessment screening form) attached to the Medi-Cal Dental TAR/Claim form. Please Note: OCR has been set up to read any mark entered in this field as a “yes,” even if the answer is “no.” So please do not check this box unless indicating “yes.”
17. **CCS (CALIFORNIA CHILDREN’S SERVICES)?** Check “yes” if any services performed are authorized by CCS. Please Note: OCR has been set up to read any mark entered in this field as a “yes,” even if the answer is “no.” So please do not check this box unless indicating “yes.”
18. **MF-O (MAXILLOFACIAL-ORTHODONTIC) SERVICES?** Check “yes” if the claim is for maxillofacial-orthodontic services. Please Note: OCR has been set up to read any mark entered in this field as a “yes,” even if the answer is “no.” So please do not check this box unless indicating “yes.”
19. **BILLING PROVIDER NAME**: Enter the billing provider's name in either the “doing business as” format, such as HAPPY TOOTH DENTAL CLINIC, or in the last-name, first-name, middle-initial, title format, e.g., SMITH, JOHN J., DDS. This information should be consistent with that used when filing state and federal taxes.
20. **BILLING PROVIDER NUMBER**: Enter the billing Provider Number (NPI). NOTE: The Provider Number and correct service office (where the services were administered) must be present and correct on all forms. Also, the NPI must be registered with Medi-Cal Dental prior to submitting claims.
21. **BILLING PROVIDER ADDRESS AND TELEPHONE NUMBER**: Enter the service office address where treatment is rendered. A service office address should be a street address, including city, state, and zip code. A post office box cannot be used as a service office; however, it is acceptable in rural areas only to use a route number with a post office box number.

    If the service office address is different from the address where payment is received, please notify Medi-Cal Dental so payment can be directed to the appropriate location.

    It is important to include the telephone number of the service office, including area code, so Medi-Cal Dental can contact the provider if questions arise while processing documents.

    Please Note: It is important that the billing provider’s name, Medi-Cal provider number (NPI), address and telephone number are accurate and match the information Medi-Cal Dental has recorded on its system. TAR/Claim forms pre-printed with the provider's name/number/address are available at no charge from the Medi-Cal Dental forms supplier. Please check this information for accuracy on all pre-printed supplies. If forms printed from your office computer are being used, please ensure the computer is programmed with the correct provider information.

22. **PLACE OF SERVICE**: Check the appropriate box indicating where service was performed (claim) or will be performed (TAR), i.e., Office, Home, Clinic/Dental School Clinic, SNF (Skilled Nursing Facility), ICF (Intermediate Care Facility), Hospital In-Patient,
    Hospital Out-Patient or Other (specify place of service). Those providers treating a SNF or ICF member outside the facility in which they reside, must use POS 4 or 5 (only) and must indicate the actual place of service in Box 34.
    BIC ISSUE DATE/EVC# AREA: This area is only used to record the new issue date for Benefits Identification Cards (BICs).
23. **TOOTH NO./LTR, ARCH, QUAD**: Use universal tooth code numbers 1 through 32 or letters A through T for tooth reference. Use arch code “U” (upper), “L” (lower). Use quadrant code “UR” (upper right), “UL” (upper left), “LR” (lower right), and “LL” (lower left). For permanent supernumerary teeth continue with numbers 33 — 40. For primary supernumerary teeth, continue with letters U — Z.
24. **TOOTH SURFACES**: Use “M” (mesial), “D” (distal), “O” (occlusal), “I” (incisal), “L” (lingual or palatal), “B” (buccal), and “F” (facial).
25. **DESCRIPTION OF SERVICE**: Furnish a brief description for each service. Standard abbreviations are acceptable.
26. **DATE SERVICE PERFORMED**: For TARs, this field is blank. For payment claims only. Indicate the date the service was performed, using the six numerical digits e.g., mmddyy.
27. **QUANTITY:** For the procedures having multiple occurrences, indicate the number of occurrences of the procedure.
28. **PROCEDURE NUMBERS**: Use only the Current Dental Terminology version 2022 (CDT 22) procedure codes.
29. **FEE**: Enter the usual customary and reasonable (UCR) fee for the procedure rather than the Medi-Cal Dental Schedule of Maximum Allowances fee.
30. **RENDERING PROVIDER NO**.: A rendering provider (NPI) number is required in Field 33 on all claim forms and NOAs for each dated line on the form. Rendering provider numbers are not required on undated lines of a TAR. If a rendering provider number (NPI) is not indicated on the TAR/Claim form for dated services, the TAR/Claim form will be delayed and an RTD will be issued to request the missing information. If there is more than one dentist or dental hygienist at a service office billing under a single dentist's provider number, enter the NPI of the dentist or dental hygienist **who performed the service**.
31. **COMMENTS**: Use for additional clinical remarks necessary to document treatment or for requested information regarding other coverage, etc. Narrative documentation should always state facts as they pertain to the case. Printed or typewritten documentation is preferred. It is helpful to note in this area that narrative documentation is attached when including narrative documentation on a separate piece of paper.

When preparing a TAR for a member with an authorized representative who is not identified on the Medi-Cal card, please include the representative's name and address in this area on the TAR form. This will assist Medi-Cal Dental in identifying cases where the TAR status notification should be sent to a representative and will help with correct address information.

This area should also be used to indicate the:

- Submitter ID of the billing intermediary, if applicable
- Eligibility confirmation number given by the AEVS when verifying eligibility
- Name, address, and telephone number of the Skilled Nursing Facility or Intermediate Care Facility

32. **TOTAL FEE CHARGED**: The sum of the fees entered in field 32 for all lines.
33. **PATIENT SHARE OF COST AMOUNT: FOR PAYMENT CLAIMS ONLY**. The dollar amount of the member's share of cost collected by or due from a recipient who has a share of cost obligation. If there is no share of cost, then leave this field blank.
34. **OTHER COVERAGE AMOUNT: FOR PAYMENT CLAIMS ONLY**. The dollar amount of "other coverage" payments the provider has received for the listed procedures. If either Field 13 (OTHER DENTAL COVERAGE) or Field 14 (MEDI-CARE DENTAL COVERAGE) is checked "yes", the amount received from the private dental insurance carrier or Medicare must be entered. The Explanation of Benefits (EOB) or denial from the private dental insurance carrier or Medicare must be attached to the TAR/Claim form for payment.
35. **DATE BILLED**: Enter the date the form is mailed using six numerical digits, e.g., mmddyy.
36. **SIGNATURE BLOCK**: The provider, or person authorized by the provider, must sign his/her own name in this signature field and date the form when requesting prior authorization or payment. An original signature in blue or black ink is also required (stamped signatures will not be accepted).

After providing all necessary information on the form please follow these steps:

1. Detach the "Dentist Copy" (page 2, where applicable) and retain for office records.
2. Check page 1 for completeness and legibility.
3. Place attachments, if any, behind the form or the X-ray envelope. Staple them to the back of the form, in the upper right corner. Only staple the attachments once to the form. Excessive staples will delay processing.
4. Mail completed TAR/Claim forms in the large mailing envelopes. Up to 10 forms can be mailed in a single envelope.
   Mail completed TAR/Claim forms to:

   Medi-Cal Dental
   PO Box 15610
   Sacramento, CA 95852-0610

TAR/Claim forms used for authorization (as a Treatment Authorization Request) should be mailed separately from TAR/Claim forms requesting payment for services rendered.

5. If submitting two TAR/Claim forms for the same member, staple them together in the upper right corner.

How to Submit a Claim for a Member with Other Coverage

A member having other coverage does not change the prior authorization requirements under Medi-Cal Dental. Medi-Cal Dental will process the prior authorization, and a Notice of Authorization will indicate the amount Medi-Cal Dental would pay as if there were no other coverage.

When completing the claim for payment or NOA, be sure to include the following:

Field 10. ATTACHMENTS:

Include a copy of other coverage carrier's Explanation of Benefits/Readmittance Advice (EOB/RA) or Proof of Denial letter or fee schedule.

Field 13. OTHER DENTAL COVERAGE?

Check “yes,” indicating member has other dental insurance coverage.

Field 34. COMMENTS:

Provide full name and address of other coverage carrier and name, member’s ID for that particular carrier, and group number of the policyholder.

Field 37. OTHER COVERAGE AMOUNT:

Fill in amount paid by other coverage carrier.

How to Submit a TAR for Orthodontic Services

Providers must include a complete orthodontic treatment plan containing:

- Comprehensive Orthodontic Treatment of the Adolescent Dentition (Procedure D8080)
- Periodic Orthodontic Treatment Visits (Procedure D8670)
- Orthodontic Retention (Procedure D8680)

The treatment plan may include:

- Radiographs (Procedure D0210)
- Panoramic radiographic image (Procedure D0330)
- Cephalometric head radiographic image and tracings (Procedure D0340)

Include the quantity, number of visits for active treatment (Procedure D8670). The quantity can vary depending on the type of case and the phase of dentition. Also, indicate the “case type” (e.g., cleft palate or craniofacial anomaly) and “Phase of dentition” (primary, mixed or permanent) in Field 34 (COMMENTS).

Note: Craniofacial anomalies cases may request Pre-Orthodontic Treatment Visits (Procedure D8660 – maximum of 6) and must also submit a separate authorization for these services prior to requesting a complete orthodontic treatment plan.

Reminders:

- Attach HLD Score Sheet (DC-016) to TAR
- Properly pack and box diagnostic casts
- Send diagnostic casts separately, approximately 10 days prior to sending the TAR
- Label diagnostic casts with:
  - Member Name
  - Client Index Number (CIN) or Benefits Identification Card (BIC) number
  - Billing Provider Name
  - Service office National Provider Identifier (NPI) number
  - Centric occlusion marked on cast
- Dry and trim diagnostic casts carefully
- Properly pack and box diagnostic casts
- Send diagnostic casts to the address on TAR or RTD form
- Send diagnostic casts separately, approximately ten days prior to sending the TAR

A Medi-Cal Dental orthodontic consultant will determine if the case qualifies for treatment under the Medi-Cal Dental guidelines for orthodontic services.

Please refer to “Section 9: Special Programs” of this Handbook for more information on orthodontic services.

Notice of Authorization (NOA)
(DC-301, Rev. 4/20)

The NOA, a computer-generated form sent to the provider following final adjudication of a TAR/Claim form for prior authorization, is printed with the same information as originally submitted. Presently the NOA is used either to request payment of authorized services or to request a reevaluation of modified or denied services.

Providers may request a reevaluation for denied and/or additional procedures requested in certain instances. Changes to the billed amount or procedures not requiring prior authorization will not be considered.

Reevaluations may be considered when:

- another procedure requiring prior authorization has been requested.
- there is a reversal of denied procedures, e.g., missing radiographs have been submitted.
- there is a complex treatment plan.

Medi-Cal Dental has created the following NOA message when a reevaluation has been requested:

> The submitted changes have been reviewed. Original authorization period still valid.

Medi-Cal Dental has revised the following NOA message when a reevaluation has been re-quested:

> Resubmission not processed. No additional information received. Original authorization period still valid.

To expedite processing and prevent delays or possible denial, please remember to check the box found in the upper right corner of the NOA. Only one reevaluation may be requested per NOA and it must be received prior to the expiration date.

Prior to completing the form, verify that the information printed on the form is correct.

The NOA is printed by Medi-Cal Dental with the following information:

1. Authorized period of time (365 days).
2. member information (except Medi-Cal ID Number).
3. Provider information
4. Procedures allowed, modified, disallowed
5. Allowances
6. Adjudication Reason Codes

Medi-Cal Dental will indicate on the NOA if the services requested are allowed, modified, or disallowed. For those allowed services, fill in the appropriate shaded areas on the top portion of the NOA form, including the dates for all services. Submit the

completed and signed form for payment for the services performed. Also, fill in the appropriate shaded areas on a copy and retain this one for office records.

The NOA has a statement printed on the bottom of the form that reads: “NOTE: Authorization does not guarantee payment. Payment subject to member's eligibility.” This statement has been added to remind the dentist to verify the member's eligibility prior to providing services.

Time limitations for billing services provided under Medi-Cal Dental are as follows:

- Six calendar months after the end of the month in which the service is authorized will be considered for full payment (100 percent of the SMA).
- Seven to nine months after the end of the month in which the service is authorized will be considered for payment at 75 percent of the SMA amount.
- Ten to twelve months after the end of the month in which the service is authorized will be considered for payment at 50 percent of the SMA amount.

If the allowed period of time on the NOA has expired and none of the authorized services have been completed, please send the expired NOA back to Medi-Cal Dental so it can be deleted from the automated system. If at a later date authorization for these services is requested and there is an outstanding NOA for the same services, processing delays or denial of services can occur.

Note: If a member's 21st birthday occurs during the authorized period of time, most services may be completed with the exception of orthodontic treatment. (See Section 5 – “Manual of Criteria”).

Please make sure all applicable areas of the forms are filled in completely and accurately. Any claim service line (CSL) submitted with an invalid procedure code, or a blank procedure code field will be denied, whether submitted electronically or as paper documents. Documents received with a missing or incorrect address or NPI can delay the processing of TARs and claims and increase the possibility that payments may be forwarded to the wrong office.

Reevaluation of the Notice of Authorization (NOA) For Orthodontic Services

Under the orthodontic program, providers may request a reevaluation on a denied NOA for the orthodontic treatment plan only. Reevaluations must be received by Medi-Cal Dental on or before the expiration date (within 365 days).

There are no reevaluations on “exploded” NOAs. An explanation of the term “exploded” is: the submitted Treatment Authorization Request (TAR) will include all requested orthodontic treatments but when Medi-Cal Dental sends the NOAs, the NOAs will be sent individually by procedure code(s). The NOAs will be sent in the following order:

- Comprehensive Orthodontic Treatment of the Adolescent Dentition (Procedure D8080)
- Remaining Treatment Visit NOAs (Procedure D8670) will be sent one per quarter over the course of the treatment
- Orthodontic Retention NOA for upper and lower retainers (Procedure D8680 x 2) will follow upon completion of the active phase of treatment

Providers are reminded:

- A reevaluation may only be requested on a denied NOA for the Orthodontic Treatment Plan only
- Check the “Reevaluation Box” on the NOA
- Medi-Cal Dental must receive the NOA prior to the expiration date
- Attach HLD and all additional documentation to NOA
- Do not sign the NOA
- NOA may only be submitted for reevaluation one time
- See “Section 9: Special Programs” of this Handbook for more information on Orthodontic services

Reevaluations

Only one request for reevaluation per NOA is allowed, and it must be received prior to the expiration date.

To request reevaluation of a NOA, follow these steps:

1. Check the box marked “REEVALUATION IS REQUESTED” at the upper right corner of the NOA.
2. Do not sign the NOA.
3. Include additional documentation and/or enclose radiographs, as necessary.
4. Return to:

   Medi-Cal Dental
   PO Box 15609
   Sacramento, CA 95852-0609

5. After the reevaluation is made, a new NOA will be generated and sent to your office.

If a denial is upheld and another review is wanted, a new TAR must be submitted.

Outstanding Treatment Authorization Requests (TARs)

Since TARs can remain outstanding in the automated system for an extended length of time, Medi-Cal Dental may deny authorization or payment of services based on an outstanding authorization. Medi-Cal Dental may reconsider denial of authorization or payment of services that are duplicated on an outstanding TAR under the following circumstances:

- written notification from the member stating that he or she will not be returning to the original provider's office;
- closure of the original provider's office;
- sale of the original provider's practice;
- death of the original provider;
- refusal of the original provider to return the Notice of Authorization;
- treatment (such as extraction) was provided on an emergency basis by one dentist when authorization for the same treatment was granted previously to a different dentist.

For reconsideration of denial of authorization or payment under these circumstances, please follow these guidelines:

Obtain a written statement from the member that treatment will not be provided by the original dentist.

For an Explanation of Benefits (EOB) showing denial of payment: Attach the member's statement to the EOB and follow the normal procedures for the Claim Inquiry Form.

For a NOA showing denial of treatment authorization: Attach the member's statement and any other supporting documentation to the NOA and submit the NOA with necessary radiographs to obtain reauthorization of the services. Medi-Cal Dental will send the provider office a new NOA showing the allowed services and will void the original TAR.

Notice of Medi-Cal Dental Action

Medi-Cal Dental sends all Medi-Cal dental members and/or their authorized representatives written notification when services that require prior authorization have been denied, modified, or deferred. The notification indicates the status of the Treatment Authorization Request (TAR) and explains why the requested service was denied, modified, or deferred. Members do not receive written notification of approved TARs or services that have been performed. Members are notified of <u>any</u> action taken on a TAR, including, but not limited to, a change from one procedure to another (Replaced and Substituted), denial of a procedure for any reason, and a Resubmission Turnaround Document (RTD) request for more information.

When the dental office prepares a TAR for a member with an authorized representative who is not identified on the BIC card, the representative's name and address should be included in the "Comments" box (Field 34) on page 2 of the Medi-Cal Dental TAR form. This will assist Medi-Cal Dental in identifying cases where the TAR status notification should be sent to a representative and will help with correct address information. Medi-Cal Dental must have a written authorization approving the person designated as the member's representative.

Members may contact the provider for assistance with inquiries concerning their Notice of Medi-Cal Dental Action notices. Members are sent an enclosed insert, titled Reason for Action Codes, with each Notice of Medi-Cal Dental Action they receive. This insert provides the code descriptions for each Reason for Action Code listed in the member's notice. To help members better understand the Medi-Cal Dental action taken, providers can match the Reason for Action Code(s) listed in column five of the table in the Notice of Medi-Cal Dental Action against the code descriptions in the Reason for Action Codes insert.

If the provider is unable to answer the member's questions, please refer them directly to Medi-Cal Dental. A Medi-Cal dental member or authorized representative may call the Telephone Services Center toll-free number at (800) 322-6384 for assistance with inquiries about denied, modified, or deferred TARs, including RTD requests.

Sample Notice of Medi-Cal Dental Action Insert: Reason for Action Codes

WHEN APPLICABLE, ALL SERVICES SUBMITTED FOR MEMBERS UNDER 21 YEARS OF AGE HAVE BEEN EVALUATED FOR EPSDT CRITERIA

REASON FOR ACTION CODES

01 Your eligibility (aid code) covers emergency services only.

02 Information sent by your dentist about your current dental condition does not meet the minimum requirements for approval of this service.

03 The request for dental treatment was changed. This change was based on the information sent by your dentist about your current dental condition or to follow program guidelines.

04 Our records show this service(s), or a similar service(s) was previously approved, paid for, or completed. (For example: In some cases, procedures are limited to once in 12 months or once in five (5) years and cannot be approved again except under special conditions, which must be documented by your dentist.)

05 We are unable to verify your dentist's enrollment in the program on the date the request was received.

06 The service requested by your dental provider, is not a benefit of the program. Please contact your provider for a different treatment plan.

07 You did not appear for a scheduled screening exam or failed to bring existing denture(s) (full or partial) to your appointment. Please contact your dentist to send a new request.

08 Your dentist did not send enough information to allow us to process this request. Please contact your dentist for information about this treatment.

09 X-rays show that the tooth does not meet the requirements for a crown. The tooth may be fixed with a filling.

10 X-rays show that the tooth/teeth may have an infection; please contact your dentist as another service may be needed first.

11 Based on x-rays, chart records and/or information confirmed by your clinical screening exam you do not need a deep cleaning.

12 This service cannot be approved because it is related to a denied procedure in the same treatment plan sent by your dentist.

13 Based on the information from your dentist and/ or a clinical screening exam, your current dental condition is stable, and the requested service is not needed at this time.

14 Based on x-rays and/or information confirmed by your clinical screening exam, the tooth/teeth has/have worn down naturally or has been caused by grinding your teeth. The requested service is not a benefit of the program unless there is decay or a broken tooth.

15 X-rays show the tooth is too broken down and cannot be fixed. Your dentist may be able to offer a different treatment.

16 Our records show that the tooth has been fixed with a filling or stainless steel crown.

17 X-rays show the service asked for cannot be approved because gum disease has destroyed the bone around the tooth. Your dentist may be able to offer a different treatment.

18 The minimum requirements for braces could not be verified.

19 A partial denture can be a benefit only when there is a full denture on the opposite arch.

20 Root canal treatment must be satisfactorily done before a crown can be considered.

21 The tooth is not fully formed. Your dentist may be able to offer a different treatment.

22 Treatment is not needed because the x-rays and documentation show that there is no nerve damage.

23 A stayplate can be a benefit only to replace a missing permanent front tooth.

BTN-002 08/20 AUG

24 X-rays show more extractions are needed before the treatment plan can be approved; please contact your dentist.

25 Based on information sent by your dentist, your teeth are in such a poor condition that the requested partial denture is not a benefit under this program.

26 Based on the information sent by your dentist, your teeth are fine and should not be replaced by a full denture.

27 Based on the information sent by your dentist, you do not have a full denture on the opposite arch; therefore, you do not qualify for a metal partial. However, if you are missing front teeth, you qualify for a stayplate.

28 Based on x-rays, documentation, and/ or information received from your screening exam, your teeth and/ or gums are in such poor condition that the requested treatment is not a benefit under this program. Your dentist may be able to offer a different treatment.

29 Your request for dental services was returned to your dental provider for more information. Your provider has 45 days to resubmit the information requested. There is no action needed from you, but you may contact your dentist about this request. A request for a State Hearing is not an option at this time.

30 Fixed bridges are allowable when a medical condition prevents the use of a removable denture.

31 The tooth is not in its normal position and cannot be fixed under this program.

32 Based on information received from a screening exam, your current denture is good at this time.

33 Based on your recent screening exam, a denture is not the right treatment for you. Please contact your dentist for other options.

34 The requested denture is not approved because there are enough teeth remaining in the arch to support the denture.

35 During your screening exam, you said you do not want any dental services at this time or that you want to be seen by another dentist.

36 The number of approved visits has been adjusted because you will be 21 years old before treatment is completed. Please contact your dentist.

37 The tooth is not shown on the submitted x-rays.

38 Based on x-rays and/or information received from your screening exam; you need additional treatment from your dentist before the procedure can be considered.

39 X-rays show there is not enough space for the requested false tooth.

40 This program does not cover braces when baby teeth are still present.

41 Based on x-rays and information received from your screening exam, you grind your teeth. The program does not cover services for this condition.

42 The procedure is not a benefit for a baby tooth or for a baby tooth ready to fall out. Your dentist may be able to offer a different treatment for your condition.

43 The procedure requested will not fix your dental problem. Your dentist may be able to offer a different treatment for your condition.

44 Based on information received from your dentist, the requested service is for cosmetic reasons only. Services for cosmetic purposes only are not a benefit of the program.

45 Your current denture can be fixed by replacing the inner side of the denture.

46 We are unable to verify your eligibility in this program.

47 Your dentist must contact the California Children's Services program before submitting this procedure for payment or approval.

48 EPSDT Services are not a benefit for patients 21 years and older.

49 The EPSDT service(s) requested is not medically necessary.

Resubmission Turnaround Document (RTD) (DC-102, Rev. 10/19)

An RTD is a computer-generated form used by Medi-Cal Dental to request missing or additional information on the TAR/Claim form or NOA submitted by the provider.

The form is divided into two sections:

> **Section "A"** notifies the provider of the specific information found in error on the TAR/Claim form or NOA. Each error in Section "A" is assigned a letter of the alphabet under "field." Section "A" is kept by the provider for office records.
>
> **Section "B"** is the corrected information filled in by the provider. This section is returned to Medi-Cal Dental.

If necessary, a multi-page RTD may be issued for an individual TAR/Claim form or NOA: Return all pages in one envelope.

Upon receipt of the RTD, Medi-Cal Dental matches the RTD with the associated TAR/Claim form or NOA, and the treatment form is then processed.

Note: If the RTD is not returned within the 45-day time limitation, the TAR, Claim, or NOA will be denied according to Medi-Cal Dental policies.

Claim Inquiry Form (CIF)
(DC-003, Rev. 10/19)

The Claim Inquiry Form (CIF) is used to:

- Inquire about the status of a Treatment Authorization Request (TAR) or Claim
- Request re-evaluation of a modified or denied claim or Notice of Authorization (NOA) for payment

Medi-Cal Dental will respond to a CIF with a Claim Inquiry Response (CIR). Use a separate CIF for each claim, TAR, or NOA in question. Please see "Claim Inquiry Response (CIR)" on page 6-33 for more information about CIRs.

CIF Tracer

A CIF tracer is used to request the status of a TAR or claim. Providers should wait one month before submitting a CIF Tracer to allow enough time for the document to be processed. If after one month, the claim or TAR has not been processed or has not appeared in the "Documents In-Process" section of the Explanation of Benefits (EOB), then a CIF tracer should be submitted.

Claim Re-evaluations

A CIF claim re-evaluation is used to request the re-evaluation of a modified or denied claim or NOA. Providers should wait until the status of a processed claim appears on the EOB before submitting a CIF for re-evaluation. A response to the re-evaluation request will appear on the EOB in the "Adjusted Claims" section.

Claim re-evaluations must be received within six months of the date on the EOB. Providers should submit a copy of the disallowed or modified claim or NOA plus any additional radiographs or documentation pertinent to the procedure under reconsideration.

***Note**: Do not use the CIF to request a first level appeal. Inquiries using the CIF are limited to those reasons indicated on the form. Any other type of inquiry or request should be handled by calling the Telephone Service Center at (800) 423-0507.*

How to Complete the CIF

Use one CIF for each Claim or NOA. Please print or type all information:

1. **BILLING PROVIDER NAME**: Enter the billing provider's name in either the “doing business as” format, such as HAPPY TOOTH DENTAL CLINIC, or in the last-name, first-name, middle-initial, title format, e.g., SMITH, JOHN J., DDS. This information should be consistent with that used when filing state and federal taxes.
2. **MEDI-CAL PROVIDER NUMBER**: Enter the Billing Provider Number (NPI). NOTE: The Provider Number must be present and correct on all forms.
3. **MAILING ADDRESS AND TELEPHONE NUMBER**: Enter the billing provider service office address where treatment is rendered. A service office address should be a street address, including city, state, and zip code. A post office box cannot be used as a service office; however, it is acceptable in rural areas only to use a route number with a post office box number.

   If the service office address is different from the address where payment is received, then notify Medi-Cal Dental so payment can be directed to the appropriate location.

   It is important to include the telephone number of the service office, including area code, so Medi-Cal Dental can contact the provider if questions arise while processing the documents.

4. **CITY, STATE, ZIP CODE**: Enter the city, state, and zip code where the service office is located.
5. **PATIENT NAME**: Enter the member's last name, first name, and middle initial.
6. **DOCUMENT CONTROL NUMBER (CLAIM REEVALUATION ONLY)**: Enter the Document Control Number of the document in question. If you are inquiring about multiple claims submit one CIF only for each document in question.
7. **PATIENT MEDI-CAL ID NUMBER**: Enter the BIC or Client Index Number (CIN).
8. **PATIENT DENTAL RECORD NUMBER (OPTIONAL)**: If the provider assigns a Dental Record Number or Account Number to a member, enter the assigned number that will be referenced on any subsequent correspondence from Medi-Cal Dental.
9. **DATE BILLED**: Enter the date the claim or the TAR was originally mailed to Medi-Cal Dental.
10. **INQUIRY REASON - CHECK ONLY ONE BOX**: Indicate if this inquiry is seeking the status of a TAR or Claim (“tracer”) or is requesting a reevaluation of a claim.
11. **REMARKS**: Use this area to provide any additional information needed to justify the inquiry being made. Include a copy of the claim, TAR, or NOA in question and any appropriate documentation, radiographs, and photos.

12. **SIGNATURE AND DATE**: The provider, or person authorized by the provider, must sign and date the form using blue or black ink. Rubber stamp signatures are not acceptable.

    Mail the form to:

Claim Inquiry Response (CIR)

Upon resolution of the Claim Inquiry Form (CIF) seeking the status of a TAR or Claim Medi-Cal Dental will issue a Claim Inquiry Response (CIR). The CIR is a computer-generated form used to explain the status of the TAR or Claim.

When the CIR is received, it will be printed with the same information submitted by the provider's office with the following information:

- member name
- member Medi-Cal identification number
- member Dental Record or account number, if applicable
- Document Control Number
- the date the services were billed on the original document.

The section entitled "IN RESPONSE TO YOUR MEDI-CAL DENTAL INQUIRY" will contain a status code and a typed explanation of that code. The status codes are listed in "Section 7: Codes" of this Handbook.

Reminders

1. **Diagnostic Casts**

   Diagnostic casts are only for the evaluation of orthodontic benefits. Diagnostic casts submitted for all other procedures (crowns, prosthetics, etc.) will be discarded unless Medi-Cal Dental specifically requested the models to evaluate the claim or authorization request.

   Diagnostic casts are required to be submitted for orthodontic evaluation and are payable only upon authorized orthodontic treatment.

   As diagnostic casts are not returned, please do not send originals.

2. **Paper Copies and Prints of Digitized Radiographs**

   Paper copies and prints of digitized radiographs should properly identify the member, the date the radiograph was originally taken, and the teeth/area in question. If not properly labeled, this could lead to processing delays as well as denial of treatment.

   Paper copies and digitized prints of radiographs must conform to the following specifications:

   a. They must be properly dated with the mmddyy the radiograph was originally taken. This date must be clearly discernible from other dates appearing on the same copy such as the date the copy was made or printed, or dates of previously stored digitized images.

   b. They must be properly labeled with both the member's name and the provider's name.

   c. If the individual teeth are not otherwise identified, copies or digitized prints of full mouth series radiographs and panographic films must be labeled "right" and "left." Copies of individual films or groups of films less than a full mouth series, should have the individual tooth numbers clearly identified.

   d. They must be of diagnostic quality. Many of the copies/prints Medi-Cal Dental receives have poor image quality as a result of poor density, contrast, sharpness, or resolution, and are, therefore, non-diagnostic. The image size should be the size of a standard radiographic film or larger. By reducing the image to be smaller than the size of a standard radiographic film, the diagnostic quality is compromised.

e. More than four sheets of paper are not acceptable

Providers should review copies/prints before submitting to Medi-Cal Dental to ensure the images are of diagnostic quality.

3. **State–Approved Forms.**

   Medi-Cal Dental will only accept original
   State-approved forms. No duplicates or photocopies will be accepted or processed.

Time Limitations for NOAs

If the allowed period of time on the NOA has expired and none of the authorized services have been completed, send the expired NOA back to Medi-Cal Dental so it can be deleted from the automated system. If at a later date authorization for these services is requested and there is an outstanding NOA for the same services, processing delays or denial of services can occur.

Justification of Need for Prosthesis (DC054, Rev 02/24)

The Justification of Need for Prosthesis Form (DC054) is designed to provide complete and detailed information necessary for screening and processing prosthetic cases. This form is required when submitting a Treatment Authorization Request (TAR) for complete dentures, immediate dentures (when immediate dentures are rendered in conjunction with an opposing complete denture or partial removable prosthesis), resin base partial dentures, cast metal framework partial dentures, and complete overdentures (Procedures D5110, D5120, D5130, D5140, D5211, D5212, D5213, D5214, D5863, D5865).

Providers should document specific information describing the condition of the member's oral condition **and** the condition of any existing prosthetic appliances. Documentation must include:

- both arches;
- missing teeth;
- teeth to be extracted;
- teeth being replaced by the requested partial prosthesis (excluding third molars);
- teeth being clasped (applies to cast framework partial or resin base partial);
- the condition of the soft tissue and hard tissue, e.g., soft tissue inflammation, palatal torus, mandibular tori, atrophied ridge, large fibrous tuberosity, hyperplastic tissue, etc.

It is the provider's responsibility to document conditions that Medi-Cal Dental will need for determining the member's need for the initial placement or replacement of a prosthesis as well as their ability to adapt to a prosthesis.

If a provider fails to submit a Justification of Need for Prosthesis Form, Medi-Cal Dental will issue an RTD for the required form, which will delay processing of the request. If the information on the Justification of Need for Prosthesis is incomplete or contradictory, the requested prosthetic appliance(s) will be denied.

The Justification of Need for Prosthesis Form is provided and may be ordered from the Medi-Cal dental forms supplier free of charge. A sample and instructions for completing the form are as follows:

Circumstances beyond the control of the patient: For a patient that submits a request to replace the appliance based on circumstances beyond their control, those circumstances can be demonstrated by documentation of all of the following: (1) a demonstration of continued medical necessity; (2) an explanation of the circumstances surrounding the loss which clearly explains how the loss occurred and why the loss was beyond the control of the patient; and (3) a clear explanation of the remedial measures the patient will take to safeguard against subsequent loss. Where loss from an activity wherein there was involvement from a fire department agency, law enforcement agency, or other governmental agency, documentation should include a copy of the official public service agency report, if such a report is relevant and available.

ii. A need for a new prosthesis due to surgical or traumatic loss of oral-facial anatomic structure.

iii. The removable prosthesis is no longer serviceable as determined by a clinical screening dentist.

iv. Dentures no longer fit due to significant medical condition. Documentation from the patient's physician supporting the medical necessity of early replacement and a letter from the dentist stating that the existing denture cannot be made functional.

v. A non-catastrophic loss or misplacement may be granted twice per lifetime. Documentation must include an explanation of preventive measures instituted to alleviate the need for further replacement. Additional requests, beyond the two lifetime exceptions shall be submitted as procedure code D5899 and will be considered on a case by case basis.

How to Complete the HLD Index Scoresheet

HANDICAPPING LABIO-LINGUAL DEVIATION (HLD) INDEX CALIFORNIA MODIFICATION
SCORING INSTRUCTIONS

The intent of the HLD index is to measure the presence or absence, and the degree, of the handicap caused by the components of the Index, and not to diagnose 'malocclusion.' All measurements are made with a Boley Gauge (or a disposable ruler) scaled in millimeters. Absence of any conditions must be recorded by entering '0.' (Refer to the attached score sheet.)

The following information should help clarify the categories on the HLD Index:

1. **Cleft Palate Deformity:** Acceptable documentation must include at least one of the following: 1) diagnostic casts; 2) intraoral photograph of the palate; 3) written consultation report by a qualified specialist or Craniofacial Panel) Indicate an 'X' on the score sheet. Do not score any further if present. (This condition is automatically considered to qualify for orthodontic services.)

2. **Cranio-facial Anomaly:** (Attach description of condition from a credentialed specialist) Indicate an 'X' on the score sheet. Do not score any further if present. (This condition is automatically considered to qualify for orthodontic services.)

3. **Deep Impinging Overbite:** Indicate an 'X' on the score sheet when lower incisors are destroying the soft tissue of the palate and tissue laceration and/or clinical attachment loss are present. Do not score any further if present. (This condition is automatically considered to be a handicapping malocclusion without further scoring.)

4. **Crossbite of Individual Anterior Teeth:** Indicate an 'X' on the score sheet when clinical attachment loss and recession of the gingival margin are present. Do not score any further if present. (This condition is automatically considered to be a handicapping malocclusion without further scoring.)

5. **Severe Traumatic Deviation:** Traumatic deviations are, for example, loss of a premaxilla segment by burns or by accident; the result of osteomyelitis; or other gross pathology. Indicate an 'X' on the score sheet and attach documentation and description of condition. Do not score any further if present. (This condition is automatically considered to be a handicapping malocclusion without further scoring.)

6A **Overjet greater than 9mm with incompetent lips or mandibular protrusion (reverse overjet) greater than 3.5mm with masticatory and speech difficulties:** Overjet is recorded with the patient's teeth in centric occlusion and is measured from the labial of the lower incisors to the labial of the corresponding upper central incisors. This measurement should record the greatest distance between any one upper central incisor and it's corresponding lower central or lateral incisor. If the overjet is greater than 9mm with incompetent lips or mandibular protrusion (reverse overjet) is greater than 3.5mm with masticatory and speech difficulties, indicate an 'X' and score no further. (This condition is automatically considered to be a handicapping malocclusion without further scoring. Photographs shall be submitted for this automatic exception.)

6B **Overjet equal to or less than 9mm:** Overjet is recorded as in condition #6A above. The measurement is rounded off to the nearest millimeter and entered on the score sheet.

7. **Overbite in Millimeters:** A pencil mark on the tooth indicating the extent of overlap facilitates this measurement. It is measured by rounding off to the nearest millimeter and entered on the score sheet. ('Reverse' overbite may exist in certain conditions and should be measured and recorded.)

8. **Mandibular Protrusion (reverse overjet) equal to or less than 3.5mm:** Mandibular protrusion (reverse overjet) is recorded as in condition #6A above. The measurement is rounded off to the nearest millimeter. Enter on the score sheet and multiply by five (5).

9. **Open Bite in Millimeters:** This condition is defined as the absence of occlusal contact in the anterior region. It is measured from incisal edge of a maxillary central incisor to incisal edge of a corresponding mandibular incisor, in millimeters. The measurement is entered on the score sheet and multiplied by four (4). In cases of pronounced protrusion associated with open bite, measurement of the open bite is not always possible. In those cases, a close approximation can usually be estimated.

10. **Ectopic Eruption:** Count each tooth, excluding third molars. Each qualifying tooth must be more the 50% blocked out of the arch. Count only one tooth when there are mutually blocked out teeth. Enter the number of qualifying teeth on the score sheet and multiply by three (3). If anterior crowding (condition #11) also exists in the same arch, score the condition that scores the most points. **DO NOT COUNT BOTH CONDITIONS.** However, posterior ectopic teeth can still be counted separately from anterior crowding when they occur in the same arch.

11. **Anterior Crowding:** Arch length insufficiency must exceed 3.5mm. Mild rotations that may react favorably to stripping or mild expansion procedures are not to be scored as crowded. Score one (1) for a crowded maxillary arch and/or one (1) for a crowded mandibular arch. Enter total on the score sheet and multiply by five (5). If ectopic eruption (condition #10) exists in the anterior region of the same arch, count the condition that scores the most points. **DO NOT COUNT BOTH CONDITIONS.** However, posterior ectopic teeth can still be counted separately from anterior crowding when they occur in the same arch.

12. **Labio-Lingual Spread:** A Boley Gauge (or a disposable ruler) is used to determine the extent of deviation from a normal arch. Where there is only a protruded or lingually displaced anterior tooth, the measurement should be made from the incisal edge of that tooth to the normal arch line. Otherwise, the total distance between the most protruded anterior tooth and the most lingually displaced adjacent anterior tooth is measured. In the event that multiple anterior crowding of teeth is observed, all deviations from the normal arch should be measured for labio-lingual spread, but only the most severe individual measurement should be entered on the score sheet.

13. **Posterior Unilateral Crossbite:** This condition involves two or more adjacent teeth, one of which must be a molar. The crossbite must be one in which the maxillary posterior teeth involved may either be both palatal or both completely buccal in relation to the mandibular posterior teeth. The presence of posterior unilateral crossbite is indicated by a score of four (4) on the score sheet. **NO SCORE FOR BI-LATERIAL CROSSBITE.**

Explanation of Benefits (EOB)

The Explanation of Benefits (EOB) is a computer-generated statement that accompanies each check sent to Medi-Cal dental providers. It lists all paid and denied claims that have been adjudicated or adjusted during the payment cycle, as well as non-claims specific information. Claims and TARs that have been in process over 18 days are also listed.

Lost/Misplaced EOBs

Providers are issued an EOB each week which lists, in detail, all activity on documents for accounting and tracking purposes. Listed on the weekly EOB are all paid claims, adjustments, and current status of pending documents. In addition, the EOB contains seminar information, accounts payable and receivable activity, and notification of electronic funds transfer information.

Each service office with claim activity receives an EOB which should be used for payment posting, account balancing, and monitoring the progress of documents in process as they go through the system. Service offices managed through corporate offices should have internal procedures in place to ensure they receive the most current information relative to their submissions, i.e., FAX, scanned email, etc.

Lost or misplaced EOBs can be reprinted. Please submit your request in writing, including your provider number and the EOB issue date to:

Compliance Management and Surveillance and Utilization Review Subsystem (CM/SURS)

Introduction

Medi-Cal Dental's Compliance Management and Surveillance and Utilization Review (CM/SUR) department monitors for suspected fraud, abuse, and poor quality of care as part of its duties as the Fiscal Intermediary for the Department and California Medi-Cal Dental. In overseeing appropriate utilization in the program, the CM/SUR department helps Medi-Cal Dental meet its ongoing commitment to improving the quality of dental care for Medi-Cal members.

The goal of the CM/SUR department is to ensure providers and members are in compliance with the criteria and regulations of Medi-Cal Dental.

Under the authority of the Federal Medicaid statutes, California Welfare and Institutions Code (W&I), the Business & Professions Code, Dental Practice Act (click here for details), and the California Code of Regulations (CCR) Title 22, and with the assistance of the California Dental Association's Guidelines for the Assessment of Clinical Quality of Professional Performance, the CM/SUR department reviews treatment forms, written documentation, and radiographs for recurring problems, abnormal billing activity and unusual utilization patterns. The CM/SUR department staff determines potential billing discrepancies, patterns of over-utilization of procedures, incomplete, substandard, and/or unnecessary treatment.

Methods of Evaluation

The CM/SUR department employs several different means to evaluate suspected fraud and abuse of Medi-Cal Dental, including:

- **Utilization Review Analysis**: This statistical analysis compares a provider activity with that of his or her peers within a certain range, such as geographic area or dental specialty.
- **Referrals**: The Department of Health Care Services (DHCS), Medi-Cal Dental Services Division (MDSD), works in collaboration with the Department of Justice, the Bureau of Medi-Cal Fraud & Elder Abuse, and the Dental Board of California on cases of suspected fraud, abuse, and poor quality of care. These agencies often refer provider names for investigation to the CM/SUR department. The CM/SUR department also receives referrals from internal sources such as Professional Review Medi-Cal Dental consultants.
- **Clinical Screening Examinations**: Patients are selected by the CM/SUR department for examination by a Medi-Cal Dental clinical screening consultant to determine if certain procedures for which authorization is requested are medically

necessary, verify if billed procedures were in fact provided, and evaluate the professional quality of the treatment that was provided.

- **Member Fraud Unit**: A part of the CM/SUR department, the Member Fraud unit, monitors conflicts in patient dental histories to determine if Medi-Cal identification cards are being misused or services are being billed improperly.
- **SURS Audits**: When poor quality of care, abuse, over utilization, or fraud is suspected, the CM/SUR department may elect to conduct an audit of patient records, including radiographs, obtained from the provider’s office to gather additional information about the provider’s activity.

Possible CM/SURS Actions

The CM/SUR department will take appropriate action at the direction of the Department of Health Care Services, Medi-Cal Dental Services Division (MDSD), to address situations where poor quality of care, inappropriate billings, and/or inappropriate utilization of services are identified. Such actions may include one or more of the following:

- **Summary of Findings Letter**: When minor non-conformities to Medi-Cal Dental criteria are detected, the CM/SUR department will send a letter informing and educating the provider of Medi-Cal Dental criteria, including program limitations, exclusions, and special documentation requirements. The letter will also direct the provider to modify his or her performance in accordance with the criteria and standards of Medi-Cal Dental.
- **Corrective Action Letter**: When poor quality of care is identified, Medi-Cal Dental will send a letter to the provider requesting that he or she take immediate action to correct the problem within 60 days. The letter will inform the provider that if the correction is not made within 60 days, Medi-Cal Dental will take action to recover payment for the procedures in question.
- **Prior Authorization/Special Claims Review**: The Department may require providers to obtain prior authorization for certain Medi-Cal Dental procedures to protect members from unnecessary treatment. The prior authorization procedure is described in "Section 2: Program Overview" of this Handbook. The Medi-Cal Dental may place a provider on Prior Authorization (PA) review for non-emergency procedures at any time by the Director upon a determination that the provider has been rendering medically unnecessary services based upon the Program’s Manual of Criteria (MOC). If prior authorization review is initiated, there are no appeal rights.

  If the CM/SUR department determines that a provider is billing Medi-Cal Dental by submitting improper claims, including claims that incorrectly identify or code services provided, or are for procedures that are of poor quality, or were not provided, the provider may be placed on Special Claims Review. The provider

will then be required to submit pre-operative and/or post-operative radiographs and other documentation to demonstrate the quality of treatment provided and to verify that the procedure provided corresponds to the procedure billed. Utilization control requirements are in addition to the requirements outlined in "Section 2: Program Overview" of this Handbook and may be imposed under the authority of Title 22, California Code of Regulations (CCR), Sections 51159, 51455, and 51460. If Special Claims Review is initiated, there are no appeal rights.

- **Recovery of Payment**: Recovery for paid procedures may be obtained by withholding the amount to be reimbursed from a provider's future Medi-Cal Dental payments. Recovery may occur when a post-operative clinical screening exam or post payment review identifies any discrepancies in the billing or delivery of those services and/or for failure to complete a noticed corrective action.
- **Removal From Referral List**: If a provider's performance is deemed below the standard of professional care for a particular course of treatment, the provider may be subject to removal from the Medi-Cal Dental provider referral list.
- **Other Agency Referral**: When CM/SURS investigations disclose a situation that may require criminal prosecution or action beyond the jurisdiction of Medi-Cal Dental, the matter will be referred to the Department of Health Care Services, MDSD, for possible referral to the Department of Justice, Bureau of Medi-Cal Fraud & Elder Abuse, and/or the Dental Board of California. Referrals to these agencies may result in further investigation, prosecution, and suspension of the provider's license to practice.
- **Suspension from Medi-Cal Dental**: Non-compliance with corrective action and/or continued and persistent substandard care, fraud, and/or abuse as well as violation of any Medi-Cal statute, rule, or regulation relating to the provision of health care services under the California Medical Assistance Program can lead to suspension of a provider's participation in Medi-Cal Dental.

Statutes and Regulations

Pertaining to Providers

This section details certain State statutes and regulations that are binding on Medi-Cal Dental providers, their designated agents, all public and private agencies, and/or individuals who are engaged in planning, providing, or securing Medi-Cal Dental services for or on the behalf of recipients or applicants.

Confidentiality

The W&I Code, Section 10850 provides that names, addresses, and all other information concerning circumstances of any applicant or recipient of Medi-Cal Dental services for whom, or about whom, information is obtained shall be considered confidential and shall be safeguarded. Both the release and possession of confidential information in violation of this statute are misdemeanors.

Record Keeping Criteria

Through its audit process, the CM/SUR department has found many areas to be deficient in the documentation of treatment for Medi-Cal Dental members. Lack of proper documentation may result in an unfavorable audit and potential recovery of payments. It is also important to note that all documentation on Treatment Authorization Requests (TARs) and claims must be consistent with and supported by documentation in the record of treatment.

Providers should carefully review the full text of regulations regarding the keeping and availability of records.

Title 22, California Code of Regulations (CCR), Section 51476. (a) states:

> Each provider shall keep, maintain, and have readily retrievable, such records as are necessary to fully disclose the type and extent of services provided to a Medi-Cal member. Failure to produce records may result in sanctions, audit adjustments, or recovery of overpayments, in accordance with California Code of Regulations (CCR), Title 22, Section 51458.1.

Welfare & Institutions Code, Section 14124.1. states:

Each provider, as defined in Section 14043.1, of health care services rendered under the Medi-Cal program or any other health care program administered by the department or its agents or contractors, shall keep and maintain records of each such service rendered, the member or person to whom rendered, the date the service was rendered, and such additional information as the department may by regulation require. Identification in Patient Record

Medi-Cal Dental will not pay for services unless the rendering provider is actively enrolled in Medi-Cal Dental at the time of treatment. Treatment of Medi-Cal Dental patients by un-enrolled providers is not covered and will be subject to recovery of payments made.

Business and Professions Code, Section 1683. states:

(a.) Every dentist, dental health professional, or other licensed health professional who performs a service on a patient in a dental office shall identify himself or herself in the patient record by signing his or her name, or an identification number and initials, next to the service performed and shall date those treatment entries in the record. Any person licensed under this chapter who owns, operates, or manages a dental office shall ensure compliance with this requirement.

Amounts paid for services provided to Medi-Cal members shall be audited by the department in the manner and form prescribed by the department. The department shall maintain adequate controls to ensure responsibility and accountability for the expenditure of federal and state funds. (1.) In excess of program payment ceilings or allowable costs.

<u>Intravenous Moderate (Conscious) Sedation/Analgesia (Conscious Sedation) (D9239 and D9243)</u>

Intravenous conscious sedation/analgesia (Conscious Sedation) is a medically controlled state of depressed consciousness that retains the patient’s ability to maintain independently and continuously an airway, protective reflexes, and the ability to respond appropriately to stimulation or verbal commands. It includes intravenous (IV) administration of sedative and/or analgesic agent(s) and appropriate monitoring.

"Intravenous Conscious Sedation/Analgesia" (Conscious Sedation) does not include the administration of oral medications or the administration of a mixture of nitrous oxide and oxygen, whether administered alone or in combination with each other.

Non-intravenous Conscious Sedation (Oral Conscious Sedation) (D9248)

Non-intravenous conscious sedation (Oral Conscious Sedation) is a medically controlled state of depressed consciousness that retains the patient's ability to maintain independently and continuously an airway, protective reflexes, and the ability to respond appropriately to stimulation or verbal commands. It includes administration of sedative and/or analgesic agent(s) orally, by patch, and by intramuscular or subcutaneous injection with appropriate monitoring.

The drugs and techniques used in oral conscious sedation shall have a margin of safety wide enough to render unintended loss of consciousness unlikely. Further, patients whose only response is reflex withdrawal from painful stimuli would not be considered to be in a state of oral conscious sedation.

For very young or handicapped individuals, incapable of the usually expected verbal response, a minimally depressed level of consciousness should be maintained.

"Minor patient" means a dental patient under the age of 13 years.

"Certification" means the issuance of a certificate to a dentist licensed by the board who provides the board with his or her name, and the location where the administration of oral conscious sedation will occur, and fulfills the requirements specified in Sections 1647.12. and 1647.13.

(c.) This article shall not apply to the administration of local anesthesia or a mixture of nitrous oxide and oxygen or to the administration, dispensing, or prescription of postoperative medications.

Business and Professions Code, Section 1647.14. states:

(a.) A physical evaluation and medical history shall be taken before the administration of, oral conscious sedation to a minor. Any dentist who administers, or orders the administration of, oral conscious sedation to a minor shall maintain records of the physical evaluation, medical history, and oral conscious sedation procedures used as required by the board regulations.
(b.) A dentist who administers, or who orders the administration of, oral conscious sedation for a minor patient shall be physically present in the treatment facility while the patient is sedated and shall be present until discharge of the patient from the facility.
(c.) The drugs and techniques used in oral conscious sedation to minors shall have a margin of safety wide enough to render unintended loss of consciousness unlikely.

Business and Professions Code, Section 1647.17. states:

A violation of any provision of this article constitutes unprofessional conduct and is grounds for the revocation or suspension of the dentist's permit, certificate, license, or all three, or the dentist may be reprimanded or placed on probation. The proceedings under this section shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part I of Division 3 of Title 2 of the Government Code, and the board shall have all the powers granted therein.

Oral conscious sedation" means a minimally depressed level of consciousness produced by oral medication that retains the patient's ability to maintain independently and continuously an airway and respond appropriately to physical stimulation or verbal command. "Oral conscious sedation" does not include dosages less than or equal to the single maximum recommended dose that can be prescribed for home use.
    (1.) The drugs and techniques used in oral conscious sedation shall have a margin of safety wide enough to render unintended loss of consciousness unlikely. Further, patients whose only response is reflex withdrawal from

painful stimuli would not be considered to be in a state of oral conscious sedation.

(2.) For the handicapped individual, incapable of the usually expected verbal response, a minimally depressed level of consciousness for that individual should be maintained.

Business and Professions Code, Section 1647.19. states:

(a.) Notwithstanding subdivision (a) of Section 1647.2, a dentist may not administer oral conscious sedation on an outpatient basis to an adult patient unless the dentist possesses a current license in good standing to practice dentistry in California, and one of the following conditions is met:

  (1.) Were not provided as claimed,
  (2.) Are not reimbursable under the Medi-Cal Program as provided in subsection (d), or
  (3.) Were claimed in violation of an agreement with the State.

(b.) The Director's determination of whether a provider "knows or has reason to know" that items or services were not provided, are not reimbursable, or were claimed in violation of an agreement with the State (hereafter "improperly claimed"), shall be based on the following standards:
  (1.) Knows: The provider is aware of a high probability of the existence of the fact that items or services were improperly claimed, or
  (2.) Has reason to know: The provider has information from which a reasonable person in that position would infer that items or services were improperly claimed.

(c.) The Director's determination of whether the provider knows or has reason to know that items or services were "not provided as claimed" shall be based on information available pursuant to Section 51476.

(d.) The Director shall determine whether or not the provider knows or has reason to know that claimed items or services are "not reimbursable under the Med-Cal Program" in the following instances:

The Director shall consider only material violations which go to the merits of the agreement as distinguished from those which affect only form.

(f.) A civil money penalty shall be no more than three times the amount claimed by the provider for each item or service. It shall be within the Director's discretion to assess a lower penalty. In setting the amount of the penalty, the Director may consider evidence of mitigating circumstances submitted by the provider. Examples of such evidence include, but are not limited to:

(1.) Clerical error.

(2.) Good faith mistake.

(3.) Reliance on official publications.

(4.) Prior record of properly submitted claims.

(g.) An assessment of civil money penalties shall be effective upon the 60th calendar day after the date that the Department serves notice to the provider of the determination. Such notice shall be in writing and shall include grounds for the determination.

(h.) A provider shall have the right to appeal the determination by filing a request for hearing pursuant to Section 51022. The effective date of the assessment shall be deferred until this request is rejected or a final administrative decision is adopted.

(i.) Upon the effective date of assessment, the Director shall collect the civil money penalty in accordance with the procedures set forth in Sections 14115.5 and 14172 of the Welfare and Institutions Code and Section 51047.

(3.) The level of program payment for procedures.

Administrative Hearings

<u>Provider Audit Hearing</u>

Title 22, California Code of Regulations (CCR), Section 51017 states:

A provider may request a hearing under the provisions of this article to examine any disputed audit or examination finding which results in an adjustment to Medi-Cal program reimbursement or reimbursement rates by submitting a Statement of Disputed Issues to the Department in accordance with Section 51022.

<u>Request for Hearing</u>

Title 22, California Code of Regulations (CCR), Section 51022 states:

(a.) An institutional provider may request a hearing for any disputed audit or examination finding as follows:

- (1.) A written request shall be filed with the Department within 60 calendar days of the receipt of the written notice of the audit or examination findings.

(2.) This request may be amended at any time during the 60-calendar day period.

(b.) A Non-institutional provider may request a hearing on any disputed audit or examination finding as follows:

(1.) A written request shall be filed with the Department within 30 calendar days of the receipt of the audit or examination finding.

(2.) This request may be amended at any time during the 30-calendar day period.

(c.) All late requests by either Institutional or Non-institutional providers shall be denied, and the audit or examination findings deemed final unless the provider establishes in writing good cause for late filing within 15 calendar days of being notified of the untimeliness of its request.

(d.) The request shall be known as "Statement of Disputed Issues." It shall be in writing, signed by the provider or the authorized agent, and shall state the address of the provider and of the agent, if any agent has been designated. A provider or the agent shall specify the name and address of the individual authorized on behalf of the provider to receive any and all documents, including the final decision of the Director, relating to proceedings conducted pursuant to this article. The Statement of Disputed Issues need not be formal, but it shall be specific as to each issue as are in dispute, setting forth the provider's contentions as to those issues and the estimated amount each issue involves. The information specified in subsection (e) shall also be included. If the hearing officer determines that a Statement of Disputed Issues fails to state the specific grounds upon which objection to the specific item is based, the provider or the agent shall be notified that it does not comply with the requirement of this regulation, and the reasons, therefore.

(1.) An Institutional provider shall be granted 30 calendar days after the date of the mailing of the notice of deficiency to the provider within which to file an amended Statement of Disputed Issues.

(2.) A Non-institutional provider shall be granted 15 calendar days after the date of mailing of the notice of deficiency within which to file an amended Statement of Disputed Issues.

(3.) If within the time permitted in (1) or (2) above, the Institutional or Non-institutional provider, respectively, or the agent fails to amend its appeal as notified, the appeal as to those issues shall be rejected.

(e.) The request shall also specify whether the provider does or does not wish that an informal level of review among the parties be held, together with the reasons, therefore. Either party may request, or the hearing officer may order, that a telephone conference call be initiated among the parties for discussion of the advisability of conducting an informal level of review. The hearing officer shall decide whether an informal level of review would be appropriate and notify the parties of this decision in writing.

Member Fraud

Sharing of Medi-Cal Cards

Welfare & Institutions Code, Section 14026 states:

(a.) It is a misdemeanor for a Medi-Cal member to furnish, give, or lend his Medi-Cal card or labels to any person other than a provider of service as required under Medi-Cal regulations.

(b.) It is a misdemeanor for any person to use a Medi-Cal card other than the one which was issued to him or her to obtain health care services. This subdivision shall not apply to the use of a Medi-Cal card of a family member by another family member if the person using the card is, in fact, eligible under this chapter.

(c.) This section shall not apply to any peace officer while investigating Medi-Cal fraud or other crimes in performance of his official duties or to any person working under the peace officer’s immediate direction, supervision, or instruction when such peace officer has been issued a Medi-Cal card pursuant to Section 14026.5.

Provider Assistance for Medi-Cal Fraud

Members suspected of abusing Medi-Cal Dental should be reported to the appropriate authorities. To help deter fraud, providers should be aware of the following:

- Individuals who are not residents of California.
- Individuals who give, lend, or furnish their Medi-Cal cards to any person other than a Medi-Cal provider.

***Note**: This example does not apply to family members presenting a card on behalf of a Medi-Cal eligible recipient to obtain services for that recipient (for example, a relative picking up a prescription for the recipient).*

- Any attempt to obtain a prescription or controlled substance through misrepresentation or concealment.
- Individuals suspected of trying to obtain prescriptions to support their drug habit or for resale.
- Individuals who fail to report that they have other health coverage.
- Individuals who appear to have assets that would make them ineligible for Medi-Cal.

Section 9 - Special Programs

California Children's Services (CCS)

The CCS program provides health care to children and adolescents under 21 years of age who have a CCS-eligible medical condition.

The CCS program provides diagnostic and treatment services, medical case management, some dental services, and physical and occupational therapy services. The CCS program only authorizes dental services if the member's CCS-eligible medical condition or oral condition can be affected. Examples of medical conditions of children who are CCS-eligible for dental services include cerebral palsy, cystic fibrosis, hemophilia, certain heart diseases, certain cancers, traumatic injuries to the face and mouth, cleft lip/palate, and other craniofacial anomalies. CCS offers orthodontics to children with medically handicapping malocclusions, cleft lip/palate, and craniofacial anomalies.

Any individual, including a family member, school staff, public health nurse, doctor, or dentist may refer a child to the CCS program for an evaluation. The referral to the CCS county program or CCS State Regional Office may be made by fax, phone call, correspondence, or the CCS Dental and Orthodontic Client Service Authorization Request (SAR) form (CDHS 4516). CCS will not cover any services provided prior to the date the referral was received by the CCS program.

CCS serves approximately 175,000 children who have the following types of program eligibility:

- CCS/Medi-Cal: These members are eligible for full scope dental benefits with no share of cost under Medi-Cal. They may have case coordination services provided by CCS. The provider shall submit TARs and Claims directly to Medi-Cal Dental, comply with all program requirements, and obtain prior authorization (when necessary) in order for services to be paid.
- CCS-only: These members are children whose family's annual income is below $40,000, or whose estimated out-of-pocket expenses to treat the CCS eligible condition exceed 20% of a family's income. They receive health care funded by the State and the counties and are limited to the treatment of their CCS-eligible conditions.

Genetically Handicapped Person's Program (GHPP)

The GHPP is a State-funded health care program for adults and some children with certain genetic diseases. GHPP coordinates care and payment for persons usually over the age of 21 years with eligible genetic conditions. Eligible conditions include, but are not limited to, hereditary bleeding disorders, cystic fibrosis, and hereditary metabolic disorders.

The GHPP serves adults and some children who have the following types of program eligibility:

- GHPP/Medi-Cal: These members may be eligible for dental benefits under the GHPP.
- GHPP-only: These members receive comprehensive State-funded dental and health care benefits under GHPP.

CCS-only and Authorizations and Claims Processing

To begin the CCS process for dental services, the provider must submit a CCS Dental and Orthodontic Client Service Authorization Request (SAR) form (DHCS 4516) to the CCS county program. The provider may fax or mail this form to the CCS county program. The CCS county program will review the requested dental services and determine if the patient qualifies for the services based on their CCS-eligible medical condition.

Providers are required to obtain an approved SAR from the CCS county program of the member's county of residence, or CCS State Regional Office, prior to performing dental services. An approved SAR only authorizes the dental scope of benefits.

The CCS County program will issue a CCS SAR to the provider which will indicate the authorized Service Code Group(s) or individual procedure code(s) with a "begin date" and "end date" for up to one year. If the treatment is completed before the "begin date" or after the "end date" indicated on the SAR, payment will be disallowed.

The approved SAR does not guarantee payment. Payment is always subject to the dental criteria and submission requirements of Medi-Cal Dental.

Providers are to adhere to all Medi-Cal Dental policies and TAR/Claim submission requirements. Refer to the Orthodontic Services Program in this section as well as "Section 5: Manual of Criteria and Schedule of Maximum Allowances" of this Handbook.

Providers do not have to attach the SAR to the Medi-Cal Dental TAR/Claim. CCS electronically notifies Medi-Cal Dental providers who have received authorized SARs. If the procedure requested on the TAR/Claim is not on the SAR, payment/authorization will be disallowed with Adjudication Reason Code 390. Providers should contact CCS to obtain a new SAR prior to submitting a re-evaluation.

CCS/Medi-Cal Authorizations and Claims Processing

Members with CCS/Medi-Cal eligibility do not require a CCS SAR. These members have full scope Medi-Cal eligibility and are only case managed by CCS. No CCS SAR request should be submitted.

CCS/Medi-Cal claims and TARs are to be sent directly to the Medi-Cal Dental Providers may submit a TAR requesting EPSDT services for a Medi-Cal member requiring dental

benefits beyond the scope of the Medi-Cal Dental Refer to EPSDT services in this section.

GHPP/Medi-Cal and GHPP-only Authorizations and Claims Processing

To begin the GHPP process for dental services, the provider must submit a GHPP Dental Client Service Authorization Request (SAR) (MC 2361) to the GHPP State office. The provider may fax or mail this form to the GHPP State office. The GHPP will review the requested dental services and determine if requested services are medically necessary.

The GHPP will issue a GHPP SAR to the provider which will indicate the authorized Service Code Group(s) or individual procedure code(s) with a "begin date" and "end date" for up to one year. If the treatment is completed before the "begin date" or after the "end date" indicated on the SAR, payment will be disallowed.

The approved SAR does not guarantee payment. Payment is always subject to the dental criteria and submission requirements of Medi-Cal Dental.

Providers are to adhere to all Medi-Cal Dental policies and TAR/Claim submission requirements. Refer to "Section 5: Manual of Criteria and Schedule of Maximum Allowances" of this Handbook.

Providers do not have to attach the SAR to the Medi-Cal Dental TAR/Claim. GHPP electronically notifies Medi-Cal Dental of providers who have received authorized SARs. If the procedure requested on the TAR/Claim is not on the SAR, payment/authorization will be disallowed with Adjudication Reason Code 390. Providers should contact GHPP to obtain a new SAR prior to submitting a re-evaluation.

Orthodontic Services for CCS-only Members

The CCS program has adopted the Medi-Cal Dental orthodontic criteria for children with handicapping malocclusion, cleft lip/palate, and craniofacial anomalies. Orthodontic diagnostic and treatment criteria are contained within “Section 5: Manual of Criteria and Schedule of Maximum Allowances” for Medi-Cal Authorization (Dental Services) in this Handbook.

Providing Orthodontic Services to Medi-Cal Dental Members

In order to provide orthodontic services to Medi-Cal Dental or CCS members, a provider must be “actively” enrolled in Medi-Cal Dental and be enrolled as a Certified Orthodontist. Refer to “Section 3: Enrollment Requirements” of this Handbook for additional information regarding enrollment. If the provider is uncertain of his/her current Medi-Cal Dental status, he/she may phone the Telephone Service Center at (800) 423-0507 and request an Orthodontic Provider Enrollment Form.

As defined in Title 22, California Code of Regulations, Section 51223(c), a qualified orthodontist is a dentist who confines his/her practice to the specialty of orthodontics and has:

- Successfully completed a course of advanced study on orthodontics of two years or more in a program recognized by the Council on Dental Education of the American Dental Association, or
- Completed advanced training in orthodontics prior to July 1, 1969, and is a member of or eligible for membership in the American Association of Orthodontics.

Eligibility

CCS:

CCS/Medi-Cal Dental providers are to request an approved CCS SAR from the CCS county program or CCS State Regional Offices for CCS-only and dental services and then submit TAR/Claim forms to Medi-Cal Dental.

CCS/Medi-Cal:

Medi-Cal Dental providers are to submit TARs/Claims directly to Medi-Cal Dental and do not require a CCS SAR.

GHPP:

GHPP providers are to request an approved GHPP SAR from the State GHPP office for GHPP/Medi-Cal and GHPP-only dental services and then submit TAR/Claim forms to Medi-Cal Dental.

Note: CCS and GHPP SARs are not transferable between dental providers.

Changes in the Member's Program Eligibility

CCS-only, GHPP-only, CCS/Medi-Cal, and GHPP/Medi-Cal members are issued California Benefits Identification Cards (BIC). The BIC enables providers to determine eligibility through the AEVS, POS Device, and/or the Medi-Cal website. A member's program eligibility may change at any time, and it is the provider's responsibility to verify eligibility prior to treating the member.

When the member changes from the CCS/Medi-Cal program to the CCS-only program, providers must obtain a SAR from the CCS county program. A SAR is not required for members who change from the CCS-only program to CCS/Medi-Cal. Providers are to refer to this Handbook prior to treating CCS-only, CCS/Healthy Families, CCS/Medi-Cal, and GHPP/Medi-Cal members.

Providers will need to submit separate claim forms when a patient's program eligibility changes. This will expedite Medi-Cal reimbursement in the event that a CCS county has insufficient funds to process claims with CCS-only or benefits. If the CCS county

program/State GHPP program does not have sufficient funds, claims will be withheld until sufficient funds are available.

Note: CCS-only members residing in Los Angeles County will not be issued a BIC.

Emergency Treatment

CCS-only Members: If there is an emergency condition, then the provider may treat the member for the emergency. The provider is required to submit the appropriate form (CDHS 4488 or CDHS 4509) to the CCS county program or CCS State Regional Office by the next business day, requesting a SAR.

CCS/Medi-Cal Members: Providers should refer to "Section 4: Treating Members" of this Handbook for procedures for approval and payment for emergency dental services and for obtaining appropriate authorization for services dictated by emergency situations, which preclude timely advance requests for Medi-Cal Dental TAR/Claim forms.

GHPP/Medi-Cal and GHPP-only Members: If there is an emergency condition, then the provider may treat the member for the emergency. The provider is required to submit the appropriate form (MC 2361) to the State GHPP office by the next business day, requesting a SAR.

Other Coverage

A CCS or GHPP member may have other dental coverage (i.e., managed care or indemnity dental insurance coverage). Members must apply their other coverage benefits prior to utilizing CCS or GHPP benefits. Other coverage will be considered as the primary carrier, and CCS or GHPP will be considered as the secondary carrier and payer of last resort.

CCS-only, GHPP/Medi-Cal and GHPP only Service Code Groupings (SCG)

An approved SAR will list the SCGs and/or the individual procedure code(s) based on the provider's requested treatment plan and the member's CCS or GHPP-eligible medical condition. These 18 SCGs are grouped by treatment plans and procedure codes to assist the CCS county program or CCS State Regional Office in authorizing services based on the member's CCS-or GHPP-eligible medical condition. Providers are to request a SAR for one or more of the SCGs when requesting an authorization from the CCS county program or GHPP State office. If the procedure code is not listed in the SCG(s), the provider may request authorization for an individual procedure code from the Medi-Cal Dental scope of benefits.

Orthodontic Services Program

Medi-Cal Dental benefits include medically necessary orthodontic services. Services available under this program are limited to only those members who meet the general policies and requirements. These benefits are available to eligible individuals before their 21st birthday. Policies governing the provision of these program benefits are listed in "Section 5: Manual of Criteria and Schedule of Maximum Allowances" of this Handbook.

Qualified orthodontists may provide orthodontic services to eligible Medi-Cal and California Children's Services (CCS) members. California Code of Regulations, Title 22, Section 51223(c) defines a "qualified orthodontist" as a dentist who "confines his/her practice to the specialty of orthodontics, and, who either has successfully completed a course of advanced study in orthodontics of two years or more in programs recognized by the Council on Dental Education of the American Dental Association" or "who has completed advanced training in orthodontics prior to July 1, 1969 and is a member of, or eligible for membership in the American Association of Orthodontists."

Enrollment and Orthodontic Certification

1. A provider must be actively enrolled as a Medi-Cal Dental provider to qualify for participation in this program. An orthodontist who wishes to submit claims for services provided to eligible Medi-Cal Dental and/or CCS members must first complete an Orthodontia Provider Certification form. For an enrollment application and information, call the Medi-Cal Dental Telephone Service Center at (800) 423-0507.
2. Complete the Orthodontia Provider Certification form and return it promptly to Medi-Cal Dental. Medi-Cal Dental will enter an appropriate code on an automated provider record to establish and identify the provider under the Orthodontic Services Program.
3. The provider will be notified in writing when the certification has been approved**. Orthodontic services provided to Medi-Cal members prior to an approved certification will not be paid by Medi-Cal Dental**.
4. Medi-Cal Dental will furnish an initial supply of the Handicapping Labio-Lingual Deviation (HLD) Index California Modification Score Sheets (DC016) upon certification approval. Additional Score Sheets may be obtained through the Medi-Cal Dental forms supplier by checking the appropriate box on the Medi-Cal Dental Forms Reorder Request.

Initial Orthodontic Evaluation and Completion of the HLD Index Score Sheet

An initial orthodontic examination called the Limited Oral Evaluation (Procedure D0140) must be conducted. This examination includes completion of the HLD Score Sheet. The HLD Score Sheet is the preliminary measurement tool used in determining if the patient qualifies for medically necessary orthodontic services. Follow the instructions on the back of the form to assess the medical necessity (example in “Section 6: Forms” of this Handbook). The qualifying conditions for treatment under the Medi-Cal Dental Orthodontic Program are:

1. Cleft palate deformities.
2. Craniofacial anomaly. (A description of the condition from a credentialed specialist must be attached.)
3. Deep impinging overbite, where the lower incisors are destroying the soft tissue of the palate and tissue laceration and/or clinical attachment loss are present. (Contact only does not constitute deep impinging overbite under the Orthodontic Services Program.)
4. Crossbite of individual anterior teeth when clinical attachment loss and recession of the gingival margin are present (e.g., stripping of the labial gingival tissue on the lower incisors). Treatment of bi-lateral posterior crossbite is not a benefit of the program.
5. Severe traumatic deviation must be justified by attaching a description of the condition.

6A. Overjet greater than 9mm with incompetent lips or mandibular protrusion (reverse overjet) greater than 3.5mm with reported masticatory and speech difficulties. Submit photographs for this exception.

6B. Individual score of at least 26 points.

Children who do not meet the Manual of Criteria requirements for orthodontic services may still be covered if services are documented as medically necessary under the Early and Periodic Screening, Diagnostic and Treatment (EPSDT) Regulations. Attach the required supporting documentation in addition to completing the “conditions” section of the form. Refer to the EPSDT Services Request for Orthodontic Services of this section for clarification of qualifying factors for EPSDT services.

If one of the above conditions is present, Diagnostic Casts (Procedure D0470) may be provided for members. (Note: Diagnostic Casts are payable only upon authorization of orthodontic treatment plan.)

The Orthodontic Evaluation (Procedure D0140) and/or the Diagnostic Casts (Procedure D0470) do not require prior authorization from Medi-Cal Dental. Please note that all other orthodontic services do require prior authorization.

Diagnostic Casts

Diagnostic Casts (Procedure D0470) are required documentation for all handicapping malocclusion and cleft palate treatment plan requests. Exception: If the patient has a cleft palate that is not visible on the diagnostic casts, submission of the casts to Medi-Cal Dental is not required. However, photographs or documentation from a credentialed specialist must be submitted.

Craniofacial anomalies cases do not require the submission of diagnostic casts for treatment plan requests but do require documentation from a credentialed specialist.

Casts must be of diagnostic quality. To meet diagnostic requirements, casts must be properly poured and adequately trimmed to allow placement into centric occlusion. No large voids or positive bubbles should be present. Casts should be completely dry to prevent mold from forming. A bite registration or the markings of occlusion must be clearly indicated, making it possible to properly occlude the casts.

Careful packaging will help ensure that the casts arrive at Medi-Cal Dental in good condition.
Medi-Cal Dental receives many broken and damaged casts due to poor packaging. Casts that have been broken or damaged due to poor packaging cannot be used for processing and will be destroyed. If Medi-Cal Dental receives broken or damaged casts, a Resubmission Turnaround Document (RTD) will be initiated to request new casts, causing further processing delays. Use a box that has sufficient packaging material (such as Styrofoam “peanuts,” shredded newspaper, “bubble wrap,” etc.) so that the casts will not be jarred or bumped during shipping. Also, place packaging materials

between the upper and lower arches to prevent rubbing and possible chipping and breakage of the teeth.

Additionally, diagnostic casts should be clearly labeled with proper identification so they can be matched with the correct TAR. This identification should clearly indicate:

- The patient's name,
- Client Index Number (CIN) or Benefits Identification Card (BIC) number,
- Billing Provider Name, and
- Service office National Provider Identifier (NPI) number.

If the casts are received without patient identification and billing provider information, they will be destroyed.

Only duplicate or second pour diagnostic casts should be sent to Medi-Cal Dental. The casts will not be returned. Diagnostic casts of denied cases will be kept in the Medi-Cal Dental office for 30 days following a denial and up to one year off-site to enable the provider to request a reevaluation.

Do not mail diagnostic casts in the same envelope or mailing container as the claim for the diagnostic casts, the RTD requesting the diagnostic casts, or the TAR for orthodontic treatment. The diagnostic casts should be packaged separately and mailed to Medi-Cal Dental approximately 10 days prior to mailing the claim, the RTD, or the TAR to the address on the TAR/Claim form. Unless otherwise directed, do not send casts to alternate addresses as they can be misdirected or lost. **Providers must keep diagnostic casts for a minimum of two years after the case is completed.**

Clarification of Case Types

Malocclusion Cases

Malocclusion cases may only be started with permanent dentition, or at 13 years of age. If a malocclusion case requires further treatment beyond 8 quarterly visits, a maximum of 4 additional quarters may be authorized upon review of progress photographs and documentation.

Cleft Palate Cases

Cleft palate cases may be treated from birth in the primary dentition phase, in the mixed dentition phase, and again in the permanent dentition phase. If the cleft palate cannot be demonstrated on the diagnostic casts, documentation from a credentialed specialist must be attached.

If the primary dentition case requires further treatment beyond 4 quarterly visits, a maximum of 2 additional quarters may be authorized upon review of progress photographs and documentation.

If the mixed dentition case requires further treatment beyond 5 quarterly visits, a maximum of 3 additional quarters may be authorized upon review of progress photographs and documentation.

If the permanent dentition case requires further treatment beyond 10 quarterly visits, a maximum of 5 additional quarters may be authorized upon review of progress photographs and documentation.

If retention will not be required for the primary or mixed dentition phase, document this in the comments section (box 34) of the TAR.

Craniofacial Anomaly Cases

Craniofacial anomalies cases may also be treated from birth in the primary dentition phase, again in the mixed dentition, and again in the permanent dentition phase. Documentation from a credentialed specialist is required for all craniofacial anomaly cases. Submission of the diagnostic casts is optional.

Procedure D8660 – Pre-orthodontic Treatment Visits (maximum of 6 quarters) are optional and are a benefit only for craniofacial anomaly cases to monitor the patient's dentition and/or facial growth prior to starting orthodontic treatment.

If the primary dentition case requires further treatment beyond 4 quarterly visits, a maximum of 2 additional quarters may be authorized upon review of progress photographs and documentation.

If the mixed dentition case requires further treatment beyond 5 quarterly visits, a maximum of 3 additional quarters may be authorized upon review of progress photographs and documentation.

If the permanent dentition case requires further treatment beyond 8 quarterly visits, a maximum of 4 additional quarters may be authorized upon review of progress photographs and documentation.

If retention will not be required for the primary or mixed dentition phase, document this in the comments section (box 34) of the TAR.

<u>Orthodontic Treatment Plans</u>

1. A complete orthodontic treatment plan must be submitted to request prior authorization. The orthodontic treatment plan must include:
   a) TAR:
      - Comprehensive orthodontic treatment of the adolescent dentition (D8080)
      - Periodic orthodontic treatment visit(s) (D8670)
      - Note: Document the case type and dentition phase in the comment section (box 34).
      - Orthodontic retention (D8680)

- Any necessary radiographs such as complete series (D0210) or Panoramic radiographic image (D0330), and cephalometric radiographic images (D0340) should also be requested on the TAR.

b) HLD Score Sheet

c) Diagnostic Casts

Note: For craniofacial anomalies cases only: If Pre-orthodontic treatment visits (Procedure D8660) are necessary prior to starting orthodontic treatment, indicate the quantity and attach all appropriate documentation to the TAR for the complete orthodontic treatment plan.

2. The Medi-Cal Dental orthodontic consultant will evaluate the HLD Score Sheet, and the diagnostic casts or documentation (as applicable for cleft palate and craniofacial anomaly cases) to determine if the case qualifies for treatment under the Medi-Cal Dental guidelines for orthodontic services.

Treatment Plan Authorization and Payment Submission Procedures

1. When the TAR for orthodontic services is approved by Medi-Cal Dental, a series of Notices of Authorization (NOAs) will be issued confirming authorization. NOAs will be sent at the beginning of the authorization date and every quarter thereafter throughout the treatment plan authorization period. A calendar quarter is defined as:
   a) January through March
   b) April through June
   c) July through September
   d) October through December

   These NOAs should be used for billing purposes.

2. Each calendar quarter when services are provided, submit one NOA to Medi-Cal Dental for payment.

   Payment for the first quarterly treatment visit shall only be made when it is performed in the next calendar month following banding (Procedure D8080).

   Note: On or after July 1, 2008, each incidence of Procedure D8670 will be paid once per quarter. Only one NOA with a date of service in a given quarter needs to be submitted in order to receive the quarterly payment. Treatment visits may occur at any frequency deemed necessary during the quarter to complete the active phase of treatment, e.g., monthly, bimonthly, quarterly.

   NOAs for payment will be processed in accordance with general Medi-Cal Dental billing policies and criteria requirements for Orthodontic Services. Please remember that authorization does not guarantee payment. Payment is subject to patient eligibility.

   Note: If payment of an NOA is denied, submit a Claim Inquiry Form (CIF) for reevaluation. Do not resubmit for the same date of service using a new NOA.

3. Request a reevaluation for prior authorization of treatment only on a denied NOA for the orthodontic treatment plan. NOAs for the active phase of treatment and retention may not be reevaluated.
4. Under the Medi-Cal Dental orthodontic program, confirmation of continued treatment is required at the end of each 12 months of authorized treatment. Medi-Cal Dental will send a Resubmission Turnaround Document (RTD) requesting a signature to confirm continued treatment for the subsequent 12 months or remaining treatment. Indicate treatment will continue by signing the RTD. If the RTD is not returned according to Medi-Cal Dental policies, the request for continued treatment will be disallowed. A new TAR must then be submitted for all remaining treatments.

Helpful Hints

The following is important information regarding eligibility when providing orthodontic treatment:

Member eligibility must be current for each month and must cover orthodontic benefits.

A member seeking orthodontic treatment may have a SOC obligation to meet each month.

A member may have coverage under another plan that includes orthodontic services. Members with other dental coverage must still have orthodontic services authorized under Medi-Cal Dental.

Each request for payment must have the Explanation of Benefits (EOB), fee schedule, or letter of denial attached.

The information may state that the member is enrolled in a special project or prepaid health plan that includes orthodontic treatment. Refer to “Section 7: Codes” of this Handbook for additional information and a list of current special project codes and prepaid health plan codes.

Refer to “Section 4: Treating Members” of this Handbook for complete information on member eligibility and procedures for verifying eligibility.

Transfer Cases

When transferring from one certified Medi-Cal Dental orthodontist to another certified Medi-Cal Dental orthodontist, prior authorization is necessary before continuing treatment.

Transfer of a case in progress by another carrier also requires prior authorization.

Original diagnostic casts, along with new casts or progress photographs and any other documentation must be submitted for evaluation.

Diagnostic casts are not required if the treatment has already been approved by Medi-Cal Dental.

Only orthodontic cases that meet the program criteria will be authorized for the remaining treatment which will be determined by the Medi-Cal Dental orthodontic consultant.

Treatment Plan Authorization and Payment Submission Procedures

When additional orthodontic services are required or there is a change in the authorized treatment plan, submit a new TAR with documentation and any NOAs that have not been used. Mark all unused NOAs for deletion.

- If the orthodontic treatment is completed in less time than originally authorized, then document this on the NOA for the final quarterly visit.
- If there are remaining NOAs for quarterly visits but there is no NOA for retainers, then submit all the outstanding NOAs for deletion and attach a new TAR for upper and lower retainers along with the request for payment.
- If billing on the NOA for the retainers, then document that the treatment has been completed ahead of schedule and attach any remaining NOAs for deletion.
- When a new TAR is authorized by Medi-Cal Dental, the provider will receive a series of NOAs confirming the authorization. Use the new NOAs for billing purposes.

The TAR submitted for Procedures D8670 and D8660 must list the total quantity or frequency (number of quarters necessary to complete the treatment) in the “Quantity” field, column #30 and the total fee (fee for the procedure times the number of quarters) in the “Fee” field, column #32. The example above shows the correct way to list these procedures to ensure accurate calculation of the Notice of Authorization.

Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Services

In accordance with the requirements in Section 1905(r) of the Social Security Act and Title 42 Code of Federal Regulations Section 441.50 et seq, and specifically CFR 441.56(b)(1)(vi), the Department of Health Care Services (DHCS) is responsible for providing full-scope Medi-Cal members under the age of 21 with a comprehensive,

high-quality array of preventive (such as screening), diagnostic, and treatment services under EPSDT. Further, consistent with state and federal law and regulations for EPSDT, the Medi-Cal Dental covers all services that are medically necessary under EPSDT, including those to “correct or ameliorate” defects and physical and mental illness or conditions. These services are without cost for the member.

EPSDT: Frequently Asked Questions

What is EPSDT?

The EPSDT benefit allows Medi-Cal enrolled children and youth under age 21 to get preventive (screening) dental services and to get diagnostic and treatment services that are medically necessary to correct or ameliorate health conditions found during screening.

What kind of dental services are classified as EPSDT?

EPSDT services are Medicaid-covered services that are medically necessary. These services may or may not be part of the Manual of Criteria.

What is the EPSDT standard for “medically necessity?”

The EPSDT benefit entitles enrolled members under the age of 21 to any treatment or procedure that fits within any of the categories of Medicaid-covered services listed in the SSA, Section 1905(a), regardless of whether or not the service is covered under the Medi-Cal State Plan or is listed in the Manual of Criteria, if that treatment or service is necessary to “correct or ameliorate” defects and physical and mental illnesses or conditions, meaning that the service is medically necessary under EPSDT. Effective January 1, 2019, Welfare and Institutions Code section 14059.5 distinguishes the definition of medical necessity for individuals 21 and older compared with the definition for those under 21. For individuals younger than 21 years of age, services are determined to be medically necessary when needed to correct or ameliorate defects and physical and mental illnesses or conditions. A service need not cure a condition in order to be covered under EPSDT. Services that maintain or improve the child’s current health condition are also covered in EPSDT because they “ameliorate” a condition. Maintenance services are defined as services that sustain or support rather than those that cure or improve health problems. Services are covered when they prevent a condition from worsening or prevent development of additional health problems. The common definition of “ameliorate” is to “make more tolerable.”

Medi-Cal members under age 21 may require dental services that are not part of the current Medi-Cal Dental scope of benefits. Conversely, the dental service may be part of the Medi-Cal Dental scope of benefits for adult members but not for members under the age of 21, or the dental provider may want to provide the service at a frequency or periodicity greater than currently allowed by Medi-Cal Dental. In these cases, the child member may still be eligible for these services based upon submitted documentation that demonstrates the medical necessity to correct or ameliorate the child’s condition.

When is a Treatment Authorization Request (TAR) required for EPSDT services?

Providers must submit a TAR when a member under the age 21 needs an EPSDT medically necessary service, such as a service to correct or ameliorate (make tolerable) an identified condition, if that service otherwise would not be covered by Medi-Cal Dental. Examples of when a TAR is required include:

1. To perform a dental procedure that is not listed in the Manual of Criteria:
   - Providers should use the appropriate Current Dental Terminology (CDT) procedure code. Providers should not limit their comments to Field 34 of the TAR/Claim form but submit all documents that are needed to describe and support the medical necessity for the requested service(s).

Example: Alicia M. (age 12) has fractured an anterior tooth in an accident. Although only three surfaces were involved in the traumatic destruction, the extent is such that a bonded restoration will not be retentive. With adequate documentation (in this case, intraoral photographs of the fractured tooth) and narrative explanation by the dentist, a prefabricated or laboratory-processed crown may be authorized as an EPSDT service.

2. To perform a dental procedure that is listed in the Manual of Criteria when the member under the age of 21 does not meet the published criteria:
   - Providers should fully document the medical necessity to demonstrate it will correct or ameliorate the member’s condition.

Example 1: John S. (age 17) has a craniofacial anomaly with multiple edentulous areas. The edentulous areas cannot be adequately restored using conventional prosthetics – an implant-retained fixed prosthesis may be authorized as an EPSDT service.

Example 2: Cindy T. (age 10) suffers from aggressive periodontitis and requires periodontal scaling and root planning. The Manual of Criteria states this procedure is not a benefit for patients under 13 years of age. However, as a documented medically necessary periodontal procedure, it may be authorized as an EPSDT service when there is radiographic evidence of bone loss.

3. To perform a dental procedure when the member under the age of 21 needs a dental service more frequently than is specified in the Manual of Criteria:
   - Providers should fully document the medical necessity to demonstrate it will correct or ameliorate the member’s condition.

What if the procedure has already been rendered and a TAR was not submitted?

In a situation where a TAR was not submitted for a procedure in which an EPSDT medically necessary service was needed, the provider shall submit a claim with all documentation to support the medical necessity. The provider shall also indicate the reason that a TAR was not submitted.

What should I tell my patients about EPSDT?

Using both written materials and in person or over the phone dialogue, dental providers should inform Medi-Cal members under age 21, or their parents, about EPSDT benefits and services and how to access them. Providers should tell eligible patients and their families about all the following:

- The value of preventive services and screenings.
- The services available under EPSDT.
- Where and how to obtain EPSDT services.
- EPSDT services are free to eligible individuals under age 21.

Are dental services to resolve medical conditions covered under EPSDT?

In some cases, dental services are necessary to resolve or improve an associated medical condition. For example, a child's speech therapist determines that a diagnosed speech defect or disorder cannot be resolved without dental treatment. A consultation letter from the speech therapist should be included with the TAR/Claim form.

Example: Andre W. (age 13) does not qualify for orthodontic services per the handicapping malocclusion criteria (he scores below 26 points on the HLD Index Score Sheet or does not have one of the six automatic qualifying conditions). However, a speech pathologist has determined that his malocclusion is a prime etiologic factor in his speech pathosis – resolution cannot be achieved unless his malocclusion is corrected. In this case, orthodontics may be authorized as an EPSDT service.

Are orthodontic services covered under EPSDT?

A TAR for orthodontic services when the child or youth under the age of 21 does not have one of the six automatic qualifying conditions or does not score 26 points or above, must include a completed Handicapping Labio-Lingual Deviation (HLD) Index Score Sheet (DC-016 09/18) in addition to other documentation requirements listed in the Manual of Criteria. The review of active orthodontic services also requires the submission of diagnostic casts.

The provider is required to submit all documentation required for the procedure per the Manual of Criteria and the clinical information required to determine medical necessity under EPSDT guidelines.

What kind of clinical information does Medi-Cal Dental need to determine the medical necessity?

Providers must consult the Manual of Criteria, to identify the documentation and clinical information required for submittal to determine medical necessity under EPSDT guidelines.

Whom can I call to obtain further information about the EPSDT requirements under Medi-Cal?

Please call the Telephone Service Center at (800) 423-0507 for any questions or to obtain more information regarding EPSDT services.

Non-Emergency Medical Transportation (NEMT)

Medi-Cal Dental provides non-emergency transportation services to eligible Medi-Cal members. Members can request transportation from their homes to their appointed dental locations or other facilities; however, such requests are only approved for recipients who are eligible for Medi-Cal on the date of service and whose physicians or dentists have demonstrated medical necessity through prior authorization. Adjudication of claims will be subject to prior authorization and will be approved when the recipient's medical and physical condition is such that transport by ordinary means of public or private conveyance is medically contraindicated and the transportation is required for the purpose of obtaining necessary health care covered by the Medi-Cal program.

Medi-Cal Dental providers are authorized to contact NEMT providers and submit all requests to transportation companies. The transportation company will then submit a TAR to the Department of Health Care Services (DHCS), Clinical Assurance and Administrative Support Division (CAASD), who will review and approve the TAR if medical necessity is demonstrated.

Please note that NEMT necessary for obtaining medical services is covered but subject to the written prescription of a physician or dentist.

Medi-Cal Dental providers are responsible for the submission of the Nonemergency Medical Transportation (NEMT) Required Justification form (DHCS 6182) to the pre-designated transportation companies and every TAR must be accompanied by a legible prescription or order sheet signed by the physician or dentist for the member. The prescription requirements must include the following:

1. Purpose of the trip
2. Frequency of necessary medical visits/trips or the inclusive dates of the requested medical transportation
3. Medical or physical condition that makes normal public or private transportation inadvisable

Note: When transportation is requested on an ongoing basis, the chronic nature of a recipient's medical or physical condition must be indicated and a treatment plan from the physician or therapist must be included. A diagnosis alone, such as "multiple sclerosis" or "stroke," will not satisfy this requirement.

The Medi-Cal field office consultant needs the above information to determine the medical necessity of a specialized medical transport vehicle and the purpose of the trip. Incomplete information will delay approval.

Medi-Cal Dental has provided a list of pre-designated transportation companies in each county for dental providers to contact. Providers are encouraged to refer to work with the NEMT companies if dental providers have questions.

A list of approved NEMT providers is attached to bulletin Volume 31, Number 8.

Non-Medical Transportation (NMT)

Pursuant to Welfare and Institutions Code (W&I Code) Section 14132 (ad) (1), effective for dates of service on or after July 1, 2018, non-medical transportation (NMT) is a covered Medi-Cal benefit, subject to utilization controls and permissible time and distance standards, for a member to obtain covered Medi-Cal services. The NMT benefit is eligible full-scope Medi-Cal fee-for-service members and pregnant women during pregnancy and for 60 days postpartum, including any remaining days in the month in which the 60th postpartum day falls. NMT includes transporting recipients to and from Medi-Cal covered medical, mental health, substance abuse, or dental services. Members enrolled in a Medi-Cal managed care health plan must request NMT services through their Member Services.

W&I Code 14132 (ad)(2)(A)(i) defines NMT as including, at minimum, round trip transportation for a recipient to obtain covered Medi-Cal services by passenger car, taxicab, or any other form of public or private conveyance. NMT services are a benefit only from an enrolled NMT Provider.

NMT does not include the transportation of sick, injured, invalid, convalescent, infirm or otherwise incapacitated recipients by ambulances, litter vans or wheelchair vans licensed, operated and equipped in accordance with state and local statutes, ordinances or regulations, since these would be covered as non-emergency medical transportation (NEMT) services. For more details and information on eligibility for NMT/NEMT services, refer to the guide located here.

Table 4: Omnibus Budget Reconciliation Act (OBRA) Emergency Services Only

Those who qualify for Medi-Cal benefits as OBRA members have limited benefits are only eligible for emergency dental services.

An emergency dental condition is a dental condition manifesting itself by acute symptoms of sufficient severity including severe pain, which in the absence of immediate dental attention could reasonably be expected to result in any of the following:

- placing the patient's health in serious jeopardy,
- serious impairment to bodily functions,
- serious dysfunction of any bodily organ or part.

. To be officially recognized as an emergency, the condition must be properly documented and confirmed by a qualified professional following specific California rules (Title 22, Section 51056).

Please note that TARs are not allowed and may not be submitted for these members. If a TAR is submitted for any of the procedures described below, it will be denied.

The following are identified as emergency dental procedures for OBRA members:
